ARTICLE 2 RIGHTS GRANTED

2.1 GENERAL DESCRIPTION AND LIMITATIONS

Competitive Supplier is hereby granted the exclusive right to be the default provider of Firm Full-Requirements Power Supply to Participating Customers pursuant to the terms of this ESA. For the avoidance of doubt, Competitive Supplier shall be authorized to supply Firm Full-Requirements Power Supply only to Participating Customers enrolled in the plan or plans managed by the Program Manager, and the Distribution Utility will continue to have the right and obligation to supply electricity to Eligible Customers who opt-out of the Program and remain on, or return to, Default Service, until changes in law, regulation or policy may allow otherwise.

In accordance with Article 3 below, all Opt-out Eligible Customers shall be automatically enrolled in the Program unless they choose to opt-out or have previously opted out of the Program. In the event the geographic boundaries of the Municipality change during the term of this ESA, Competitive Supplier shall only be obligated to supply Firm Full-Requirements Service to those Participating Customers located within the Municipality as such boundaries existed on the Effective Date of this ESA. As between the Parties, the Competitive Supplier has the sole obligation of making appropriate arrangements with the Distribution Utility, and any arrangements which may be necessary with the NYISO so that Participating Customers receive the electricity supplies to be delivered pursuant to this ESA.

The Municipality shall specifically authorize the Distribution Utility to provide, and Competitive Supplier the right to obtain and utilize as required, all billing and energy consumption information for Participating Customers as is reasonably available from the Distribution Utility. The Distribution Utility fees for the provision of this data shall be paid for by the Supplier. Competitive Supplier shall request consumption data for individual Participating Customers from the Distribution Utility via EDI or other adopted standards such as a secure file transfer protocol. If further action is required by the Distribution Utility to authorize Competitive Supplier to receive such consumption and billing data, the Program Manager, on behalf of the Municipality agrees to use Commercially Reasonable efforts, at Competitive Supplier's cost, to assist Competitive Supplier, if so requested by it, in obtaining such information for Participating Customers, including, without limitation, assisting Competitive Supplier in obtaining permission from such Participating Customers and/or the PSC, where necessary as a prerequisite to the provision of such information.

Competitive Supplier shall not be responsible for any errors that Competitive Supplier or any of its Associated Entities makes in the provision of Firm Full-Requirements Power Supply only to the extent both that: 1) such errors are caused by errors or omissions in the information provided to it by the Distribution Utility; and 2) it was reasonable for the Competitive Supplier to rely upon that provided information. The Municipality shall not be responsible for any such errors by the Competitive Supplier in any event. Competitive Supplier shall not be responsible for a delayed or unsuccessful enrollment of a Participating Customer, or de-enrollment, that is a direct result of the Municipality, Program Manager, or Distribution Utility's negligent act or omission or breach of this ESA.

2.2 NO THIRD-PARTY BENEFICIARIES

Except as specifically provided in Article 18.11, this ESA does not and is not intended to confer any rights or remedies upon any person other than the Parties. This ESA facilitates rights under the CCA Orders and Local Law for Eligible Customers to purchase electricity from the Competitive Supplier in accordance with this ESA. The Municipality, or Program Manager in support of the Municipality, has the right, but not the obligation, to advocate on behalf of the Eligible Customers interested in contracting for electric supply and on behalf of all Participating Customers, unless otherwise prevented by law.

2.3 COMPLIANCE WITH LAWS

The Municipality represents that the Local Law has been duly adopted.

Competitive Supplier specifically represents that it has exercised due diligence to review and has fully complied with all relevant regulations, requirements, and orders of the FERC, NYISO, and PSC.

2.4 CONDITIONS PRECEDENT

- b) execute any appropriate NYISO applications and agreements;
- c) obtain authorization from the FERC to sell power at market-based rates;
- d) complete EDI testing with Distribution Utility;
- e) provide all other documentation required by the Distribution Utility; and

If Competitive Supplier has not fulfilled all such requirements fourteen days prior to the Nominal Start Date, then the Municipality may terminate this ESA without any liability from Municipality to the Competitive Supplier.

2.5 OWNERSHIP AND USE OF ELIGIBLE CUSTOMER DATA

Competitive Supplier acknowledges that: 1) all Eligible Customer data (including addresses, telephone numbers or other identifying information) made available to Competitive Supplier as an agent of Municipality for such data must be protected by the Competitive Supplier and its Associated Entities to the fullest extent possible under the law; 2) the Competitive Supplier does not hold any permanent right, title or interest in this data; and 3) this data is to be obtained, retained and used by the Competitive Supplier and its Associated Entities solely to provide Firm Full-Requirements Power Supply to Participating Customers and to render other services expressly required or permitted under this ESA. Any other use of Eligible Customer data without the prior written consent of the Municipality is strictly prohibited.

Competitive Supplier may share such Eligible Customer data with third-party vendors as

reasonably necessary to accommodate Competitive Supplier's provision of Firm Full-Requirements Power Supply or other performance pursuant to this ESA (including, without limitation, collection of receivables or enhancement of data exchange between the Parties to the extent permitted by applicable Governmental Rules), provided that Competitive Supplier will take reasonable measures to secure the confidential nature of such data and the restrictions set forth in this Article 2.5 and elsewhere in this ESA, and that any vendor or subcontractor is also bound by the terms and conditions of this ESA, especially those regarding data confidentiality and prohibition on non-permitted uses of data through a signed data security agreement, a copy of which will be provided to the Municipality within a reasonable time following Municipality's request. Except as expressly provided in this ESA, and as otherwise permitted by law, Competitive Supplier and its Associated Entities shall not disclose any Eligible Customer data to any third party and Competitive Supplier and its Associated Entities shall take all Commercially Reasonable measures to protect Eligible Customer data from access by, or beneficial use for, any third party. To the extent that the provision of Firm Full-Requirements Power Supply or other services under this ESA requires that Competitive Supplier and its Associated Entities have access to or make use of any Eligible Customer data, Competitive Supplier and its Associated Entities shall treat such Eligible Customer data as confidential information. Competitive Supplier may use Eligible Customer data to engage in direct marketing only during the term of this ESA and subject to the terms set forth in Article 18.2. A violation of this Article 2.5 shall be grounds for termination under Article 4.2(a). Competitive Supplier agrees violation of this Article 2.5 shall constitute irreparable harm.

