March 13, 2020. . . the day the current P-villains had to say goodbye to in-person school and convert to online learning. King P. tried as hard as he could, but lessons would never be the same. Something would always be different. Not being together in P-Ville. . . it changed them. Now, about 2 years later, we (MM-Media & Culture Committee) would like to celebrate this important day. **March 13th, Day of the Elders.** The elders decided to bury P-ville and allow the future P-Villains to uncover what was lost. March 13th is a day to remember what was lost but to also celebrate future generations.
