

The cost to operate a full-time athletic program is quite high and yearly program fees only cover a portion of the programs' actual expenses. ASC uses various other income generating avenues to make up the shortfall and to keep program fees as low as possible. These income-generating opportunities may or may not occur within each yearly operating cycle.

ASC has adopted the policy whereas athlete monies (program fees) are spent first. In the case where an athlete chooses to leave the program mid-season they will only be refunded that portion of their program fees as per the schedule below. Should an athlete be injured mid-season, but the athlete is able to return to training within the season, we would still consider him or her to be part of the team and, as such, the staff would assist the athlete in identifying treatment for the injury as well as assisting the athlete with their recovery, as no refunds or credits would be applicable.