ARTICLE 3 CUSTOMER CHOICE, NOTIFICATION OF RIGHTS, ENROLLMENT

3.1 CUSTOMER CHOICE

The Parties acknowledge and agree that all Participating Customers have the right, pursuant to CCA Orders, Local Law, and the Program, to change their source or product of electricity supply, as set forth in Article 2.1. The Parties represent and warrant to each other that they shall not interfere with the right of Participating Customers to opt-out of the Program, and shall comply with any rules, regulations or policies of PSC, the Distribution Utility and/or other lawful Governmental Authority regarding the procedures for opting out or of switching from one source of electric supply to another. Not inconsistent with the above, however, the Parties may take Commercially Reasonable measures to encourage Participating Customers to affirmatively agree to remain in the Program, consistent with any Governmental Rules.

3.2 NOTIFICATION TO NEWLY OPT-OUT ELIGIBLE CUSTOMERS OF OPT-OUT RIGHTS

Consistent with the requirements of any applicable Governmental Rules, and within a reasonable time after the Distribution Utility notifies Competitive Supplier of the existence of a Newly Opt-out Eligible Customer and has provided to Competitive Supplier such Newly Opt-out Eligible Customer's account number, service and billing address, and other pertinent contact information, Competitive Supplier shall notify such Newly Opt-out Eligible Customer (i) of the date on which such Newly Opt-out Eligible Customer will be automatically enrolled in the Program, and (ii) that the Competitive Supplier will be providing Firm Full-Requirements Power Supply to such Newly Opt-out Eligible Customer as of the same date, subject to the opt-out provisions of the PSC Orders, Local Law, and the Program ("Opt-Out Notice"). The Opt-Out Notice shall be mailed to each such Newly Opt-out Eligible Customer prior to the date of automatic enrollment and shall: (i) prominently state all charges to be assessed by the

Competitive Supplier; (ii) at a minimum, provide a summary of the prices and terms included in Exhibit A; (iii) state how such Newly Opt-out Eligible Customer may opt-out of the Program prior to enrollment and remain on Default Service from the Distribution Utility; and (iv) state how all Participating Customers, subsequent to enrollment, will also have the right to opt-out at any time and return to Default Service or choose a new Competitive Supplier without paying a fee or penalty to Competitive Supplier. All such notices must be approved in advance by the Municipality. The Parties understand that with respect to official communications, time is of the essence.

In providing the notifications set forth in this Article 3.2, and in otherwise conducting the activities in Article 3.4 below, the Competitive Supplier must rely upon information provided to it by the Distribution Utility for the purpose of performing its obligations. Competitive Supplier will not be responsible for any errors in connection with notification of Eligible Customers only to the extent both that: 1) such errors are caused by errors or omissions in the information provided to it by the Distribution Utility or Program Manager; and 2) it was reasonable for the Competitive Supplier to rely upon that provided information. The Municipality shall not be responsible for any such errors by the Competitive Supplier in any event.

3.3 CUSTOMER AWARENESS

Upon mutual agreement concerning the content and method, either the Competitive Supplier, Municipality, or Program Manager may conduct customer awareness efforts at its sole expense. Notwithstanding anything to the contrary in this Agreement, Municipality and Program Manager shall be responsible for ensuring approval by the applicable Governmental Authority of the overall content in connection with any consumer awareness efforts, actions or notices, including but not limited to any education, outreach or similarly situated activities regarding the Program or an Eligible Consumer's ability to opt-out of the Program.

3.4 ENROLLMENT

3.4.1 Participating Customers –All Opt-out Eligible Customers as of the Effective Date will be enrolled in the Program, thus becoming Participating Customers, under the terms of this ESA unless there is a delay, through no fault of the Competitive Supplier, in obtaining information from the Distribution Utility or they opt-out during the 30-day period specified in the PSC Orders. Participating Customers may disenroll from the Program at any time thereafter with no fee or penalty. The Municipality shall authorize the Distribution Utility to provide to Competitive Supplier or to an alternative designee of the Program Manager who has agreed in writing to a data security agreement, a list of Participating Customers as of the Effective Date, as well as such Participating Customer's service and billing addresses, and any other information necessary for Competitive Supplier to commence Firm Full-Requirements Power Supply to such Participating Customers as of the Service Commencement Date.

3.4.2 Newly Opt-out Eligible Customers - If Newly Opt-out Eligible Customers elect not to opt-out of the Program as provided in Article 3.2, such Newly Opt-out Eligible Customers will be automatically enrolled by Competitive Supplier in the Program. These Newly Opt-out Eligible Customers electing not to opt out of the Program as provided in Article 3.2 shall be enrolled in the Program as set out in Exhibit A, 4.6, and at a price as defined in Exhibit A. For the avoidance of doubt, Participating Customers that have opted into the Program shall also be enrolled in the Program at a price as defined in Exhibit A. Competitive Supplier shall enroll such Newly Opt-out Eligible Customers and opt-in customers in accordance with applicable

PSC and Distribution Utility rules.

3.4.3 Eligible Customers Who Have Previously Opted Out - At any time during this ESA, Eligible Customers who would otherwise be Opt-out Eligible Customers but who have previously opted out of the Program may request that they be enrolled or re-enrolled in the Program. Following mutually agreed upon procedures, the Competitive Supplier is responsible for accurately and promptly transmitting information regarding Eligible Customers, to the Distribution Utility. Competitive Supplier further agrees that customers being served under other competitive supply programs that terminate or are otherwise completed become Newly Opt-out Eligible Customers and may be automatically enrolled as Participating Customers under the CCA Orders in accordance with Article 3.2 above. Eligible Customers who opt-in as provided in this Article 3.4.4 or who enroll following the termination or completion of another competitive supply program offered by a third party shall be enrolled in the Program at the rates reflected in Exhibit A. For the avoidance of doubt, Eligible Customers in service classes that are not eligible for Opt-out treatment as delineated in the CCA Framework Order and the CCA Framework Modification Order may be enrolled in the Program at Competitive Supplier's discretion.

- a) by the Municipality, or the Competitive Supplier, if the other Party fails to remedy or cure any breach of any material provision or condition of this ESA (including, but not limited to, Article 2.5 and Article 9), but excluding the failure to provide or arrange for Firm Full- Requirements Power Supply, which is addressed in Article 4.2(f), within sixty (60) days following written notice to do so by the non-breaching party; or
- b) by the Municipality, or the Competitive Supplier, if any material provision or condition of this ESA be finally adjudged invalid by any court of competent jurisdiction, or if any Governmental Authority exercises any lawful jurisdiction so as to invalidate or disapprove this ESA in whole or in significant part; or

In the event the Competitive Supplier has performed its obligations hereunder and its failure to arrange for or provide Firm Full-Requirements Power Supply is a direct result of actions or non-actions by any transmission service provider, the Distribution Utility, or the NYISO, the Competitive Supplier's failure shall not be deemed to be an act of immediate default and would be subject to remedy or cure as provided in Article 4.2(a).

