Can I request what pose is painted?

Of course, this is your forever painting! We will discuss the pose ahead of time.

Pose ideas to consider: At the altar, first kiss, walking down the aisle, first dance, candid moment, etc.

Is there anything you require from the venue?

My set up is very simple! I do not require assistance from staff in order to set up. I have my own stand up easel, stool, and painting supplies. I require a small area for the set up, and ideally need to be situated near an outlet to plug in my lamp. Also, a good view of the scene I will be painting is important to the final outcome.

How long is needed to paint the scene, couple, and guests?

Depending on the size and amount of guest you require the times may be slightly different. I prefer to arrive 2-3 hours early to the venue for set up and to start painting the scene. I will also take a reference photo during the chosen moment and continue to paint during the reception; this process totals about 7 hours on site. After the reception I will take the painting back to my studio in order to make final details and revisions. If your venue does not allow a 2-3 hour early arrival that is ok! However, please note that the painting may not be as complete by the end of the event and may require additional studio time free of charge.

Where are you located & are you willing to travel?

Due to my studies in grad school, I am unfortunately not able to travel by plane. But I am located in Riverside, California and would LOVE to drive to your venue!

Travel is free for up to 40 miles. Any additional miles will cost 60¢ per mile.
