>Vanilla's a geneticist on Prison Island tasked to study the genetics of Shadow the Hedgehog; winds up quitting and used the knowledge she obtained to create Cream using her DNA and that of her companion chao, Cheese. Eggman caught wind of her involvement during his bombing raid on said island and kidnapped her for his own schemes in Sonic Advance 2.

-her real name is Vanessa Hare.

-bonus: Cream started to show chaos traits, to Vanilla's dismay.

-Pre-pubescent Tier: Cream, Marine, Cosmo

-Washboard Tier (A): Blaze, Wave

-Less Than a Handful Tier (B): Sticks, Tikal, Shade

-Fills a Palm Tier (C): Honey, Julie-Su

-Hand and a Half Tier (D): Sally, Vanilla, Amy

-Officially Stacked Tier (DD): Bunnie, Rouge, Lien-Da

-Too Damn Big Tier (E): Gala-Na

>Waifus in towels

-Sally doesn't really care about it so she would only have a small towel hanging on the shoulders, not wrapped around at all

-Honey would wear a pretty stylish one, even if it's just a towel

-Bunnie's star-pattern towel is slipping as she polishes her bionic legs, or is modest, but she doesn't mind teasing a bit of her buns in a flirty way

- Blaze doesn't use a towel, and just heat-dries herself with her powers, or bundles herself up because she's embarrassed over her chest.
- Rouge wraps her towel and lets it hang off her chest, teasing the possibility of it coming undone but it never does. It's also short enough that it just barely covers her crotch. Double cock-teasing.
- Amy's is modest with her asking you to brush her hair.
- Thunderbolt under a towel because she's small
- Sticks is feral and doesn't use one
- Nicole just blurring/pixelating/spoiling her private areas
- Alicia's barely covers her, but her long hair is let down
- Fiona's is using her towel to rat-tail Mina where her towel has ridden up over her ass
- Julie-Su and Lien-Da are fighting over the last towel
- Relic is fumbling with her towel since her glasses are fogged/off
- Rosie would just have a towel around her waist like a dude since she's aged past giving a shit

- >Honey shipping SonicxTails and realizing that Sonic is into Tails in girls clothing so she gets him comfortable with it so Sonic gets more comfortable with him.
- >Sonic and Tails have always done gay pranks with each other at Amy and Sally.
- >One day it goes too far.
- >Sonic and Tails make out in front of Sally and Amy.
- >They just sit there watching.
- >Sonic and Tails look at them and each other and then back to them.
- >No shame in their eyes. Just lax happiness.
- >Sally is fighting to hide her arousal; Amy's face is a mix of shock and jealousy.
- >Tails shoots her a look that screams "Just so you know, if I were a girl then you'd have absolutely no chance."
- >Sally goes home and masturbates ferociously for hours.
- >Amy goes home and tries to determine whether she should be more jelly or turned on.
- >Sonic and Tails go to Sonic's home to finish the job.