4.3 OBLIGATIONS UPON TERMINATION

Following termination of this ESA, the Parties shall each discharge by performance all obligations due to any other Party that arose up to the date of termination of the ESA and Competitive Supplier shall continue to have the right to collect all monies due for services rendered to that date.

Upon termination of this ESA, Competitive Supplier shall have all Participating Customers switched back to obtaining supply from the Distribution Utility or another supplier by submitting drop requests of all Participating Customers via EDI or alternative data protocol to the Distribution Utility in a form acceptable to the Distribution Utility. Competitive Supplier shall provide written notice to Program Manager at least sixty (60) days prior to submitting any such Participating Customer drop requests in accordance with Article 4.3, which notice shall include the timing of submission of such requests to the Distribution Utility, that Competitive Supplier intends to be executed before or in anticipation of the termination of this ESA; provided, however, that Competitive Supplier's notice obligation shall not apply to any Participating Customer drop that is initiated by a Participating Customer.

4.4 EXTENSION

The ESA may be extended beyond the termination date established in Article 4.1 by mutual, written agreement of the Parties. Any new pricing terms shall be added to and replace Exhibit A as Exhibit A Extension. Upon any such extension, this ESA shall continue to be in effect, and all provisions of the ESA shall retain the same force and effect as before the extension, unless it is terminated by any Party pursuant to the provisions of Article 4.2 or until the date stated in such extension.

ARTICLE 5 CONTINUING COVENANTS

The Competitive Supplier agrees and covenants to perform each of the following obligations during the term of this ESA.

5.1 STANDARDS OF MANAGEMENT AND OPERATIONS

In performing its obligations hereunder, during the term of this ESA, the Competitive Supplier shall exercise reasonable care to assure that its facilities are prudently and efficiently managed; that it employs an adequate number of competently trained and experienced personnel to carry out its responsibilities; that it delivers or arranges to deliver an uninterrupted supply of such amounts of electricity to the Point of Delivery as are required under this ESA; that it complies with all relevant industry standards and practices for the supply of electricity to Participating Customers; and that, at all times with respect to Participating Customers, it exercises good practice for a Competitive Supplier and employs all Commercially Reasonable skills, systems and methods available.

5.2 CUSTOMER SERVICE ACCESS

The Competitive Supplier agrees to provide, or cause to be provided, certain customer services to Participating Customers. Such services shall be reasonably accessible to all Participating Customers, shall be available during normal working hours, shall allow Participating Customers to transact business they may have with the Competitive Supplier, and shall serve as a communications liaison among the Competitive Supplier, the Municipality, and the Distribution Utility. A toll-free telephone number will be established by Competitive Supplier and be available for Participating Customers to contact Competitive Supplier during normal business hours (9:00 A.M. - 5:00 P.M. Eastern Time, Monday through Friday) to resolve concerns, answer questions and transact business with respect to the service received from Competitive Supplier. To the extent practicable, the Administrator will provide to Municipality, and the Municipality will post program-related information on the Municipality's website which will be available to Participating Customers for general information, comparative pricing, product, and service information, and other purposes.

5.3 RESPONDING TO REQUESTS FOR INFORMATION

To the extent authorized by the Participating Customer(s) and to the extent such individual permission is required by law, the Competitive Supplier shall, during normal business hours (as set forth above), respond promptly and without charge therefore to reasonable requests of the Municipality for information or explanation regarding the matters covered by this ESA and the supply of electricity to Participating Customers, but excluding any confidential or proprietary information of the Competitive Supplier. Competitive Supplier agrees to designate a service representative or representatives (the "Service Contacts") who shall be available for these

purposes, and shall identify the email address and telephone number of such representative(s).

Whenever necessary to comply with this Article 5.3, the Service Contacts shall call upon other employees or agents of the Competitive Supplier to obtain such information or explanation as may be reasonably requested. Nothing in this Article 5.3 shall be interpreted as limiting the obligation of the Competitive Supplier to respond to complaints or inquiries from Participating Customers, or to comply with any regulation of PSC regarding customer service.

5.4 ARRANGING FOR FIRM FULL-REQUIREMENTS POWER SUPPLY

Competitive Supplier shall participate in or make appropriate arrangements with NYISO, any relevant regional transmission organization, wholesale suppliers or any other entity to ensure an uninterrupted flow of Firm Full-Requirements Power Supply to the Distribution Utility for delivery to Participating Customers, and exercise all Commercially Reasonable efforts to cooperate with NYISO or any other entity to ensure a source of back-up power in the event that Competitive Supplier is unable to deliver Firm Full-Requirements Power Supply to the Point of Delivery. In the event the Competitive Supplier is unable to deliver sufficient electricity to the grid to serve Participating Customers, the Competitive Supplier shall utilize such arrangements and exercise all Commercially Reasonable efforts as may be necessary to continue to serve Participating Customers under the terms of this ESA, and shall bear any costs it may incur in carrying out these efforts and obligations. Competitive Supplier shall not be responsible to the Municipality or any Participating Customers in the event that, through no fault of the Competitive Supplier or its Associated Entities, the Distribution Utility disconnects, curtails or reduces service to Participating Customers (notwithstanding whether such disconnection is directed by NYISO).

5.5 NON-DISCRIMINATORY PROVISION OF SERVICE

Competitive Supplier shall supply electric energy to the Point of Delivery to all Participating Customers on a non-discriminatory basis; provided, however, that those prices and other terms may vary in accordance with reasonably established service classes (e.g., residential and small commercial as defined by the Distribution Utility) or by such other categories as appear in Exhibit A. To the extent applicable, Competitive Supplier's prices, terms and conditions shall be in accordance with the New York General Laws, the regulations of PSC, and other applicable Governmental Rules or provision of law. To the extent required by law and/or the conditions of any PSC approval of this ESA, the Competitive Supplier may not deny service to an Eligible or Participating Customer for failure to pay the bills of any other electric company (whether engaged in the distribution, transmission, or generation of electricity) or of any other aggregator, marketer or broker of electricity, but may reasonably deny or condition new service, or terminate existing service, based upon any Participating Customer's failure to pay bills from the Competitive Supplier, subject to any applicable provisions of law or applicable PSC orders or regulations. Provision of electric energy supply shall be subject to Competitive Supplier's Standard Credit Policy, to the extent permitted by law, as described in Exhibit A.

