Runners: Angle Land, Coolagh Magic, Match Play, Infinity Blue, Smooth Silesie, Gypsy Nation

LBBW Score Table — Horse | Score (0–5)

- Smooth Silesie | 3.5
- Angle Land | 3.5
- Match Play | 3.4
- Infinity Blue | 2.6
- Gypsy Nation | 2.6
- Coolagh Magic | 2.3

Per-Runner Analysis

Smooth Silesie (4yo, 9-3) — Back in form: C&D win 12 days ago, then a close 2nd of 6 at Lingfield six days later under a penalty; profile says she “remains well treated” and returns to her favoured track. Recency trend: strong upturn (win→2nd). Bonuses: 2+ recent top-3 (+0.2). Collateral suitability: distance + course (+0.3) given the fresh C&D win; no Class 4+ evidence. Sectionals: 34.39 / 56.75 = competitive on “Fastest Time” vs field (+0.2). Dosage: 1-1-5-3-0 (solid C/S mix) (+0.2). Final LBBW: 3.5.

Angle Land (6yo, 9-8) — C&D winner in June, then second here a fortnight later, and 2nd at Lingfield 24 days ago; earlier Class 3 third at Goodwood in May adds depth. Recency: consistent, holding form. Bonuses: 2+ recent top-3 (+0.2). Collateral: distance + course + prior Class 3 placed form (+0.4). Sectionals: 33.73 / 57.64 = competitive but not top (+0.2). Dosage: 2-4-8-0-0 (strong C) (+0.2). Final LBBW: 3.5.

Match Play (5yo, 9-7) — Won a 5f hcp at Pontefract in June; poor draw/no show at York last time (Class 4), but previous Yarmouth C&D winner and expected to bounce back per card notes. Recency: mixed (win two back, blip latest). Bonuses: 2+ recent top-3 (+0.2). Collateral: distance + course (+0.3). Sectionals: 32.93 (best Final 3f) / 56.23 (fastest time) among those with figures → clear top both (+0.5). Dosage: 1-1-4-2-0 (healthy C/S) (+0.2). Final LBBW: 3.4.

Infinity Blue (4yo, 9-12) — Inconsistent but back to form when 2nd of 10 (6f, Doncaster) 13 days ago; drop to 5f could help. Recency: mild uptick but patchy overall. Bonuses: Top

weight (+0.2) and 2+ recent top-3 (+0.2). Collateral: no hard course/5f win evidence shown (0). Sectionals: no figures (0). Dosage: 0-6-9-1-0 (strong C) (+0.2). Final LBBW: 2.6.

Gypsy Nation (5yo, 8-8) — Won a 5f hcp in June, then 3rd of 8 at Nottingham eight days ago (made ground after being outpaced). Recency: improving from mid-spring dip. Bonuses: 2+ recent top-3 (+0.2). Collateral: distance tick (recent 5f win) (+0.1). Sectionals: 36.14 / 60.05 = below field standards (0). Dosage: 1-1-4-0-0 (modest C, no S) (+0.1). Final LBBW: 2.6.

Coolagh Magic (9yo, 8-12) — Plenty of AW form; 8th of 9 over 6f here 30 days ago and needs to bounce back; earlier winter wins/places came on the sand. Recency: flat on turf. Bonuses: 2+ recent top-3 across last runs (+0.2). Collateral: limited for today (no recent turf/course positives) (0.0–0.1) → (+0.1) for general 5–6f profile. Sectionals: 37.01 / 59.66 (slow) (0). Dosage: 2-7-9-0-0 (strong C) (+0.2). Final LBBW: 2.3.

Likely Improvers (Score ≥ 3.5)

- Smooth Silesie (3.5) — thriving and proven over C&D, sectionals solid enough.
- Angle Land (3.5) — rock-solid recent C&D profile plus prior Class-3 placing.

WIN Selection

Smooth Silesie — Edge over Angle Land on immediate recency (very fresh C&D win then a near miss six days later), with positive sectionals and identical dosage credit. Small preference at the prices.

EACH-WAY / Solid Alternatives (Scores 3.0–4.4)

Match Play — Top of the 3f & time sectionals and a prior C&D winner; a logical saver/each-way.

Professional Summary

The model leans towards current 5f C&D effectiveness and recent momentum. Smooth Silesie and Angle Land both tick distance+course boxes; Smooth Silesie shades it on very recent form. Match Play brings the best 3f & time sectionals and is a sensible saver/each-way. Infinity Blue gets a small lift for top weight and a recent second but lacks strong suitability signals at 5f/C&D; Gypsy Nation is likeable on distance but sectionals are weaker; Coolagh Magic is better judged on AW. Scoring strictly followed recency, bonuses, fact-based suitability, the supplied 3f/time sectionals, and the dosage table.
