

This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. If you are unsure of the exact time of day of your birth (or the date or the place), the reading will probably not seem as accurate as it could be in certain places, but other parts will seem to be very appropriate. You will notice at certain places in the reading that contradictory information seems to be given. This is to be expected, because the personality of most people is extremely complex. For example, at times we are quite shy and at other times we are very aggressive, and so forth. You will also notice that, at certain points in the reading, certain patterns may be repeated over and over, especially in a longer more detailed report than this one. This is also to be expected. This simply means that your horoscope has an extremely strong focus on this particular pattern and that you should pay extra close attention to what is said about it. Now, on with your Report!

Name: Kyun July 1 1972 12:00 PM Time Zone is JST Busan, SKOR

Rising Sign is in 02 Degrees Libra

Very attractive and popular, your charm helps you to get your own way and prevents others from getting angry with you. "Peace and harmony at all costs" is your battle cry. You always try to ameliorate or to cosmetically hide any physical ugliness or any angry feelings between people. Flashy, but not gaudy, you prefer to dress elegantly. You generally have good taste in music, art and literature. Beware of the tendency to compromise yourself in your attempt to be agreeable at all times. A bit of a social butterfly, at times you can be vain and lazy. For the most part, however, you are gracious and affectionate, and your refined and aristocratic demeanor serves as a role model to others.

Sun is in 09 Degrees Cancer.

Very emotional and sensitive, you have an intuitive understanding of the "vibes" around you. You tend to be quite generous, giving, loving and caring, but only when your own needs for emotional support, love and security have been met. If they are not met, you tend to withdraw into yourself and become very insecure and selfish. Your home and family (especially your mother or the person who played that role for you early on) represent security for you and thus assume a larger-than-life importance. Very sentimental, you have vivid and long- enduring memories of the past. No matter how well adjusted you are, you will always need a secret quiet place of your own in order to feel at peace. Feeding others can give you great pleasure you would enjoy being part of a large family.

Moon is in 00 Degrees Pisces.

You have strong feelings and are extremely sensitive. It would help if you had a thicker skin -- you tend to react emotionally to every situation you come across. Kind, gentle and considerate of the feelings of others, you are good at taking care of the sick, wounded and helpless. But you tend to absorb the energy of others -- so avoid those who are always negative. You have a rich, creative and lively imagination, but you should be careful not to spend all your time daydreaming. Very intuitive, you have good ESP and may be quite clairvoyant or psychic. Remember that you too have the right to get what you want from life. If you are always defensive and kowtowing to others, people will take advantage of you and exploit you.

Mercury is in 03 Degrees Leo.

You are usually quite convinced that your own ideas are correct and you enjoy persuading others that they are. At times, you are very stubborn and proud of your beliefs and principles, and you get very defensive when they are challenged. You appreciate truth and honesty -- you practice it yourself and expect it in others. You have good talent for organizing, directing and planning. You delight in being asked for your advice and counsel.

Venus is in 19 Degrees Gemini.

You are friendly, warm, open and tolerant toward others. You love variety in relationships, indeed you may even prefer to maintain more than one relationship at a time! Very witty and humorous, you have the ability

to amuse and please others. This makes you quite popular. You love to play the field and thus find it difficult to settle down and make any deep emotional commitments. Your innate charm and vivacity makes you welcome most everywhere you go.

Mars is in 01 Degrees Leo.

You are a very proud person. Strong, bold, courageous and self-possessed, you love to be the one to initiate significant actions. When people expect a lot of you, you respond positively and will work hard in order to maintain their respect. But when your dignity or pride is threatened, you tend to become sarcastic, arrogant and domineering. Try not to take any challenge or resistance that you meet as a personal affront. You are very stubborn about your right to live your life according to your own principles.

Jupiter is in 02 Degrees Capricorn.

You tend to feel that the only results that are worthwhile are the results that are concrete and demonstrable. You distrust abstract solutions and appreciate measurable achievements. An excellent organizer and planner, you are optimistic as well as practical and realistic about what can and what cannot happen. Very responsible, you consider it a personal weakness to be wrong about anything. This makes you appropriately cautious. You are very efficient but you tend to be cool and detached.

Saturn is in 13 Degrees Gemini.

You are such a clear thinker and speaker, with a logical orderly mind, that you are repulsed by abstract, intangible or unorganized thoughts or ideas. But you tend to get uptight about speaking in public because you are afraid to be wrong. Remember that the best way to learn is by making mistakes. Also, you will be so carefully prepared that you probably will not make many mistakes anyway. To be interesting to you, ideas have to be practical and useful.

Uranus is in 14 Degrees Libra.

You, as well as your entire peer group, have a very free, unstable and unconventional approach to relationships and emotional commitments. You will be attracted to experiments in marriage and shared lifestyles. Personal freedom is more important to you than entangling emotional bonds. In the realm of art and aesthetics, you are attracted to the bizarre, shocking and unusual.

Neptune is in 02 Degrees Sagittarius.

You, and your entire generation, are heavily involved in investigating and idealizing foreign and exotic intellectual systems and religious philosophies. The most extreme ideals will be pursued with gusto. You will be at the forefront of humanitarian attempts to improve the lot of those who are in need of assistance. You will be comfortable with the concept of the "global village."

Pluto is in 29 Degrees Virgo.

For your entire generation, this will be a time when profound changes in society's attitude toward work, duty and responsibility will be initiated. Radical changes in attitudes toward personal health and general nutrition will be promulgated and gain wide acceptance and practice.

N. Node is in 26 Degrees Capricorn.

You rarely get involved closely with anyone unless he or she has something specific and practical to offer you. You tend to be "all business" when it comes to dealing with others. You're usually so intently focused on a particular goal that you rarely have time for social niceties or casual fellowship. But you can definitely be counted on by others to get things done. When you say that you'll do something, you do it. As such, you're a valuable member of any team situation and will probably rise to a position of leadership within the group. Your trustworthiness and sense of responsibility are unquestioned. But do try to avoid the temptation to "use" others to reach your goals -- they might come to resent you.

This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. Name: Emily October 23 1980 12:00 PM Time Zone is JST Jinju, SKOR

Rising Sign is in 06 Degrees Capricorn

You are practical and reserved but very ambitious. An achiever and a hard worker, you respect success. Older looking and very serious as a youth, things lighten up and you relax more as you mature. You have a serious view of the world as being a difficult place to be in. Very envious of those who seem to have an easier life than you have, relaxation and play do not come easily. It is important that you had abundant parental support as a child so that you do not feel lonely and isolated as an adult. Generally, you have a good, earthy sense of humor that can carry you through when times really do get tough. You are purposeful, self-willed, industrious, realistic and responsible.

Sun is in 29 Degrees Libra.

Very sociable, you enjoy being with others and definitely prefer not be alone. Warm and affectionate, you go out of your way to make others like you. You despise ugliness, for you being surrounded by beauty and harmony is a necessity of life. You prefer fine clothing, an attractive home and pleasant surroundings wherever you are. Your refined tastes apply to music and to art as well. At times, you are very indecisive you waver and falter when forced to make a choice because you have the ability to see both sides of any question. The positive part of this is that you are very fair-minded and can be trusted to settle disputes. Your greatest challenge is to take any one- on-one encounter and make the most of it.

Moon is in 19 Degrees Aries.