5.6 APPROVAL OF GENERAL COMMUNICATIONS

Competitive Supplier shall cooperate with the Municipality in the drafting and sending of messages and information to Eligible or Participating Customers concerning the Program or any matter arising under or related to this ESA. Competitive Supplier shall, prior to sending, whether

directly or through its Associated Entities, any direct mail, advertising, solicitation, bill insert, electronic mail, or other similar written or electronic communication (collectively, "General Communications") to Eligible or Participating Customers (but excluding individually drafted or tailored communications responding to the specific complaint or circumstance of an individual customer), provide a copy of such General Communication to the Municipality and to Program Manager for its review to determine whether it is consistent with the purposes and goals of the Municipality and Program Manager, except that approval shall not be required for any communications that are standardized by the Governmental Rules or applicable law, in which case they will be considered already approved by all Parties.

The Municipality and Program Manager understand that time is of the essence regarding their review and that Competitive Supplier is dependent on their timeliness to ensure that its obligations are met. The Municipality or Program Manager shall have the right to disapprove such General Communications and suggest revisions if it finds the communication inconsistent with the purposes and goals of the Municipality, factually inaccurate or likely to mislead; provided, however: (i) that the communication shall be deemed approved if the Municipality and Program Manager fails to respond within seven (7) calendar days (not including weekends and holidays); and (ii) that no approval shall be necessary for any communication (a) regarding any emergency situation involving any risk to the public health, safety or welfare; or (b) in the nature of routine monthly or periodic bills, or collection notices, except that any bill insert or message included in such bill not within the scope of (a) above shall require approval. If the Municipality objects to any General Communication on the grounds it is inconsistent with the purposes and goals of the Municipality, the Competitive Supplier, after consultation as provided in this Article 5.6, may nevertheless elect to send such General Communication provided that it: (i) clearly indicates on such communication that it has not been endorsed by the Municipality, and (ii) has previously provided all Participating Customers a meaningful chance to opt not to receive such General Communications. The Municipality may reject or exclude any proposed General Communication that, in its reasonable judgment, is contrary to the interests and objectives of the Program or the Municipality, provided, however, any such right of rejection or exclusion shall not apply to Competitive Supplier's notice to exercise or enforce its rights under the ESA, including but not limited to any notice of Force Majeure or Change in Law.

5.7 COMMUNICATION OF INSERTS AND MESSAGES

Competitive Supplier shall, without increasing the prices reflected Exhibit A, print and mail one letter or postcard per year to all active Participating Customers, the design of which shall be determined by the Municipality or Program Manager. The letter or postcard shall be limited to one page, double-sided, and printed in color with each Municipality's identification. Any additional expenses outside of the limitations set forth above shall be paid by Program Manager.

In addition, Competitive Supplier agrees that if it communicates with Participating Customers directly, and unless prevented for regulatory or other such reasons from doing so, it shall allow the Municipality or Program Manager to include no less than three (3) inserts per year into such communications, provided that the Program Manager or Municipality, where appropriate, pays the cost of printing and reproducing such insert and any incremental postage or handling costs the Competitive Supplier may incur as a result of including such insert. Competitive Supplier shall have the right to disapprove such General Communications (that is communications other than those pertaining to the Municipality's demand-side management, energy efficiency programs and technology, and renewable energy programs, if applicable) and suggest revisions if it finds the communication inconsistent with its business interests, factually inaccurate or likely

to mislead; provided, however: (i) that the communication shall be deemed approved if the Competitive Supplier fails to respond within seven (7) calendar days after receipt (not including weekends and holidays); and (ii) that no approval shall be necessary for any communication which has been ordered by PSC or any other Governmental Authority to be so communicated. Competitive Supplier shall notify Program Manager at least two (2) weeks before a direct communication to Participating Customers is to be mailed. Program Manager shall provide Program General Communications insert file within seven (7) calendar days of receiving such notice.

Competitive Supplier agrees to allow and facilitate the Program Manager to utilize the supplier messages area of the bill for Program communications; provided, however, Program Manager shall provide a written request to Competitive Supplier of not less than fourteen (14) days, which requests details the message to be included on the bill, and any such message shall be subject to Competitive Supplier's approval, such approval not to be unreasonably withheld.

5.8 AGGREGATE CONSUMPTION INFORMATION AND PARTICIPATING CUSTOMER LISTS

To the extent not prohibited by any Governmental Rule or expressly prohibited by any Participating Customer(s), the Competitive Supplier shall, upon request of the Municipality or of Program Manager, provide aggregate consumption information as the Municipality or Program Manager may request to the extent such information is available to Competitive Supplier. Competitive Supplier shall provide Participating Customer lists in an electronic format, secure transfer mode, frequency and format as set out in Exhibit C, subject to a data security agreement for customers who have not requested that their personal information be denied to Program Manager or to Municipality and subject to all Governmental Rules.

5.9 COMPLIANCE WITH LAWS

The Parties shall promptly and fully comply with all existing and future Governmental Rules of all Governmental Authorities having jurisdiction over the activities covered by this ESA.

5.10 CONSENT

Whenever performance of an obligation of any Party hereto requires the consent or approval of any Governmental Authority, such Party shall make Commercially Reasonable efforts to obtain such consent or approval. In the event the Competitive Supplier requests the Municipality's assistance in obtaining such consent or approval and the Municipality anticipates that it will incur costs in fulfilling the Competitive Supplier's request, it shall give the Competitive Supplier an estimate of such costs. Upon receiving the estimate, Competitive Supplier shall determine whether it will continue to request the Municipality's assistance, and if so, the Competitive Supplier shall reimburse the Municipality for all costs, up to the estimated dollar amount, reasonably incurred by the Municipality in connection with such efforts.

ARTICLE 6 ROLE OF THE MUNICIPALITY

Under this ESA, the Municipality shall not actually receive, take title to, or be liable for the supply or delivery of Firm Full-Requirements Power Supply in any manner whatsoever. The Parties specifically agree that the role of the Municipality is established under the PSC Orders and Local Law and may include negotiating the terms and conditions under which Firm Full-

Requirements Power Supply will be provided by the Competitive Supplier under this ESA. It is the sole obligation of the Competitive Supplier to arrange for delivery of Firm Full-Requirements Power Supply to Participating Customers. The Parties agree that, with regards to electricity, Municipality is not a “public utility company” or providing any “public utility service” within the meaning of GML 360 and Article 4 of Public Service Law as a result of this ESA. Should a court, PSC, or other lawful authority adjudicate to the contrary, the provisions of 4.2 a) shall apply. However, the Municipality may be considered to be operating a municipal load aggregation plan pursuant to the PSC Orders and Local Law. The Competitive Supplier hereby agrees that it will take no action, whether directly or through its Associated Entities, that would make the Municipality liable to any Participating Customer due to any act or failure to act on the part of the Competitive Supplier or its Associated Entities relating to the delivery, supply of or billing for Firm Full-Requirements Power Supply.

