

Hello, my name is Ms. Fatima Velazquez.

This year I am teaching three classes of 6th grade Science and two classes of 7th grade Science. I attended San Diego State University where I received my Bachelor's degree in Biology, teaching credential, and Master of Arts in Teaching.

I live in Valley Center with my family and love spending time with them outdoors! I love animals and enjoy cooking and watching movies.

I am looking forward to an amazing school year with my wonderful students!
