

Assignment 4

Anatomy/Proportion:

Students will:

Explore the elements of line, shape and value through observational drawing.

Learn about anatomy and proportion through drawing.

Continue exploring value and line with graphite.

PART 1: Review the documents posted on Google Classroom. These drawings will help you think about the proportions and study of the human form. Create a drawing of the provided skull. You may add other objects to your still life as well, ie flowers, more bone fragments, another skull. Consider how you will light these objects so that you have interesting shadows and composition. Create a finished drawing using line, value (additive and subtractive techniques), shape and by considering proportion. Draw what you see.

PART 2: Bring your chrome book to class.

- Watch the following video on Gesture:
<https://thevirtualinstructor.com/gesturedrawing.html>
- Students will learn to break down the human form by drawing along to the following youtube video: <https://www.youtube.com/watch?v=pdaixyDgWuY>
- Students will follow along and gesture draw with one non nude daily life drawing session created by the New Masters Academy on YouTube.

HAND IN: Completed skull still life drawing, gesture sketches from youtube videos

MATERIALS:

You will complete these drawings using graphite, blending stumps and erasers on the paper provided.