The initial program notification letter **will be delivered at the Competitive Supplier’s expense, with a Business Reply Mail insert to allow Eligible Customers to opt out without postage expense.** Municipality may conduct additional outreach to the community, and will report to Program Manager on their endeavors to inform residents and small commercial customers about the Program. In case of any doubt, Municipality shall retain final control of content related to all such additional communications.

ARTICLE 7 ROLE OF PROGRAM MANAGER

7.1 PROGRAM MANAGER DUTIES

Sustainable Westchester Inc, as Program Manager, agrees to:

- a. Provide the involved agencies and parties, such as but not limited to the PSC or Distribution Utility, requested information about and documentation of the actions undertaken by the Municipality in furtherance of enabling participation in the Program;
- b. Prepare, or cause to be prepared, and provide the Municipality with requested and non-confidential information that the involved agencies and parties, such as but not limited to the PSC or Distribution Utility, provide to the Program Manager in furtherance of establishing the Program;
- c. Upon execution hereof, initiate all the necessary steps to secure the needed information to fulfill the customer notification requirements of the PSC Orders, including but not limited to the following:

File final versions of the customer opt-out letters, after the supply procurement is finalized, that provide details on the Program.

Agreeing to protect that information consistent with the discussion in the body of this Order.

In addition, Program Manager will file any Requests for Proposals, or Requests for Information, and similar documents, as well as any contracts entered into for energy supply as required under relevant Government Rules.

- d. Sign the ESA in a timely fashion including the conditions that the Competitive Supplier is verified to be a qualified electricity supplier by the NYISO in the Distribution Utility’s service territory and the Competitive Supplier’s response to the Energy Procurement Request for Proposals is deemed compliant with the terms and conditions set forth in the ESA;

- e. Provide the Municipality with timely communications content to implement customer notification requirements for approval, not to be unreasonably withheld, given the projected schedule of Program's implementation;
- f. Fulfill any other responsibilities as may reasonably adhere to facilitating the implementation of the Program, subject to the Program Manager's inherent and original role as an organization driven by the deliberated priorities of its constituent member municipalities; and
- g. Fulfill any other responsibilities as set forth in this agreement herein.

7.2 PROGRAM MANAGER FEE

Competitive Supplier shall pay Program Manager \$0.00175 for each kWh delivered, invoiced and paid for by Participating Customers during the Term ("Program Manager Fee" or "Fee"). The Parties agree that Competitive Supplier will remit the Program Manager Fee to the Program Manager, pursuant to the terms of this ESA. Competitive Supplier shall pass through such payments to Sustainable Westchester, Inc. for the duration of this ESA. This provision shall be binding upon the Parties and all permitted assigns and other successors-in-interest of the Parties.

7.3 PAYMENT OF FEE

Payment to Program Manager will be made monthly by Automated Clearing House ("ACH") (an electronic network for financial transactions) to the account indicated by Program Manager, provided that Competitive Supplier has received payment with respect to the electricity used by the Participating Customers. The Program Manager Fee shall be paid by the last business day of the month based on revenue collected by Competitive Supplier with respect to each Participating Customer during the calendar month two months prior. For example, full payments received in January will be paid by the end of March. If Competitive Supplier has paid a past Fee in error (or the payment was based on information subsequently determined invalid), it may deduct from or add to future payments due under this ESA and provide a sufficiently detailed explanation of the error.

Program Manager shall provide the Municipality with a reasonably detailed accounting not less than annually of the program impact, financial and other, including revenues received and expenses incurred on communication, administration and legal expenses.

7.4 INDEPENDENT CONTRACTOR

The Parties agree that Program Manager is not an agent or employee of Competitive Supplier for any purpose. All expenses which are incurred by Program Manager in connection with this ESA shall be borne wholly and completely by Program Manager. Program Manager shall be responsible for all state, federal, and local taxes, including estimated taxes and social security and employment reporting for Program Manager or any employees or agents of Program Manager.

7.5 AUCTION SERVICE FEE

Competitive Supplier shall, for the duration of this ESA, pay the auction service company, AuctionURenergy LLC ("Auction Service Company"), \$0.00020 for each kWh delivered, invoiced and paid for by Participating Customers during the Term ("Auction Service Fee"). This provision shall be binding upon the Parties and all permitted assigns and other successors-in-interest of the

Parties, subject to the execution of any necessary separate agreement between the Auction Service Company and Competitive Supplier.

Payment to the Auction Service Company shall be made monthly by ACH to the account indicated by the Auction Service Company, provided that Competitive Supplier has received payment with respect to the electricity used by the Participating Customers.

The Auction Service Fee shall be paid by the last business day of the month based on revenue collected by Competitive Supplier with respect to each Participating Customer during the calendar month two months prior. For example, for full payments received from Participating Customers in January the Auction Service Fee associated with those payments will be paid by the end of March. If Competitive Supplier has paid a past Auction Service Fee in error (or the payment was based on information subsequently determined invalid), it may deduct from or add to future payments due to the Auction Service Company and provide a sufficiently detailed explanation of the error.

ARTICLE 8 PRICES AND SERVICES; BILLING

8.1 SCHEDULE OF PRICES AND TERMS

Competitive Supplier agrees to provide Firm Full-Requirements Power Supply and other related services as expressly set forth herein in accordance with the prices and terms included in Exhibit A to this ESA, which Exhibit is hereby incorporated by reference into this ESA.

8.2 OBLIGATION TO SERVE

As between the Parties, Competitive Supplier has the sole obligation to obtain sources of supply, whether from generating facilities owned or controlled by its affiliates, through bilateral transactions, or the market, as may be necessary to provide Firm Full-Requirements Power Supply for all of the Participating Customers under the Program. Competitive Supplier, except as explicitly limited by the terms included in Exhibit A, shall be obligated to accept all Participating Customers, regardless of their location or energy needs provided such Participating Customers are eligible under the applicable regulations and tariffs of the Distribution Utility.

8.3 METERING

The Distribution Utility will be responsible for any metering which may be required to bill Participating Customers in accordance with the Distribution Utility's Terms and Conditions for Competitive Suppliers.

8.4 TERMS AND CONDITIONS PERTAINING TO INDIVIDUAL ACCOUNT SERVICE

8.4.1 Title

Title to Firm Full-Requirements Power Supply will transfer from Competitive Supplier to Participating Customers at the Point of Sale. In accordance with the Distribution Utility's Terms and Conditions for Competitive Suppliers, the Competitive Supplier will be responsible for any and all losses incurred on the local network transmission systems and distribution systems, as determined by the Distribution Utility.

