Rosenberg, my grandfather, he is the one "who made me go nuclear". I should have let him die. He killed Lacoste (Doctor found in the woods). I don't know about Dr. McDuff. They are coming. I am next. To powerful men (with) human resources available, help me help you. All I need (is) protection (for) one week. Telling you where I am.

This was Vanessa's' response to Agent Zappo 1980s question:

Who is this "he" who told you about our organisation? Are you safe? Do you need extraction? What do you know about Maryse McDuff?