High-spirited and courageous, you are a fighter when your emotions are aroused. The degree of force and drive that you can bring to any effort sometimes surprises others. You have hair-trigger reactions to specific stimuli and tend to "let it all hang out." You sometimes act before you think and do things on the spur of the moment, and that sometimes gets you into trouble. Your moods change quickly -- you have quite a temper, but you don't hold grudges. Very independent, with an extremely strong and forceful personality, you are known for being impulsive, careless, reckless, foolhardy, rash and daring.

Mercury is in 19 Degrees Scorpio.

You are a born investigator. You are fascinated by secrets and mysteries and unanswered questions of any kind. When you become upset or angry, your emotional reactions are overpowering -- reason and logic disappear in an uncontrollable passionate outburst. You tend to keep your thoughts secret and bottled up and this makes others regard you with suspicion. It is not that you are trying purposely to be evasive, it is just that you would rather not deal with the explosions and hassles that often occur when you reveal your true feelings and opinions. Your sense of humor tends toward sarcasm and irony.

Venus is in 21 Degrees Virgo.

You express your love and affection through selfless service to people or causes. You have a tendency to underestimate yourself and doubt your self-worth. This is very demeaning and should be avoided -- learn to love yourself as well as you do others. Your standards of perfection are very high -- you are attracted to

relationships based on duty and responsibility. You are supercritical of yourself and others and, at times, prefer to be alone rather than deal with any imperfections in yourself or in those with whom you might relate.

Mars is in 07 Degrees Sagittarius.

Your every action is motivated by high moral standards and ideals. You will work very hard to improve the lot of the world at large, but you demand action about it -- you do not like to just sit around and talk about doing it in an abstract manner. You like to be where the real action is. You resist mightily any attempts to limit your freedom and you will assist anyone who feels put down and restricted. You are extremely restless by nature -- physical exercise is very important to you if you would maintain your health.

Jupiter is in 29 Degrees Virgo.

You feel most expansive and at ease with yourself when you are doing something that you consider to be practical or useful. You enjoy being dutiful and carrying out responsibilities. You gladly take on the little tasks that others seem to want to avoid. At times, you carry things to extremes and feel guilty anytime you do something that you consider to be self-indulgent. While it is appropriate for you to demand little for yourself in life, try to loosen up once in a while -- go out on a fling and enjoy yourself!

Saturn is in 03 Degrees Libra.

Although you take quite a while to make decisions, you usually consider all sides to a question, all the pros and cons, and the solution you come up with is very often the correct one. You tend to be very reserved and shy, but, once you make a commitment to someone (in either a business or personal relationship), the partnership is forever. You have a strong sense of justice and fair play and greatly respect the laws and institutions by which you are governed. As such, you are outraged when others break laws or show contempt for authority.

Uranus is in 24 Degrees Scorpio.

You, and your peer group, demand to confront life at its deepest and most meaningful levels. Very compulsive and obsessive in your approach to everything, you will avoid anything that is casual or superficial, especially when it comes to relationships. You will seek out and explore new methods of healing as well as different ways to deal with deep-seated emotional problems.

Neptune is in 20 Degrees Sagittarius.

You, and your entire generation, are heavily involved in investigating and idealizing foreign and exotic intellectual systems and religious philosophies. The most extreme ideals will be pursued with gusto. You will be at the forefront of humanitarian attempts to improve the lot of those who are in need of assistance. You will be comfortable with the concept of the "global village."

Pluto is in 22 Degrees Libra.

For your entire generation, this is a time of radical changes in society's attitude toward marriage and interpersonal relationships. There is a general fear and awe at the power inherent in making emotional or contractual commitments -- they will not be entered into lightly.

N. Node is in 17 Degrees Leo.

You prefer to take the leadership role when it comes to dealing with others. You enjoy administering and organizing group activities. Others tend to listen to your suggestions because you aren't usually overly domineering or patronizing in your interactions. You love to entertain in a big way -- you're at your best when throwing a large and lavish party. Your popularity and social success are assured as long as you don't take others for granted -- resist the temptation to become snobbish and arrogant.

This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. If you are unsure of the exact time of day of your birth (or the date or the place), the reading will probably not seem as accurate as it could be in certain places, but other parts will seem to be very appropriate. Name: Stella January 10 1961 5:00 AM Time Zone is AWST jeju, SKOR

Rising Sign is in 24 Degrees Sagittarius

You are known for being open, frank, outgoing and honest. At times, though, you are also blunt and quite indiscreet. Others have to learn not to take everything you say personally, because you usually do not mean any harm. You appreciate living your life in a straightforward and simple manner -- you dislike social niceties and consider them to be hindrances to real communication. You have lots and lots of energy and tend to become quite restless if you feel confined. You demand the freedom to do as you choose -- you must be self-directed or you feel trapped and anxious. With your abundant energy, you enjoy being outdoors, and you should be attracted to physical exercise or to those forms of sport which can help you burn off some of that excess energy. Very gregarious, you love to socialize -- your innate enthusiasm livens up any gathering.

Sun is in 19 Degrees Capricorn.

Extremely serious and mature, you are capable of accepting responsibilities and do so willingly. Others expect you to be dutiful as a matter of course. You tend to get angry when people get rewards after not having worked anywhere near as hard as you. You are goal-oriented and an achiever by nature -- you're a hard worker and are justifiably proud of the tangible results of your efforts. You tend to have "tunnel-vision" -- this allows you to block out extraneous matters that might distract others and to concentrate totally on the matter at hand. As such, you are the ideal one to manage or administrate any ongoing project and to be practical and efficient at it. You are not a fast worker, but you are quite thorough. You are known for being totally persistent, tenacious and tireless in reaching your goals.

Moon is in 16 Degrees Libra.

Affectionate, warm and friendly, life must be a "beautiful" experience for you. Unpleasantness should be avoided at all costs. You tend to overlook other people's faults and you would rather give in than fight. You are uncomfortable with strangers, but at ease and sociable with friends and associates. Indeed, you would rather socialize than work -- you can use your prodigious charm to avoid unpleasant tasks. You need the support and assistance of another in order to get you started on any new project -- you are not a self-starter. Be careful of a tendency to be overly self-indulgent (i.e., lazy). Your refined aesthetic sensibilities attract you to music, dance, art and any other cultured activity.

Mercury is in 21 Degrees Capricorn.

You are a careful thinker, very cautious and conservative. You are quite skillful at organizing, directing and planning activities. Practical and useful things interest you -- you are not attracted to abstract thoughts or ideas. With your tendency to be highly focused and very goal-oriented, you have a good head for business. But beware of a tendency to be narrow-minded and dogmatic. Your sense of humor tends toward being earthy and slapstick crude.

Venus is in 05 Degrees Pisces.

You have a dreamy, fanciful, romantic nature and a very creative imagination. Indeed, at times, your private fantasies are more appealing than the reality around you and it is difficult for you to leave them. You tend to be unselfish and giving in relationships and are extremely sensitive of the needs of others. Be very sure that those you help are worthy of your devotion and are not merely taking advantage of your innocence and naivete.

Mars is in 04 Degrees Cancer.

Your moods are very important to your overall well-being. You are confident and self-assertive when you are feeling upbeat, and you are retiring, irritable and grumpy when you get depressed about anything. Very sensitive, you wear your heart on your sleeve. You are easily angered whenever you think someone has slighted you. It is best for you to show your anger immediately and let it all out, rather than to try to hold it in or to hold grudges for a long time. You're extremely loyal and defensive of your family, neighborhood, community and culture.

Jupiter is in 16 Degrees Capricorn.