8.4.2 Billing and Payment

Unless otherwise specified in an Exhibit to this ESA, all billing under this ESA shall be based on the meter readings of each Participating Customer's meter(s) performed by the Distribution Utility. Competitive Supplier shall cause the Distribution Utility to prepare and mail bills to Participating Customers monthly. The Competitive Supplier shall adopt the billing and payment terms offered by the Distribution Utility to its Eligible Customers on Default Service. If actual meter date is unavailable, the Competitive Supplier may cause the Distribution Utility to bill based on its good faith estimates of usage. Any overcharge or under-charge will be accounted for in the next billing period for which actual meter data is available.

8.4.3 Regional and Local Transmission

The prices quoted in Exhibit A do not include current and future charges for distribution service costs collected by the Distribution Utility under its distribution service tariff or local transmission costs as may be imposed by NYISO or individual electric utilities that have FERC transmission tariffs. The Competitive Supplier understands that these costs will be collected by the Distribution Utility. If, in the future, Competitive Supplier becomes responsible for such distribution or transmission costs, Competitive Supplier shall be entitled to collect such costs from Participating Customers to the extent permitted by any Governmental Rules. These costs are "pass through" costs as determined by the appropriate regulatory agencies.

8.4.4 Taxes

All sales, gross receipts, excise or similar taxes imposed with respect to the sale or consumption of Firm Full-Requirements Power Supply required to be collected by the Competitive Supplier shall be included on the Participating Customer's bill and shall be remitted to the appropriate taxing authority by Competitive Supplier. For avoidance of doubt, it is understood that the Competitive Supplier shall include gross receipts tax in its preparation of Participating Customers' bills. Participating Customers shall be responsible for all taxes that are customarily imposed upon a purchaser of electricity and are associated with electricity consumption under the ESA. The Parties acknowledge and agree that Participating Customers shall be responsible for identifying and requesting any exemption from the collection of any tax by providing appropriate documentation to Competitive Supplier. For avoidance of doubt, Competitive Supplier shall be responsible for all taxes imposed upon it as a supplier of electricity, including taxes on Competitive Supplier's income.

ARTICLE 9 COMPLIANCE WITH THE PSC ORDERS

Competitive Supplier agrees that it, and its Associated Entities directly or indirectly involved in providing services or meeting the Competitive Supplier's obligations under the ESA, will comply with the applicable provisions of the PSC Orders and any regulations, orders or policies adopted pursuant thereto.

ARTICLE 10 SERVICE PROTECTIONS FOR RESIDENTIAL CUSTOMERS

10.1 UNIFORM BUSINESS PRACTICES COMPLIANCE

Competitive Supplier agrees that it and its Associated Entities directly or indirectly involved in providing services or meeting the Competitive Supplier's obligations under the ESA shall comply with the provisions of the Uniform Business Practices, as applicable to Competitive

Suppliers, and any amendments thereto, notwithstanding any relief from the Uniform Business Practices offered by the PSC to the Program. In addition, the Competitive Supplier and its Associated Entities agree to comply with any code of conduct or policies the PSC may adopt in accordance with the PSC Orders and to all related Orders of Case 14-M-0564 and 14-M-0224 to which the Program Manager is required to adhere, notwithstanding any relief from the Uniform Business Practices offered by the PSC to the Program.

10.2 DESCRIPTION OF SUPPLIER'S PROCEDURES AND SERVICES

The Competitive Supplier shall, no later than ten days after a request from Municipality or Program Manager, provide a written, detailed description of its billing and termination procedures, customer services, confidentiality and related practices and procedures for approval by the Municipality (which approval shall not be unreasonably withheld). Such written description shall also include the Competitive Supplier's plans for protecting the rights and protections of Participating Customers under the Home Energy Fair Practices Act which requires that all utility customers be treated fairly with regard to application for service, customer billing, and complaint procedures.

If the Participating Customer(s) so permit(s) or to the extent such permission is required by law or the terms of any PSC order with respect to this ESA, the Competitive Supplier agrees to provide notice to the Municipality of any customer complaints received from a Participating Customer, and the Municipality shall have the right, but not the obligation, to participate in resolution of the dispute, to the extent that such complaints relate directly to the Program, and to the extent permitted by PSC regulations and other applicable law. The failure to timely submit such written description, or the submission of practices and procedures which materially fail to comply with PSC regulations and policies, shall be deemed grounds for termination of this ESA, at the discretion of the Municipality after providing written notice of such failure to the Competitive Supplier and allowing the Competitive Supplier sixty (60) days to cure such failure.

10.3 DISPUTE RESOLUTION

In accordance with the Uniform Business Practices, in the event of a dispute regarding an invoice or Competitive Supplier's service, whether directly or through its Associated Entities, under this ESA, a Participating Customer may initiate a formal dispute resolution process by providing written notice to the PSC. The PSC will assist the Parties in reaching a mutually acceptable resolution. If no such resolution is reached within 40 calendar days of receipt of the formal written notice, any Party may request an initial decision from PSC. Parties may appeal this decision.

ARTICLE 11 NON-DISCRIMINATION IN HIRING AND EMPLOYMENT

Competitive Supplier agrees that it shall conduct its operations and activities under this ESA in accordance with all applicable state and federal laws regarding non-discrimination in hiring and employment of employees, and will require all Associated Entities to do the same.

ARTICLE 12 POWER SUPPLY INFORMATION AND ACCESS TO INFORMATION

12.1 POWER SUPPLY INFORMATION

All reports provided under this 12.1 shall be provided in electronic format.

12.1.2 Customer-Related Data

On and after the Service Commencement Date, Competitive Supplier will maintain customer-related data in electronic form including utility account number, billing name, billing address, service address historical usage, demand, and ICAP (Installed Capacity) data. A violation of this Article 12.1.2 shall be grounds for termination under Article 4.2(a) unless such violation is due to a system or reasonable administrative error and the Competitive Supplier demonstrates to the Municipality's satisfaction that such system or administrative error exists and that the Competitive Supplier is acting in good faith to resolve such issue.

12.1.3 Standard of Care

Competitive Supplier and its Associated Entities shall use all Commercially Reasonable efforts in preparing and providing any information or data required under the ESA. To the extent that Competitive Supplier determines that any information or data provided hereunder is in error, it shall provide corrections to such information or data to the Municipality or its agent within a Commercially Reasonable time.

12.2 POWER SUPPLY REPORT

Competitive Supplier agrees to comply with any current and/or future rules and regulations related to Environmental Disclosure Labels in the State of New York, including the creation of separate labels to reflect renewable CCA products within the Competitive Supplier's portfolio, as well as individual municipal renewable purchases within the CCA program.

