

CALL TO ACTION #4: Demand the Unmasking of ICE Agents	
<p style="text-align: center;">ONGOING</p> <p style="text-align: center;"><i>It is unacceptable that ICE agents be allowed to conceal their identities.</i></p>	
Background:	<p>In recent months, there have been increasing reports of Immigration and Customs Enforcement (ICE) agents concealing their identities: wearing masks and plain clothes, misleading police, and using unmarked vehicles. They have also refused to identify themselves or the agency they work for as they conduct “masked abductions.”</p> <p>This anonymity and lack of accountability have also broken public trust in law enforcement. Across the country, several people have been charged with impersonating ICE agents to demand money, solicit sexual favors, kidnap people, and terrorize already vulnerable communities.</p> <p>Transparency and accountability in law enforcement are a matter of public safety. Call on both your state and federal level representatives to support and enact laws to ensure the proper identification of ICE agents.</p> <p>Note: You may need to enter your full address or 9-digit zip code as a simple 5-digit zip code by itself may not accurately determine your correct, state-level representative contacts.</p>
