

🌟 A New Year is Here! 🌟

Another year, another summary of what's been going on these last 12 months in the world of 2200KM/H +!

First off, recent development has now made it possible again to register on the 🌟 [F-Zero Central website](#)! See the News-section below for more information. And if you decide to make an account and submit your times, welcome to FZC!

Otherwise in terms of news of the site - In march of this year, and in the game that started it all for FZC - 🇪🇸 TBK did the unthinkable and dethroned 🇬🇧 BPA in 📱 **F-ZERO Maximum Velocity** and now ranks first in Average Finish!

But of course, the biggest occasion that happened this year was that the series - after long 19 years - finally got a new addition added to it when 🇷🇺 **F-ZERO 99** was released on September 14th.

So far, it seems like the game has been quite the success which is pretty exciting to see, and makes you hopeful that a new and from the ground up developed game will be added to the series at some point.

In any case, I think it's safe to say that the future for the series looks at least a little brighter than before, and perhaps even that it's never been a better time to be a fan of it.

Keep on racing y'all!