Unless the Environmental Disclosure Label requirement is waived by PSC, Competitive Supplier shall present a copy of the current Environmental Disclosure Label annually or as required by the PSC of all Competitive Suppliers to be disclosed to their Participating Customers, which includes information pertaining to Competitive Supplier's power supply and a reasonably detailed description of the sources of Competitive Supplier's power supply used to serve Participating Customers pursuant to this ESA, except to the extent such disclosure would violate any confidentiality obligations of Competitive Supplier.

12.3 BOOKS AND RECORDS

Competitive Supplier shall keep their books and records in accordance with any applicable regulations or guidelines of PSC, FERC, and any other Governmental Authority and generally

accepted accounting principles. The Municipality will have electronic access to any reports mandated by the Securities and Exchange Commission which are available on the Internet "EDGAR" system. Upon reasonable request by the Municipality and at the Municipality's reasonable expense, Competitive Supplier or its Associated Entities shall provide reasonable back up for any charge under this ESA questioned by the Municipality.

12.4 COPIES OF REGULATORY REPORTS AND FILINGS

Upon reasonable request, Competitive Supplier shall provide to the Municipality a copy of each public periodic or incident-related report or record relating to Competitive Supplier's obligations under this ESA and which it files with any New York or federal agency regulating rates, service, compliance with environmental laws, or compliance with affirmative action and equal opportunity requirements, unless the Competitive Supplier is required by law or regulation to keep such reports confidential. Competitive Supplier shall be reimbursed its reasonable costs of providing such copies, if only available in hard copy.

12.5 ADDITIONAL REQUESTS FOR INFORMATION

Upon reasonable request, Competitive Supplier shall provide Program Manager or Municipality with information necessary to comply with the CCA Orders, including but not limited to information concerning Participating Customer complaints and reasons for opting out of the Program. Competitive Supplier shall make Commercially Reasonable efforts to maintain Participating Customer records in a manner that facilitates the Parties compliance with the CCA Orders.

ARTICLE 13 RESOLUTION OF DISPUTES; CHOICE OF LAW AND FORUM

13.1 CHOICE OF LAW AND FORUM

This ESA and the rights of the Parties shall be interpreted and determined in accordance with the laws of the State of New York without respect to conflicts-of-laws principles. Any litigation arising hereunder shall be brought solely in the appropriate federal court in New York or appropriate state court sitting in the New York county in which the Municipality is located, to whose jurisdiction the Parties hereby assent, waiving all objections to venue or forum.

13.2 DISPUTE RESOLUTION

Unless otherwise provided for in this ESA, the dispute resolution procedures of this Article 13.2 shall be the exclusive mechanism to resolve disputes arising under this ESA. The Parties agree to use their respective best efforts to resolve any dispute(s) that may arise regarding this ESA. Any dispute that arises under or with respect to this ESA that cannot be resolved shall in the first instance be the subject of informal negotiations between the Parties involved in the dispute. The dispute shall be considered to have arisen when one Party sends the other Party(ies) involved in the dispute a written notice of dispute. The period for informal negotiations shall be fourteen (14) days from receipt of the written notice of dispute unless such time is modified by written agreement of the Parties involved in the dispute. In the event that the parties involved in the dispute cannot resolve a dispute by informal negotiations, the Parties may seek judicial enforcement subject to the provisions of this ESA. Notwithstanding the foregoing, injunctive relief may be immediately sought without resorting to alternative dispute resolution to prevent irreparable harm that would be caused by a breach of this ESA.

ARTICLE 14 INDEMNIFICATION

14.1 INDEMNIFICATION BY THE COMPETITIVE SUPPLIER

In addition to any other remedies available to the Municipality at law or equity, and notwithstanding any other provision contained herein, the Competitive Supplier shall indemnify, defend and hold harmless the Municipality and the Program Manager ("Indemnified Parties") and the Indemnified Parties' elected officials, officers, employees, agents, representatives, and independent contractors from and against any and all costs, claims, liabilities, damages, expenses (including reasonable attorneys' fees), causes of action, suits or judgments, incurred by, on behalf of or involving any one of the foregoing parties to the extent arising directly from or in connection with (i) any material breach by Competitive Supplier or its Associated Entities of its obligations, covenants, representations or warranties contained in this ESA and not resulting from the actions (or omissions where there is a duty to act) of the NYISO, Distribution Utility, the Municipality or its employees, or (ii) any action or omission taken or made by the Competitive Supplier or its Associated Entities in connection with Competitive Supplier's performance of this ESA.

14.2 NOTICE OF INDEMNIFICATION CLAIMS

If the Municipality or Program Manager seeks indemnification pursuant to this Article 14, it shall notify Competitive Supplier of the existence of a claim, or potential claim as soon as practicable after learning of such claim, or potential claim, describing with reasonable particularity the circumstances giving rise to such claim.

14.3 SURVIVAL

Notwithstanding any provision contained herein, the provisions of this Article 14 shall survive the termination of this ESA for a period of two (2) years with respect to (i) any claims which occurred or arose prior to such termination and (ii) any losses occurring as a result of the termination.

14.4 DUTY TO MITIGATE

Each Party agrees that they have a duty to mitigate damages and covenant that they will use Commercially Reasonable efforts to minimize any damages they may incur as a result of the other Party's performance or non-performance of this ESA.

ARTICLE 15 REPRESENTATIONS AND WARRANTIES

Service shall continue until the first customer meter read date on or after December 1, 202# for each Participating Customer unless this ESA is sooner terminated in accordance with Article 4.2 of this ESA.
- 4.3. **Eligible Customer Opt-In or Opt-Out.** Eligible Customers are free to opt-in or opt-out of the Program, or change their product selection. As a result of any such refresh or sweep performed, Newly Opt-Out Eligible Customers will be automatically enrolled in the Program unless a customer opts out of the Program; provided, however, that no refresh, sweep or enrollment of such Newly Opt-Out Eligible Customers that are part of any refresh or sweep shall occur less than four (4) months prior to the End Date or in the event of termination of this ESA. All New York Voluntary EDP Eligible RECs shall be created and recorded as such in the NYGATS.
- 4.8. **Modifications Due to Regulatory Events:** For the avoidance of doubt, the Parties acknowledge and agree that the following shall be treated as Regulatory Events as set forth herein.
- 4.8.1. **Adjustment in the Event of a Subsidy.** In the event that New York State institutes a subsidy for CCA purchase of RECs after the signing of this ESA that is applicable to all or any portion of the Competitive Suppliers obligations under this ESA, Competitive Supplier shall pass through the full subsidy to Participating Customers in the form of a rate reduction.