You tend to feel that the only results that are worthwhile are the results that are concrete and demonstrable. You distrust abstract solutions and appreciate measurable achievements. An excellent organizer and planner, you are optimistic as well as practical and realistic about what can and what cannot happen. Very responsible, you consider it a personal weakness to be wrong about anything. This makes you appropriately cautious. You are very efficient but you tend to be cool and detached.

Saturn is in 20 Degrees Capricorn.

Very serious-minded and mature, you have the ability to take on responsibilities and to carry out important duties. You can also be trusted to be extremely practical and thrifty. A good organizer, you are the ideal one to be counted on to take a clearly defined project through to its logical conclusion. An achiever, you pride yourself on your ability to focus your attention totally on some worthy goal and then attain it.

Uranus is in 25 Degrees Leo.

You, and your peers as well, demand complete and total freedom of self-expression. You want to make your mark in the world according to your own lights and will brook no interference from traditional authority figures, especially if they attempt to mold or shape you in any way. You are honest and forthright, but a bit offbeat and eccentric. The lack of self-discipline may hinder you from reaching your goals as quickly as you would like.

Neptune is in 11 Degrees Scorpio.

You, and your entire generation, are extremely interested in anything deep and mysterious. You will explore and idealize the benefits that can accrue from the study of the occult, healing and psychology. You are willing to experiment with substances like drugs in order to push your understanding of your inner being to the extreme.

Pluto is in 07 Degrees Virgo.

For your entire generation, this will be a time when profound changes in society's attitude toward work, duty and responsibility will be initiated. Radical changes in attitudes toward personal health and general nutrition will be promulgated and gain wide acceptance and practice.

N. Node is in 07 Degrees Virgo.

You're usually quite at ease in leaving leadership roles in the hands of others. You would rather tend to the thousand and one details that need to be accomplished to keep any group going. Although you're very fussy and high-minded when it comes to choosing your associates, once your loyalty is given you can be trusted with many of the practical aspects of any project that is being undertaken. Usually quite unselfish, you will toil long hours in the service of any worthy cause that demands your attention. But be careful that your perfectionist tendencies don't get in the way of making real progress. (In other words, don't waste your time dusting clean shelves!)

This report has been created especially for you. It represents your Unique picture at the time you were born and at the

place you were born. If you are unsure of the exact time of day of your birth (or the date or the place), the reading will probably not seem as accurate as it could be in certain places, but other parts will seem to be very appropriate. Name: Sally

January 19 1962

8:00 PM Time Zone is MT

Busan, SKOR

Rising Sign is in 04 Degrees Virgo

You tend to be very shy and not very self-assertive. You are supercritical about how you appear to others. Even though you may think you are uninteresting and dull, you are actually quite soft-spoken, orderly, neat and very likable. You are a perfectionist with high standards, and at times you can be quite tactless in pointing out the faults of others. Very practical, efficient and purposeful, your appearance and bearing reflect your need to appear graceful, sensible and reserved. You have a crisp, no-nonsense approach to dealing with others. Never lazy or self-indulgent, you tend to be dedicated to the work ethic.

Sun is in 28 Degrees Capricorn.

Extremely serious and mature, you are capable of accepting responsibilities and do so willingly. Others expect you to be dutiful as a matter of course. You tend to get angry when people get rewards after not having worked anywhere near as hard as you. You are goal-oriented and an achiever by nature -- you're a hard worker and are justifiably proud of the tangible results of your efforts. You tend to have "tunnel-vision" -- this allows you to block out extraneous matters that might distract others and to concentrate totally on the matter at hand. As such, you are the ideal one to manage or administrate any ongoing project and to be practical and efficient at it. You are not a fast worker, but you are quite thorough. You are known for being totally persistent, tenacious and tireless in reaching your goals.

Moon is in 14 Degrees Cancer.

For the most part, you are very strong and secure emotionally. You intuitively know what to do to make others feel comfortable, loved, accepted and needed. You naturally enjoy feeding and taking care of others. Be careful that your mothering does not turn into smothering. At times, you tend to feel that those to whom you are attached can never do anything without your assistance and support. Extremely sensitive by nature, it hurts you deeply whenever anyone criticizes you. You have an almost desperate need to be loved and wanted and needed by everyone with whom you come into contact, and you go out of your way to be accommodating to them.

Mercury is in 17 Degrees Aquarius.

You tend to be very opinionated -- you have strongly felt notions about things and are quite vocal about expressing and defending them. Yet you are also an original thinker -- you enjoy shocking others with your offbeat, original thoughts. You appreciate and need mental and intellectual stimulation. Your judgment is usually fair and impartial -- you can be a good critic because you can remain objective and unemotional about most things.

Venus is in 27 Degrees Capricorn.

You tend to keep your feelings under control -- emotions are only released in serious or important situations. You are distrustful of others whose behavior could be judged excessive or immoderate. As such, you prefer to relate only to those who are older than you or to those whose position is such that respect and

duty are more important for both of you than passion or emotional response. Be careful, however, of relationships that are merely based on practicality or utility or you will ultimately be lonely.

Mars is in 19 Degrees Capricorn.

Extremely ambitious, you are willing to work very hard to reach the goals you have set for yourself. Very practical, cautious and conservative, you demand tangible results for your efforts. You need to excel in whatever you do, and you have the required sense of responsibility, dedication and self-discipline to bring it about. Beware of your tendency to judge others only by their degree of status and prestige, or by how well they will be able to advance you in your climb to the top.

Jupiter is in 14 Degrees Aquarius.

Your personal growth occurs when you have the freedom to do things in new and interesting ways -- this brings out your natural inventiveness. You are an individualist, but you are also attracted to mass movements that emphasize social betterment and you will devote much time and energy to their efforts. Very fair-minded and objective, you have extraordinary skills at organization and administration.

Saturn is in 01 Degrees Aquarius.

Your personal sense of values is a reflection of the value structures of your peer group and of those you respect and admire. Try to be more critical in your acceptance of these values -- you tend to prejudge the abilities of those you trust and then follow what they say blindly. Basically very conservative, you prefer orderly, systematic changes and fear doing things rashly or impulsively. Ideas and philosophies must have some sort of immediately realizable, utilitarian function in order for you to pay any attention to them.

Uranus is in 29 Degrees Leo.

You, and your peers as well, demand complete and total freedom of self-expression. You want to make your mark in the world according to your own lights and will brook no interference from traditional authority figures, especially if they attempt to mold or shape you in any way. You are honest and forthright, but a bit offbeat and eccentric. The lack of self-discipline may hinder you from reaching your goals as quickly as you would like.

Neptune is in 13 Degrees Scorpio.

You will explore and idealize the benefits that can accrue from the study of the occult, healing and psychology. You are willing to experiment with substances like drugs in order to push your understanding of your inner being to the extreme.

For your entire generation, this will be a time when profound changes in society's attitude toward work, duty and responsibility will be initiated. Radical changes in attitudes toward personal health and general nutrition will be promulgated and gain wide acceptance and practice.

N. Node is in 18 Degrees Leo.

You prefer to take the leadership role when it comes to dealing with others. You enjoy administering and organizing group activities. Others tend to listen to your suggestions because you aren't usually overly domineering or patronizing in your interactions. You love to entertain in a big way -- you're at your best when throwing a large and lavish party. Your popularity and social success are assured as long as you don't take others for granted -- resist the temptation to become snobbish and arrogant.

