Your task:

1. Make a list of everything you need to take with you to help patients with all these emergencies (all medicines/drugs with doses)
2. Select 1 condition and prepare a short report with the following information:
 - symptoms of the condition (how to recognize)
 - review
 - medical care algorithm (step by step)
 - necessary medicines/drugs or devices
 - the source of information

1. Anaphylaxis
2. Hypertensive crisis
3. Acute coronary syndrome (STEMI, NSTEMI)
4. Stroke
5. Pulmonary embolism
6. Convulsive seizure / epileptic status
7. Bronchial asthma attack
8. Hypoglycemic coma
9. Hyperglycemic coma
10. Sudden cardiac arrest
11. Heavy bleeding
12. Severe head injury
13. Croup (children)
14. Opioid overdose
15. Third-degree AV block (Bradycardia)
16. Eye trauma
17. Severe headache
18. Eclampsia
19. Acute abdomen pain
20. Foreign body in the airway (choking)
