

Programmer Fractals

Please put your name down next to the person/people you are mentoring in your fractal. Feel free to add names as we go. It would be great to include some notes about what you're focusing on, how/when you're meeting, etc. so we can inspire each other to meet and gain ideas on what to cover with our fractals.

Daniel met with Pam, May 21st, 2025

I met with Pam to help her optimize her gear for worship. We realized that she was using a Chromebook, which doesn't have a Zoom app, and that's necessary for getting the best sound. So her next task is to get hold of her Macbook and install the Zoom app. We will meet again on May 30th.
