

San Antonio Math Include

Provide Greater Access to STEM Education to All Students

Harshad K.

Tutor
San Antonio Math Include

Harshada is part of Basis Shavano's class of 2022. She finds math to be an interesting, and useful subject which manages to challenge her in ways that other classes could not. She enjoys working out problems with friends, and helps other people when needed. She makes sure to ask if her classmates have understood material and constantly participates in class. Outside of school she loves to read and dance.