This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. If you are unsure of the exact time of day of your birth (or the date or the place), the reading will

probably not seem as accurate as it could be in certain places, but other parts will seem to be very appropriate. You will notice at certain places in the reading that contradictory information seems to be given. This is to be expected, because the personality of most people is extremely complex. For example, at times we are quite shy and at other times we are very aggressive, and so forth. You will also notice that, at certain points in the reading, certain patterns may be repeated over and over, especially in a longer more detailed report than this one. This is also to be expected. This simply means that your horoscope has an extremely strong focus on this particular pattern and that you should pay extra close attention to what is said about it. Now, on with your Report!

Name: Catherine September 23 1965 12:00 PM Time Zone is MT Busan, SKOR

Rising Sign is in 17 Degrees Sagittarius

You are known for being open, frank, outgoing and honest. At times, though, you are also blunt and quite indiscreet. Others have to learn not to take everything you say personally, because you usually do not mean any harm. You appreciate living your life in a straightforward and simple manner -- you dislike social niceties and consider them to be hindrances to real communication. You have lots and lots of energy and tend to become quite restless if you feel confined. You demand the freedom to do as you choose -- you must be self-directed or you feel trapped and anxious. With your abundant energy, you enjoy being outdoors, and you should be attracted to physical exercise or to those forms of sport which can help you burn off some of that excess energy. Very gregarious, you love to socialize -- your innate enthusiasm livens up any gathering.

Sun is in 29 Degrees Virgo.

Extremely careful and cautious by nature, you value neatness and order above all else. You rigorously practice very high standards of living and conduct and you demand the same of everyone with whom you come into contact. At times, you are so supercritical that you are merely nit-picky. You are very good at practical skills and quite handy with tools of all kinds. You are also greatly concerned with hygiene, cleanliness and personal health problems. Very likely your health is much better than you think it is -- don't worry so much! Extremely methodical and analytical, you are a perfectionist -- this makes you the perfect person to carry out highly detailed, precise operations. But, at times, you pay so much attention to details that you lose sight of the larger issues.

Moon is in 02 Degrees Virgo.

You tend to be serious-minded but cheerful for the most part. You need tasks that engage both your mind and your hands. A careful worker, you enjoy making things. You are neat and orderly, and are very concerned with good health habits. Fastidious to the extreme, you cannot tolerate messes and will immediately clean them up. Reserved, shy, and very self-critical, you tend to be very hard on yourself. You usually will go out of your way to be helpful and useful to others. Practical, reliable, efficient and conservative, at times you are a bit of a prude. You are known to lead a simple, uncomplicated, frugal, methodical and unemotional lifestyle. You are devoted and caring to those you love.

Mercury is in 26 Degrees Virgo.

Very thorough and efficient, you pay attention to the minor but important details of any project. You are a careful thinker who can learn complicated, intricate techniques. You are attracted to practical, useful skills and are probably good at working with your hands. You are very critical of yourself and others, sometimes too much so, and you get the reputation of being a nag or of being nit-picky. Your first reaction to any situation is to try to organize, classify and analyze everything!

Venus is in 10 Degrees Scorpio.

Your feelings about others are deep, powerful, intense and complex. When you like someone, you do so totally and obsessively if you do not like someone, they do not exist. Your faithfulness and loyalty to your lover is unquestioned, indeed at times it is too much so -- you get so possessive that you almost smother your partner. At times, your feelings are kept deep within you and, because they are so complex and

intense, they frighten you -- this is the way that you try to ignore them. But the more you try to do this, the more explosive things get when you eventually do express them.

Mars is in 22 Degrees Scorpio.

Your likes and dislikes are strong and intense, never casual or superficial. You are known for your persistence and willful obsession. Once you have decided on a course of action, you are unstoppable. Your emotional actions tend to be extreme, although you try to keep them muted. You are not quick to anger, you do slow burns. And you tend to release your anger as sarcasm or irony. Beware of your tendency to hold grudges and to be vengeful. When you do fight, or release your internal tensions, you do so body and soul -- you become totally passionate and your outbursts are awesome to behold.

Jupiter is in 00 Degrees Cancer.

You must be emotionally secure in order to grow and develop. You are happiest when your family and community support and nourish you and boost your morale. Whether your childhood experiences of love and emotional dependability were positive or negative will set the tone for your emotional growth and stability as an adult. When you feel at ease with yourself, you are able to offer assistance to those who need a helping hand.

Saturn is in 12 Degrees Pisces.

Your tendency to think that your life is out of control is based on an unreasonable fear, probably connected with an unfortunate experience with the person who filled the father figure role in your early life. Learn to take responsibility here and now for your own life. Try to stop having unrealistic expectations about guide figures. Remember that they are merely human, with all the same faults and self-doubts that you have. When you get confused or uncertain, try to simplify your lifestyle -- things will then become easier to bear.

Uranus is in 16 Degrees Virgo.

You, and all your peers, will be known for the degree of intensity with which you dislike normal everyday routines and chores. You will go out of your way to invent innovative, unique and timesaving ways to perform the various mundane routines and duties of living. You will be attracted to all manner of practical and useful gadgets -- anything that will make your daily life more exciting.

Neptune is in 18 Degrees Scorpio.

You, and your entire generation, are extremely interested in anything deep and mysterious. You will explore and idealize the benefits that can accrue from the study of the occult, healing and psychology. You are willing to experiment with substances like drugs in order to push your understanding of your inner being to the extreme.

Pluto is in 16 Degrees Virgo.

For your entire generation, this will be a time when profound changes in society's attitude toward work, duty and responsibility will be initiated. Radical changes in attitudes toward personal health and general nutrition will be promulgated and gain wide acceptance and practice.

N. Node is in 07 Degrees Gemini.

You will consciously seek out many different contacts with others throughout your life. Many of these will be of very short duration, not necessarily because you're fickle, but just because you always seem to be more excited by the prospect of meeting someone new rather than prolonging your present relationships. At any rate, you will learn something new from almost everyone you come across -- intellectual stimulation is what you crave from others. You will be well known to neighbors and relatives, partly due to your curiosity about what they're doing -- you delight in keeping up-to-date about the latest news (and gossip).

This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. If you are unsure of the exact time of day of your birth (or the date or the place), the reading will probably not seem as accurate as it could be in certain places, but other parts will seem to be very appropriate. You

will notice at certain places in the reading that contradictory information seems to be given. This is to be expected, because the personality of most people is extremely complex. For example, at times we are quite shy and at other times we are very aggressive, and so forth. You will also notice that, at certain points in the reading, certain patterns may be repeated over and over, especially in a longer more detailed report than this one. This is also to be expected. This simply means that your horoscope has an extremely strong focus on this particular pattern and that you should pay extra close attention to what is said about it. Now, on with your Report!

Name: Claire January 24 1978 11:40 AM Time Zone is JST Ulsan, SKOR

Rising Sign is in 04 Degrees Taurus

Calm and deliberate, you hate to move quickly or act hastily. Very practical, every effort must count or you can't be bothered. Patient, persistent and steady, but very stubborn -- you can't be pushed or pressured into anything. You seem outwardly self-assured because you tend to repress your inner tension and turmoil. You exude an earthy warmth, friendliness and charm. You demand comfortable surroundings and appreciate the good life. Be careful of a tendency to be overly self-indulgent. At times, you are lazy and difficult to motivate. Overcoming inertia is a problem for you and, because you are not by nature a self-starter, it is often necessary for you to receive stimuli from others in order to get moving.

