

## **SAND NIGGERS**

Fuckers are everywhere. Wailing to fucking Allah. Crooked teeth. That *stink* off them. Chosen fuckers? Strapping bombs to their asses and detonating themselves.

## **RICE NIGGERS (also feat. NOODLE NIGGERS)**

Millions of them. Crawling the earth like fucking maggots. Filthy dirty creatures. Beggars. Barefoot savages in broken down towns with broken down ideals and broken down words. No one understands a word these fuckers say. Tasteless food, concrete dreams, thoughts of order and obedience. Fuck that. And fuck your king too. Fuck them all. Nuke them all again. Vaporised for humanity.

## **NIGGER NIGGERS**

The fucking worst. Can't stop breeding their ugly asses off - nothing to do but beg and fuck and do nothing for anyone. Fat black girls and fat ugly black men with no taste, no style, no civilisation. When we abolished slavery we should have tipped them back into the sea where they came from. Cancer on the nation. Apes with guns, just out of the trees with as much organisation as a baboon troop on fire.

## **THE PERFECT LIKENESS OF EXISTENCE**

I am WHITE. I am PROUD. I have GOD on my side and an ARMY to defend ME and my RIGHTS against those who will ENSLAVE me. I have no fear of anyone. All nations are worse than MINE and mine is RIGHTEOUS.

I crack open the beer and survey the ruined backdrop to my home.

*Someday son all this will be yours.*

The darkness fell two days ago and never lifted. The scent of righteous victory drapes the air.
