SL: MY HOUSE IS ON FIRE

Actually, YOUR house is on fire... let me explain.

Your business is like your house, and I can see it burning. It is being engulfed in flames as we speak.

AI is on the rise and your business may just burn down to the ground and fail. Luckily for both of us, I can see your house and it's roaring flames, and I'm here to help.

I've been studying AI and how to integrate into businesses much like yours, and even how to GROW businesses using AI to new, better and higher heights.

I hope you're interested, otherwise you'll burn to the ground, and someone else will take over.

Let me know

Best,
Andrew

Follow-up

Hey <given name>, how's your business? Burned to the ground yet?

If not, it will soon... not unless you integrate AI into your business, which I CAN DO FOR YOU.

You should be interested if you want your business to stay afloat.

Let me know,

Andrew

SL: Your business is on fire...

And it's not in a good way.

<given name>, we both know AI is on the rise, and is already here. It's already much bigger than you perhaps thought!

I've looked into your business, and it's on fire! Your business is in flames, and I'm here to put it out. AI is taking over the market and I have the tools necessary to integrate it into YOUR BUSINESS.

Everyone else is using AI in their businesses, and it will LEAVE YOU IN THE DUST, alone and inflamed.

I can use AI to grow your business and get a leg up on your competition, so let me know when we can hop on a call and put out that fire.

Best,
Andrew