Sun is in 03 Degrees Aquarius.

You get bored with the status quo and are generally open to new things and ideas. An individualist and a free spirit, your friends are quite important to you as long as they do not try to tie you down by making too many emotional demands on you. Your thoughts are offbeat and you're a bit eccentric, but not always very changeable. As a matter of fact, you can be quite stubborn at times. Very fair-minded when dealing with large groups or broad issues, you are not always emotionally sensitive to the needs of individuals. Extremely objective, with good powers of observation, you would be qualified to study technical and complicated subjects, like science, computers or maybe even astrology.

Moon is in 01 Degrees Leo.

You always want to be proud of yourself and will never do anything that will make yourself look bad. You need the respect and admiration of others and enjoy attracting attention to yourself. Everything you do tends to be self-emphasized and self-exaggerated. Very stubborn, willful and independent yourself, be sure to allow others who are close to you the similar right to "be themselves." Your need for love, affection and reassurance, and your tendency toward vanity, allow you to have your head easily turned by flattery. The more insecure you are, the more you tend to be a showoff. You love games and sports as a matter of fact, you would usually rather play than work. Be careful of a tendency to be snobbish and uppity -- it does not become you.

Mercury is in 13 Degrees Capricorn.

You are a careful thinker, very cautious and conservative. You are quite skillful at organizing, directing and planning activities. Practical and useful things interest you -- you are not attracted to abstract thoughts or ideas. With your tendency to be highly focused and very goal-oriented, you have a good head for business. But beware of a tendency to be narrow-minded and dogmatic. Your sense of humor tends toward being earthy and slapstick crude.

Venus is in 04 Degrees Aquarius.

You are a friendly and outgoing individual, but close relationships are difficult for you to maintain due to your fear that they will cause you to lose your freedom. You attract friends and associates who are exciting, different and sometimes a bit odd. You are popular with others and enjoy working within a group toward group goals.

Mars is in 00 Degrees Leo.

You are a very proud person. Strong, bold, courageous and self-possessed, you love to be the one to initiate significant actions. When people expect a lot of you, you respond positively and will work hard in

order to maintain their respect. But when your dignity or pride is threatened, you tend to become sarcastic, arrogant and domineering. Try not to take any challenge or resistance that you meet as a personal affront. You are very stubborn about your right to live your life according to your own principles.

Jupiter is in 27 Degrees Gemini.

You have a logical, detached, objective view of most things. Your interests are wide-ranging and you are an avid student, with expertise in many different areas. You love to work things out in your mind -- everything you do is reduced to an exercise in logic and reason. You have the ability to grasp abstractions and to deal successfully with the larger issues of life. Your overemphasis on developing your powerful intellect can cause your emotional and intuitive abilities to atrophy unless you consciously choose to exercise them.

Saturn is in 28 Degrees Leo.

Extremely self-reliant, you set very high standards of conduct and decorum for yourself, and you expect others with whom you associate to be that way, too. It is important that you had a strong father figure or role model early in life to mold your life course and direction. When you feel that those around you are unworthy or behaving badly, you withdraw, preferring solitude rather than associating with those who might besmirch your reputation.

Uranus is in 16 Degrees Scorpio.

You, and your peer group, demand to confront life at its deepest and most meaningful levels. Very compulsive and obsessive in your approach to everything, you will avoid anything that is casual or superficial, especially when it comes to relationships. You will seek out and explore new methods of healing as well as different ways to deal with deep-seated emotional problems.

Neptune is in 17 Degrees Sagittarius.

You, and your entire generation, are heavily involved in investigating and idealizing foreign and exotic intellectual systems and religious philosophies. The most extreme ideals will be pursued with gusto. You will be at the forefront of humanitarian attempts to improve the lot of those who are in need of assistance. You will be comfortable with the concept of the "global village."

Pluto is in 16 Degrees Libra.

For your entire generation, this is a time of radical changes in society's attitude toward marriage and interpersonal relationships. There is a general fear and awe at the power inherent in making emotional or contractual commitments -- they will not be entered into lightly.

N. Node is in 08 Degrees Libra.

You find it very difficult to be comfortable being alone -- you would much prefer to be in an environment where many people are working together toward common goals. Your charming and sincere approach to others assures your popularity -- you have the gift of being able to ease tensions just by your mere presence. You're the perfect "team player" willing to sacrifice your own importance so that the group goal can be accomplished. Be careful, however, not to become overly dependent on your interactions with others -- you have personal private needs that should not be neglected.

This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. Name: Julie July 30 1964 12:30 AM Time Zone is MT Busan, SKOR

Rising Sign is in 03 Degrees Gemini

Extremely active by nature, you like to get around, meet people and do different things. Very restless, you just can't seem to stay put. You need to be involved in several projects at once in order to keep your mind stimulated. You like to read books and to write letters and to talk -- constantly. Seemingly ageless, you will always appear to be much younger than you really are. Very adaptable and inquisitive, you are always open to new ideas and experiences. A "jack-of-all-trades", you are lively and versatile. Because of the high nervous tension that you always seem to have, athletic activity would be a good way for you to burn off energy. But be careful of a tendency to experience things only superficially -- try to dig in and absorb things at a deeper level.

Sun is in 06 Degrees Leo.

More than a bit of a showoff, you love to be the center of attention! But others do not usually mind because they tend to enjoy your genuine warmth and affection. Very spirited and willful, proud and self-important at times, you demand your own way. You are quite honest, however, and the respect of others is very important to you. You never compromise yourself and you pursue your goals with persistence and dedication. Your regal presence and demeanor draws you to positions of leadership and authority. But beware of being overly hardheaded, domineering, ostentatious or patronizing or you will lose the goodwill and admiration that you enjoy. Very theatrical, you live life on a grand scale wherever and whenever possible. Your strength and energy vitalizes those who come in contact with you.

Moon is in 05 Degrees Aries.

High-spirited and courageous, you are a fighter when your emotions are aroused. The degree of force and drive that you can bring to any effort sometimes surprises others. You have hair-trigger reactions to specific stimuli and tend to "let it all hang out." You sometimes act before you think and do things on the spur of the moment, and that sometimes gets you into trouble. Your moods change quickly -- you have quite a temper, but you don't hold grudges. Very independent, with an extremely strong and forceful personality, you are known for being impulsive, careless, reckless, foolhardy, rash and daring.

Mercury is in 02 Degrees Virgo.

Very thorough and efficient, you pay attention to the minor but important details of any project. You are a careful thinker who can learn complicated, intricate techniques. You are attracted to practical, useful skills and are probably good at working with your hands. You are very critical of yourself and others, sometimes too much so, and you get the reputation of being a nag or of being nit-picky. Your first reaction to any situation is to try to organize, classify and analyze everything!

Venus is in 25 Degrees Gemini.

You are friendly, warm, open and tolerant toward others. You love variety in relationships, indeed you may even prefer to maintain more than one relationship at a time! Very witty and humorous, you have the ability to amuse and please others. This makes you quite popular. You love to play the field and thus find it difficult to settle down and make any deep emotional commitments. Your innate charm and vivacity makes you welcome most everywhere you go.

Mars is in 29 Degrees Gemini.

Your energies get turned on quickly whenever anything interests you. But you have a very short attention span and it is difficult for you to complete tasks because something else more interesting always seems to

be beckoning. You love to debate and argue, usually in a spirit of friendly disagreement. But watch out that you do not get too overly aggressive or antagonistic or others will be quick to take offense where none may have really been intended. You need to be in constant physical motion -- sports or daily exercise is a must for you if you are to feel fit and healthy.

