

CO-CURRICULAR ORGANIZATIONS & CLUBS

2022 – 2023

OCTOBER 2022

Our co-curricular clubs and organizations exist to provide all at NCHS opportunities to pursue their interests, express their creativity and learn about or try something new, as well as a way for students and staff to find others within the high school community who share those interests and are eager to work collaboratively while having fun. *This listing will be updated throughout the year as new clubs are begun and interest in an established club wanes.*

When an activity or club has regularly scheduled meetings, that time and location (or via Zoom) are provided. If there is no meeting time provided, then you should listen for announcements, check the TV monitors, and watch for posters around the building. Adviser and student leader names are provided for e-mail communication and can be contacted through first.last@ncps-k12.org, unless noted otherwise. If you have any questions or would like to start a new club, contact Mr. Rothman in the Main Office.

This list is designed to provide you with ideas and contact information for any of the activities listed below and will be updated regularly as new groups form. For your convenience, it is organized into the following categories: ***Interscholastic Academic Competition, Cultural & Personal Awareness, Interests & Hobbies, Service, and Leadership & Volunteer Opportunities.***

There is no fee for participation in any co-curricular organization, club or activity at New Canaan High School. However, to offset costs associated with some of these groups or activities, members or participants may be solicited for contributions and/or asked to participate in fundraising. If doing so in whole or in part proves burdensome to any NCHS student and their family, the school will cover such costs so that no student should be excluded from participating. Please contact the club adviser, your child's School Counselor or grade-level administrator if this is an issue and arrangements will be made discreetly.

Lastly, to insure everyone's safe participation, we expect that the student and/or parent take seriously the responsibility to inform the club adviser of any medical information pertinent in an emergency.

INTERSCHOLASTIC ACADEMIC COMPETITION

Debate Team

Thursday at 5:45 PM in Room 232

Grace Corcoran - Captain

Mrs. Nancy Stevens – Coach

The NCHS Debate team gives students the opportunity to explore current, controversial issues in politics and society, while competing in monthly, parliamentary competitions against other high schools in the Connecticut Debate Association. Additional tournaments may be added throughout the year. Whether they're looking to overcome a fear of public speaking or perfect their rhetorical technique, members will gain valuable speaking, listening, and analytical skills in a supportive environment. For more information, please visit the Connecticut Debate Association website (ctdebate.org) or follow us on Instagram @nchsdebateam.

Math Team

Tuesday at 2:45 in the Library Collab

Luke Huang, Julia Paine & Toby Woods – Captains

Ms. Jennifer Lee – Advisor

Each Thursday after school, the Math Team prepares for competitions that take place on the first Wednesday of the month from October through March. All matches take place at NCHS this year. Topics change monthly. Based on performance in tryouts and prior competitions, students are then selected for A and B teams. NCHS participates in the Fairfield County Mathematics League and has qualified for competition in the Connecticut State Association of Mathematics Leagues for the past several years. We welcome students from any grade and any math class. For more information about competitions, go to fcmath.org.

Model Congress Club

Wednesday at 2:40 PM in Room 102

Brandon Barket & Praja Tickoo – Co-Presidents

Mrs. Amy Rothschild – Advisor

In preparation for conferences, the Powers of Congress will be reviewed, and students will simulate the writing of a bill. As a delegate, students will have the opportunity to debate, amend, and pass mock legislation. It is the expectation that members will attend one local scrimmage in the fall and one offsite conference.

Model United Nations Club

Monday at 2:40 PM in Room 207

Melissa Rizzo, Kira Titova & Toby Woods – Co-Captains

Mrs. Zeeshaan Arastu, Mr. Michael Forcucci, Mrs. Allison Freeman & Mr. Paul Phillips – Advisors

The NCHS Model United Nations Club has an active and growing membership, which meets each Monday after school to prepare for competitions at Ivy League colleges and other venues, and plans activities involving the wider high school, local and global communities. The NCHS Model UN Club will only succeed if members both enjoy themselves and succeed in achieving their personal and team goals. As such, the club positions itself within the school community as an academic "sport," with the following goals: promoting a world view that respects divergent national priorities, developing skills in research, critical thinking, persuasion, and collaboration, providing a platform for club members to compete at the highest national and international level, giving back to the school, local and international community and, ultimately, preparing members for leadership positions at college and beyond.

Science Team

Wednesday at 2:15 in Room 207

Ty Kelliher, Avery Morawa & Kira Titova – Co-Presidents

Mrs. Reka Cebulski – Advisor/Coach

We talk about current science news across all science subjects, and we encourage our members to bring in news articles and talk about specific topics they're interested in. This year, we'll also do fun labs, talk about research that our own members are conducting, and attend science-related talks and events in the community. In October, some of our team members will begin practicing representing NCHS at the National Science Bowl. Practices will be held after regular club meetings, so interest/participation in the competing team is not a requirement to be in the club.

Technology Student Association

Monday & Wednesday at 2:40 PM in Room 120

Ewan Hamilton & Ben Skrelunas – Student Leaders

Mr. Jim Zambarano – Advisor

The Technology Student Association (TSA) fosters personal growth, leadership, and opportunities in technology, innovation, design, and engineering. Members apply and integrate science, technology, engineering and mathematics concepts through co-curricular activities, competitive events and related programs. Over the past few years we have been focused on the VEX Robotics competition.

VEX Robotics Team

Monday & Wednesday at 2:40 PM in Room 120

Ewan Hamilton & Ben Skrelunas – Student Leaders

Mr. Jim Zambarano – Coach & Manager

The Vex Robotics Club or Robotics club is a club where we build robots to compete in the Vex competition. Every year Vex Robotics (a robotics/educational organization to promote STEM topics to students) creates a competition and this club aims to compete and participate in these competitions. This competition is essentially a game where we need to complete tasks and solve problems using a robot that we've built. In this club we are analyzing the problems, designing solutions in the form of robots, fabricating those robots, and programming them as well. This is very close to the engineering design process and is a club that many students who like engineering will also enjoy as what we do here is along the same lines as engineering.

CULTURAL & PERSONAL AWARENESS

Academia Romanorum (aka Latin Club)

Tuesday at 2:40 PM, Room 115

Praja Tickoo & Kira Titova - Student Leaders

Mrs. Cristina Corona – Advisor

We happily invite all interested members to join the **Academy of the Romans**. The Club is affiliated with the National Junior Classical League and The Classical Association of Connecticut. We attend the two events offered annually by ClasConn- [COLT](#) and [Connecticut State Latin Day](#). In addition, students can demonstrate their passion (and knowledge) in specialized topics by taking the following tests: the National Classical Etymology Exam, the National Roman Civilization Exam, and the National Mythology Exam. While spoken languages are oral and require discrimination of speech sounds, signed languages are visual and use handshapes, gestures, and facial expressions. Join the ASL club to participate in a new community that you can use for lifelong learning.

The club would hold book drives to fill the shelves with books targeted towards children and young adults, fundraise, and paint bookshelves for different laundromat locations in conjunction with the Non-Profit Organization, Laundry Love, which holds many locations across Fairfield County and further. We would also provide a few students to read to the kids during Laundry Love hours, which takes place on the first Wednesday of each month. Read and Rinse plans on meeting twice a month. The first Wednesday of every month would be the optional activity of reading to kids at Laundry Love, while the next meeting would take place at school to brainstorm, fundraise, and paint and decorate bookshelves.
