Justice4Ivonne

Open Letter to Chancellor Carol Christ:

We have witnessed the harsh and unfair treatment that our most beloved Latina professor, Dr. Ivonne del Valle, has received at the hands of the administration. We are here to say "Ya Basta!", meaning 'enough already'! If UC Berkeley really wants to become a Hispanic Serving Institution (HSIs), it needs to start treating our Latinx professors with respect. Professor del Valle was the one being harassed, yet your administration engaged in victim-blaming, retaliatory behavior. The last time your administration punished her, it was due to her asking the Albany police department for help. We know you are protecting your best friend and her harasser son.

We are supporting Professor Ivonne publicly because she deserves justice and dignity.

We need Dr. del Valle back on campus. We demand she is treated with respect. So far your administration has been completely biased against her and has not taken her claims seriously. The disciplinary process has turned into a modern day witch hunt. We are deeply disappointed and angry to see someone who claims to be a champion for women, perpetuate sexist practices by isolating and alienating Professor del Valle. Do women of color not enter into your version of feminism?

For over two years, we have not been able to take classes with Dr. del Valle. It has been long enough. **We demand Dr. del Valle be reinstated immediately.** There is absolutely no reason why she should not be allowed to return to her classroom.

We are mostly undergrad, first generation Latinx students who stand firmly with Dr. del Valle. We hope you will choose the side of fairness and justice. It is time to right your wrong. We won't stop until our demand is met.

Profe Ivonne

We got your back!