Jupiter is in 22 Degrees Taurus.

Growth only occurs for you after you have found a stable lifestyle and a dependable, protective and secure environment. You are at your best when those around you provide you with a great deal of affection and support. When you feel insecure or threatened, you tend to become possessive and grasping and self-indulgent. You are an inveterate collector with an expensive preference for all the good things that life has to offer.

Saturn is in 03 Degrees Pisces.

Your tendency to think that your life is out of control is based on an unreasonable fear, probably connected with an unfortunate experience with the person who filled the father figure role in your early life. Learn to take responsibility here and now for your own life. Try to stop having unrealistic expectations about guide figures. Remember that they are merely human, with all the same faults and self-doubts that you have. When you get confused or uncertain, try to simplify your lifestyle -- things will then become easier to bear.

You will go out of your way to invent innovative, unique and timesaving ways to perform the various mundane routines and duties of living. You will be attracted to all manner of practical and useful gadgets -- anything that will make your daily life more exciting.

Neptune is in 15 Degrees Scorpio.

You, and your entire generation, are extremely interested in anything deep and mysterious. You will explore and idealize the benefits that can accrue from the study of the occult, healing and psychology. You are willing to experiment with substances like drugs in order to push your understanding of your inner being to the extreme.

Pluto is in 12 Degrees Virgo.

For your entire generation, this will be a time when profound changes in society's attitude toward work, duty and responsibility will be initiated. Radical changes in attitudes toward personal health and general nutrition will be promulgated and gain wide acceptance and practice.

N. Node is in 01 Degrees Cancer.

You genuinely enjoy meeting other people, but you're at your best if you can do so from the comfort of your own home. You prefer others to come to you and tend to feel uncomfortable about leaving your home or neighborhood for any extended period of time. Those who do come in contact with you are struck by your caring and obliging nature -- you really make them feel at home. You form the closest ties, however, with members of your immediate family, especially your parents and children. You're at your best attending or organizing family reunions!

This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. If you are unsure of the exact time of day of your birth (or the date or the place), the reading will probably not seem as accurate as it could be in certain places, but other parts will seem to be very appropriate. Name: Jung October 29 1966 9:15 AM Time Zone is MT Busan, SKOR

Rising Sign is in 12 Degrees Sagittarius

You are known for being open, frank, outgoing and honest. At times, though, you are also blunt and quite indiscreet. Others have to learn not to take everything you say personally, because you usually do not mean any harm. You appreciate living your life in a straightforward and simple manner -- you dislike social niceties and consider them to be hindrances to real communication. You have lots and lots of energy and tend to become quite restless if you feel confined. You demand the freedom to do as you choose -- you must be self-directed or you feel trapped and anxious. With your abundant energy, you enjoy being outdoors, and you should be attracted to physical exercise or to those forms of sport which can help you burn off some of that excess energy. Very gregarious, you love to socialize -- your innate enthusiasm livens up any gathering.

Sun is in 05 Degrees Scorpio.

Intense and complex by nature, you have extremely strong emotional reactions to most situations. Feelings are often very difficult for you to verbalize. Therefore you have a tendency to be very quiet - - to brood and think a lot. You seldom get overtly angry, but, when you do, you are furious and unforgiving. When you make an emotional commitment, it is total -- you are not attracted to superficial or casual relationships. If you are challenged, you take it as a personal affront and tend to lash out and fight back in a vengeful manner. You love mysteries and the supernatural. A good detective, you love getting to the roots of problems and you enjoy finding out what makes other people tick. You are known to be very willful, very powerful and quite tenacious!

Moon is in 00 Degrees Taurus.

Warmth, comfort, security and familiar surroundings are necessary for you to feel at ease. Very loving and affectionate, you prefer a steady, patterned way of life. Patient, calm and steadfast, you are not easily upset. Others look to you for support. You tend to be a slow starter and a slow mover -- others may try to rush you, but they will never succeed. Emotionally, you are quite stubborn -- your attitudes about people and things were firmly set in your youth and will change very little as an adult. You are also very cautious and conservative about spending money. It is not that you are selfish, you just need to feel secure. Beware of a tendency to become overly complacent and too self-satisfied.

Mercury is in 28 Degrees Scorpio.

You are a born investigator. You are fascinated by secrets and mysteries and unanswered questions of any kind. When you become upset or angry, your emotional reactions are overpowering -- reason and logic disappear in an uncontrollable passionate outburst. You tend to keep your thoughts secret and bottled up and this makes others regard you with suspicion. It is not that you are trying purposely to be evasive, it is just that you would rather not deal with the explosions and hassles that often occur when you reveal your true feelings and opinions. Your sense of humor tends toward sarcasm and irony.

Venus is in 02 Degrees Scorpio.

Your feelings about others are deep, powerful, intense and complex. When you like someone, you do so totally and obsessively if you do not like someone, they do not exist. Your faithfulness and loyalty to your lover is unquestioned, indeed at times it is too much so -- you get so possessive that you almost smother your partner. At times, your feelings are kept deep within you and, because they are so complex and

intense, they frighten you -- this is the way that you try to ignore them. But the more you try to do this, the more explosive things get when you eventually do express them.

Mars is in 09 Degrees Virgo.

Very careful and systematic, you pay great attention to details. You are always seeking perfection and sometimes get bogged down searching for the ultimate when adequacy would have been sufficient. You dislike abstractions, preferring whatever is practical, useful and demonstrable. You have a strong and enduring sense of personal responsibility, and you demand that others be as responsible and upright as you are. Very critical of yourself and others, sometimes you carry this too far and become overly intolerant of others and their right to choose their own lifestyles.

Jupiter is in 03 Degrees Leo.

You must be proud of all that you do in order to grow and develop. You enjoy being totally honest and aboveboard and you revel in the admiration and respect you receive from others due to your high-minded, upright way of life. Make sure, though, that your natural tendency to boast and show off is based on your actual accomplishments. Don't fall prey to self-exaggeration or arrogance. You truly do like outrageous spectacles and grand jolly times and will go out of your way to make them a reality.

Saturn is in 23 Degrees Pisces.

Your tendency to think that your life is out of control is based on an unreasonable fear, probably connected with an unfortunate experience with the person who filled the father figure role in your early life. Pluto is in 19 Degrees Virgo.

For your entire generation, this will be a time when profound changes in society's attitude toward work, duty and responsibility will be initiated. Radical changes in attitudes toward personal health and general nutrition will be promulgated and gain wide acceptance and practice.

N. Node is in 16 Degrees Taurus.

It's not in your nature to seek out many casual acquaintances in your daily round of activities. You feel much more comfortable with a small, close-knit group of people -- those with whom you can relax and work toward known and clearly defined goals. Your loyalty to a person or group, once given, is forever -- you'll expend all of your quite considerable energy in seeing that the group stays together and prospers. You choose your partners and relationships so carefully that you're bound to gain certain advantages from them, including those of a material nature. Be careful though not to let mere self-service be your motivation in establishing your connections -- make sure that there's an even give-and-take!

Name: Chamingcha July 11 1967 7:00 AM Time Zone is MT yangsan, SKOR

Rising Sign is in 14 Degrees Leo

You love to be the center of attention and you want to appear strong, confident and dominant. You are very proud of yourself, sometimes quite vain even. When all around you are bedraggled and falling apart, you look like a million bucks! Very dignified and honorable, you enjoy the power and privilege, but not the responsibilities, that come with leadership. You are very idealistic but can also be quite stubborn. Others impress you only if they have integrity (but wealth, power and influence can also turn your head). You prefer rich, elegant surroundings and possessions, and will try to acquire them as your budget allows. Physically, you are very impressive - - at your best you have a regal, charismatic demeanor and bearing. Try not to be such a showoff!

Sun is in 17 Degrees Cancer.

Very emotional and sensitive, you have an intuitive understanding of the "vibes" around you. You tend to be quite generous, giving, loving and caring, but only when your own needs for emotional support, love and security have been met. If they are not met, you tend to withdraw into yourself and become very insecure and selfish. Your home and family (especially your mother or the person who played that role for you early on) represent security for you and thus assume a larger-than-life importance. Very sentimental, you have vivid and long- enduring memories of the past. No matter how well adjusted you are, you will always need a secret quiet place of your own in order to feel at peace. Feeding others can give you great pleasure you would enjoy being part of a large family.

Moon is in 29 Degrees Leo.

You always want to be proud of yourself and will never do anything that will make yourself look bad. You need the respect and admiration of others and enjoy attracting attention to yourself. Everything you do tends to be self-emphasized and self-exaggerated. Very stubborn, willful and independent yourself, be sure to allow others who are close to you the similar right to "be themselves." Your need for love, affection and reassurance, and your tendency toward vanity, allow you to have your head easily turned by flattery. The more insecure you are, the more you tend to be a showoff. You love games and sports as a matter of fact, you would usually rather play than work. Be careful of a tendency to be snobbish and uppity -- it does not become you.

Mercury is in 15 Degrees Cancer.

Your emotions tend to rule your thought processes. You have difficulty seeing life objectively. You have an excellent memory, especially about things to which you have formed an emotional bond. You prefer ideas and thoughts that are known and familiar, and therefore tend to dislike fads or radical ideas. The beliefs and traditions of your family and culture are very important to you. Your thinking becomes quite unclear when you are emotionally shaken -- try not to make major decisions when you are upset. Let things calm down first.

Venus is in 01 Degrees Virgo. You express your love and affection through selfless service to people or causes. You have a tendency to underestimate yourself and doubt your self-worth. This is very demeaning and should be avoided -- learn to love yourself as well as you do others. Your standards of perfection are very high -- you are attracted to relationships based on duty and responsibility. You are supercritical of yourself and others and, at times, prefer to be alone rather than deal with any imperfections in yourself or in those with whom you might relate.

Mars is in 25 Degrees Libra.

You are very aware of the need to cooperate with others in order to further any effort. You are usually willing to compromise with others, although you can be quite competitive in a friendly way. Very fair-minded and impartial, you have the ability to sense injustice and the desire to take corrective actions to make proper compensations. You see both sides of issues and questions, but you tend to be undecided or wavering when forced to make choices that might make you vulnerable or unpopular.

Jupiter is in 09 Degrees Leo.

You must be proud of all that you do in order to grow and develop. You enjoy being totally honest and aboveboard and you revel in the admiration and respect you receive from others due to your high-minded, upright way of life. Make sure, though, that your natural tendency to boast and show off is based on your actual accomplishments. Don't fall prey to self-exaggeration or arrogance. You truly do like outrageous spectacles and grand jolly times and will go out of your way to make them a reality.

Saturn is in 12 Degrees Aries.

You are aloof, independent and standoffish. This is mainly due to your fear that others might inhibit or restrict you and, quite frankly, you feel that you can govern your life by your own standards. Be careful not to associate with those who are overly critical of you or you will withdraw so deeply into your shell that you will become very lonely. You have the ability to stand on your own two feet and to make up your own mind -- albeit very carefully and cautiously. But you are known for your circumspection and therefore are respected and admired.

Uranus is in 21 Degrees Virgo.

You, and all your peers, will be known for the degree of intensity with which you dislike normal everyday routines and chores. You will go out of your way to invent innovative, unique and timesaving ways to perform the various mundane routines and duties of living. Name: Young March 26 1976 2:00 AM Time Zone is JST Busan, SKOR

Rising Sign is in 09 Degrees Capricorn

You are practical and reserved but very ambitious. An achiever and a hard worker, you respect success. Older looking and very serious as a youth, things lighten up and you relax more as you mature. You have a serious view of the world as being a difficult place to be in. Very envious of those who seem to have an easier life than you have, relaxation and play do not come easily. It is important that you had abundant parental support as a child so that you do not feel lonely and isolated as an adult. Generally, you have a good, earthy sense of humor that can carry you through when times really do get tough. You are purposeful, self-willed, industrious, realistic and responsible.

Sun is in 05 Degrees Aries.

By nature, you are very energetic and high-spirited. You are fiercely independent -- you must be first in everything you do, and you enjoy taking risks. You are the one who will rush in where angels fear to tread. Quite brilliant at initiating new projects, you are terrible at following them through to completion. You are an enthusiastic leader but you tend to be a reluctant follower. Often you are quick to anger, but you usually recover just as fast, regretting later things you said when you were upset. One of your best traits is that you are simple and direct, blunt and honest -- just be careful you do not hurt others' feelings. Your need to be competitive at all costs may provoke resistance from others, but, as long as you maintain your usual Sunny good humor, this should not prove to be a major problem for you.

Moon is in 09 Degrees Aquarius.

Very freedom-oriented, you must always be able to do what you wish, no matter what. You become stubborn and recalcitrant when others try to force you into a mold. You are a true democrat -- you are not a follower, but you enjoy being with those who are like-minded. You appreciate emotional self-control -- you practice it yourself and you look for it in others. You solve problems, including emotional ones, with your brains and intellect, not your feelings. Try to be tolerant of those who have powerful and obvious emotional responses -- not everyone is as objective, cool, dispassionate and detached as you are.

Mercury is in 28 Degrees Pisces.

Your ideas and thought processes do not come to you in an orderly, logical fashion. Instead, you think with your feelings or with images produced by your rich and fertile imagination. A very subjective person, your dreams and fantasies are very important to you. You trust your intuitions and tend to reject ideas that are based solely on logic. Very impressionable, you are sensitive to the moods and emotional states of those with whom you come into contact.

Venus is in 13 Degrees Pisces.

You have a dreamy, fanciful, romantic nature and a very creative imagination. Indeed, at times, your private fantasies are more appealing than the reality around you and it is difficult for you to leave them. You tend to be unselfish and giving in relationships and are extremely sensitive of the needs of others. Be very sure that those you help are worthy of your devotion and are not merely taking advantage of your innocence and naivete.

Mars is in 03 Degrees Cancer.

Your moods are very important to your overall well-being. You are confident and self-assertive when you are feeling upbeat, and you are retiring, irritable and grumpy when you get depressed about anything. Very sensitive, you wear your heart on your sleeve. You are easily angered whenever you think someone has slighted you. It is best for you to show your anger immediately and let it all out, rather than to try to hold it in or to hold grudges for a long time. You're extremely loyal and defensive of your family, neighborhood,

community and culture.

Jupiter is in 29 Degrees Aries.

The way that you grow and develop is by being an uncompromising individualist. You have a great need to be yourself and to explore your latent talents and abilities. Do not be afraid to let yourself go and develop self-confidence and pride in your accomplishments. But try not to become so self-centered that you ignore the needs of others. Also, you may have to build up your self-discipline in order to focus your energies properly.

Saturn is in 26 Degrees Cancer.

The most important issue for you is emotional security. You have a deep and gnawing fear that those on whom you depend for emotional support will prove to be unreliable in the long run. When you are unloved and insecure, you distrust others and tend to feel isolated and lonely. Very cool, detached and objective, you can be counted on -- in situations that are inherently stressful or full of tension -- not to lose your self-control. That is a great and welcome gift at such times.

Uranus is in 06 Degrees Scorpio.

You, and your peer group, demand to confront life at its deepest and most meaningful levels. Very compulsive and obsessive in your approach to everything, you will avoid anything that is casual or superficial, especially when it comes to relationships. You will seek out and explore new methods of healing as well as different ways to deal with deep-seated emotional problems.

Neptune is in 13 Degrees Sagittarius.

You, and your entire generation, are heavily involved in investigating and idealizing foreign and exotic intellectual systems and religious philosophies. The most extreme ideals will be pursued with gusto. You will be at the forefront of humanitarian attempts to improve the lot of those who are in need of assistance. You will be comfortable with the concept of the "global village."

Pluto is in 10 Degrees Libra.

For your entire generation, this is a time of radical changes in society's attitude toward marriage and interpersonal relationships. There is a general fear and awe at the power inherent in making emotional or contractual commitments -- they will not be entered into lightly.

N. Node is in 13 Degrees Scorpio.

You have a special aptitude for working by yourself, or with a like-minded group of dedicated individuals. Once you've committed yourself to a person or group or project, your loyalty and devotion are total until the group's goals have been realized. Not at all gregarious by nature, you're uncomfortable around strangers, greatly preferring to be in known and familiar situations. Others may regard you as shy or eccentric, but those who know you well are aware of the intense loyalty that you have to your friends.

This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. If you are unsure of the exact time of day of your birth (or the date or the place), the reading will probably not seem as accurate as it could be in certain places, but other parts will seem to be very appropriate. You will notice at certain places in the reading that contradictory information seems to be given. This is to be expected, because the personality of most people is extremely complex. For example, at times we are quite shy and at other times we are very aggressive, and so forth. You will also notice that, at certain points in the reading, certain patterns may be repeated over and over, especially in a longer more detailed report than this one. This is also to be expected.

This simply means that your horoscope has an extremely strong focus on this particular pattern and that you should pay extra close attention to what is said about it. Now, on with your Report!

Name: Nari February 15 1985 6:00 AM Time Zone is JST Busan, SKOR

Rising Sign is in 02 Degrees Aquarius

You like new ideas and concepts, but you prefer to discover them by yourself -- it is not easy for others to convert you to anything. You form your own opinions, but once you do form them, you then want to convince everyone else that they are correct. Try to be more tolerant of the opinions of others. You have a deep and abiding interest in science, mathematics, and the great social problems of the day. Very sympathetic toward the downtrodden, equality is your battle cry! You demand that those in authority be fair to all. You are an intellectual -- emotions and emotional people are difficult for you to understand. You are known for being calm, cool, detached and objective.

Sun is in 26 Degrees Aquarius.

You get bored with the status quo and are generally open to new things and ideas. An individualist and a free spirit, your friends are quite important to you as long as they do not try to tie you down by making too many emotional demands on you. Your thoughts are offbeat and you're a bit eccentric, but not always very changeable. As a matter of fact, you can be quite stubborn at times. Very fair-minded when dealing with large groups or broad issues, you are not always emotionally sensitive to the needs of individuals. Extremely objective, with good powers of observation, you would be qualified to study technical and complicated subjects, like science, computers or maybe even astrology.

Moon is in 28 Degrees Sagittarius.

An idealist, you prefer the grand, the beautiful, the good and the noble. You get very disappointed when your high expectations in life are not met. Very curious by nature, you enjoy traveling and learning about other peoples and cultures. Try to avoid your tendency to ignore the small but important details of living. You are independent and free, and you want others to be that way, too. Optimistic, buoyant and cheerful, others like to have you around. You have an incessant desire to learn as much as possible about metaphysics, religion, philosophy and any other broad, deep subject. Your life tends to be punctuated by bursts of energy and frenetic activity.

Mercury is in 22 Degrees Aquarius.

You tend to be very opinionated -- you have strongly felt notions about things and are quite vocal about expressing and defending them. Yet you are also an original thinker -- you enjoy shocking others with your offbeat, original thoughts. You appreciate and need mental and intellectual stimulation. Your judgment is usually fair and impartial -- you can be a good critic because you can remain objective and unemotional about most things.

Venus is in 10 Degrees Aries.

You are a very affectionate person but you hate to be tied down. You are more than willing to be the aggressor in initiating new relationships. Indeed, once you have set your sights on someone, you tend to pursue him or her ardently and passionately. But you do demand your own way in a relationship. Try to give in to your partner's needs and desires once in a while.

Mars is in 09 Degrees Aries.

You are very independent and self-assertive, and you have lots of physical energy. You are not satisfied unless you can be the first to do something. As such, you are more comfortable in leadership positions than you are as an underling. When you are challenged by anyone for anything, you delight in the competitive process and will fight long and hard for your beliefs. You are bold and courageous and often act without thinking. At times, in your zeal to get ahead, you are tactless and offensive -- learn that cooperation with

others can often bring you nearer to your goals quicker because of the support you will get.

Jupiter is in 01 Degrees Aquarius.

Your personal growth occurs when you have the freedom to do things in new and interesting ways -- this brings out your natural inventiveness. You are an individualist, but you are also attracted to mass movements that emphasize social betterment and you will devote much time and energy to their efforts. Very fair-minded and objective, you have extraordinary skills at organization and administration.

Saturn is in 27 Degrees Scorpio.

You tend to release emotional energies only very reluctantly. This is partly due to your fear of what horrible calamity might occur should they be released -- your emotions are terribly complicated and intense. Try not to repress these energies entirely, however, or you will succumb to negative and destructive forms of compulsive behavior. Give yourself the freedom to look awkward or silly once in a while. The relief you feel will be quite therapeutic and the embarrassment (whether it is real or imagined) will pass quickly.

Uranus is in 17 Degrees Sagittarius.

You, and most of your peers, have the tendency to think that all ideas, customs and traditions from the past are outmoded and irrelevant. You are attracted to radically new ideas, philosophies and religions that will, hopefully, cause sweeping changes throughout the world.

Neptune is in 02 Degrees Capricorn.

You, and your entire generation, will idealize work, practicality and the ability to attain reasonable goals. But, because you will also stress the need to be selfless and giving, you may find it difficult to attain your goals unless you have lowered your expectations on all fronts.

Pluto is in 04 Degrees Scorpio.

For your entire generation, this is a period of intense research and discovery in areas that were heretofore considered mysterious, remote or taboo. The root causes for many complex occurrences will be unearthed due to the intensity and thoroughness of the search.

N. Node is in 22 Degrees Taurus.

It's not in your nature to seek out many casual acquaintances in your daily round of activities. You feel much more comfortable with a small, close-knit group of people -- those with whom you can relax and work toward known and clearly defined goals. Your loyalty to a person or group, once given, is forever -- you'll expend all of your quite considerable energy in seeing that the group stays together and prospers. You choose your partners and relationships so carefully that you're bound to gain certain advantages from them, including those of a material nature. Be careful though not to let mere self-service be your motivation in establishing your connections -- make sure that there's an even give-and-take!

This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born.