Municipality further understands that the Fixed Price includes NY Public Policy Transmission (NYPPT) Costs at a rate of \$0.00####/kWh, and that other NY CFC Transmission Costs are unknown at the time of bidding and therefore are not included in the Fixed Price. Competitive Supplier will pass through to Participating Customers any changes relative to the price adjust rate of \$0.00####/kWh, (upward or downward) to NYPPT and NY CFC Transmission costs not excluded from pass through adjustment in this 4.8.2, based on changes in such costs accruing from the Service Commencement Date forecasted through the remainder of term of this ESA, and which will be reflected in a future adjustment. Any such adjustments shall occur once during any calendar

year and Competitive Supplier will provide sufficient documentation, as determined in Competitive Supplier's reasonable discretion, evidencing the factual and regulatory basis for the proposed price change resulting from a change in NY State Transmission Costs; provided, however, that Competitive Supplier shall not be required to disclose non-public, proprietary business information to comply with this requirement.

- 4.8.3. **Adjustment for Changes to Clean Energy Standard.** The Parties agree and acknowledge that the Fixed Price set forth above excludes costs and charges associated with changes to the obligations of New York's Clean Energy Standard ("CES"), including but not limited to CES Tier 4 program costs as described in the "Order Adopting Modifications to the Clean Energy Standard" in case 15-E-0302 dated October 15, 2020, as may be amended or modified from time to time during the term of this Agreement. In the event that changes to such regulations/orders are finalized, such changes shall be deemed a Regulatory Event as that term is defined in this ESA and the Parties agree to amend this Exhibit A to reflect the cost impact of such Regulatory Event. For the avoidance of doubt, adjustments for Tier 1 REC Purchase Obligations are governed by Article 4.9.4, below.
- 4.8.4. **Adjustment for Clean Energy Standard Tier 1 REC Purchase Obligations.** The Parties agree and acknowledge that the Fixed Price set forth above includes Tier 1 REC purchases at a rate of \$0.00##/kWh in anticipation of compliance obligations under the Clean Energy Standard (CES) Tier 1 Renewable Energy Standard. In the event that final obligations established by the State result in a material change to this rate, upward or downward, such changes shall be deemed a Regulatory Event as that term is defined in this ESA and the Parties agree to amend this Exhibit A to reflect the cost impact of such Regulatory Event.
- 4.8.5. For the avoidance of doubt, the Parties agree and acknowledge that the Fixed Price set forth herein includes all costs and charges associated with the Clean Energy Standard, except as set forth in Articles 4.8.3 and 4.8.4, above.
- 4.8.6. The Parties agree and acknowledge that the costs associated with any mailings arising from a rate adjustment will be included in the adjusted rate and are excluded from the above fixed rates.
- 4.9. Competitive Supplier anticipates that the RECs provided hereunder will be generated primarily by hydroelectric facilities, but some portion of the RECs may be generated by wind, solar or other facilities, and except as set forth herein, Competitive Supplier reserves the right to source the RECs from any qualifying NY EDP Eligible Renewable Resource. Each REC represents environmental attributes associated with one MWh of electricity generated by a renewable fuel type defined by NYGATSs Operating Rules, last updated June 2, 2023, but does not include any tax credits, depreciation allowances or third-party subsidies of any kind. Competitive Supplier does not represent or warrant that the RECs purchased hereunder can be used as offsets or otherwise for compliance with any emission reduction or similar program.
- 4.10. In the event that the DPS or other governmental authority determines that a 50% or 100% Renewable Clean Power Product may be provided through the voluntary

purchase of New York Voluntary EDP Eligible RECs in an amount equal to 50% or 100% of the Participating Customers' electricity usage less any then-current Tier 1 REC purchase associated with the Clean Energy Standard requirements applicable to Competitive Supplier in New York, such change shall be deemed a Regulatory Event as that term is defined in this ESA and the Parties agree to amend this Exhibit A to reflect the cost impact of such Regulatory Event.

EXHIBIT C - DATA REQUIREMENTS

To the extent permitted by applicable Governmental Rules, the parties acknowledge that in order for Program Manager and participants to have visibility into their participation with the program, certain data will need to be exchanged, in a regular format, with regular transmission methods and times.

There are three file formats currently in use for this purpose which must be provided by Competitive Supplier to Program Manager, to the extent permitted by any applicable Governmental Rules:

1. Newly_Opt-out Eligible_Customer file - Competitive Supplier will obtain this data from the Utility as set out in 3.4.2 above and the notification mailing is made from the list following procedures described elsewhere in this ESA. The Program Manager requires a matching dataset as defined below in order to perform its duties for customer service during the opt out period.
2. Post-enrollment file* – Weekly, and after the Competitive Supplier sends enrollments to the Utility, either at the beginning of this contract or after a Newly Opt-out Eligible Customer opt out period, the Competitive Supplier will send this file to the Program Manager to update its records.
3. Overnight file* – basic status update for all transactions occurring since the last overnight file.
4. Commission file - Standard practice for aggregation suppliers.

* Competitive Supplier shall use Commercially Reasonable effort to provide the files within the timeframe stated above to support Program Manager's customer service needs, provided, however, that transmission frequencies for the Post-enrollment file and Overnight file may deviate from those in subsections 2 and 3 above until such time as Competitive Supplier has systems or processes that are fully automated and capable of creating such files, and provided, further, that such files must be shared only to the extent permitted by applicable Governmental Rules.

The abovementioned files should, at minimum, contain the following information:

<u>Newly Opt-out Eligible Customer file</u>	<u>Post-enrollment file</u>	<u>Commission file</u>
Pre-Enrollment ID Customer Name Service Address Service City State Zip Mailing Address Mail City State Zip Customer Classification Rate Category	Pre-Enrollment ID Utility Account Number Meter Read Cycle Account Start Account End Enrollment Issue/Reason Code Municipality Name Contract Start Contract End Rate Class Annual kWh Capacity Tag Capacity Start Date Capacity End Date Billing Name Billing Address Billing State Billing City Billing Zip Enrollment Date (Contract Start Date) Load Zone	Customer Name Service Account Number Invoice Number Contract ID Municipality Customer Class Invoice Date Start Date End Date Earned Date Scheduled Payment Month Usage UDC Code Commission Rate/Amount Commission Payment Lag (Days)

File transfer between the Supplier and Program Manager, or a party designated by Program Manager, shall be by SFTP or other secure mode.

For the avoidance of doubt, nothing in this Exhibit B shall be construed to require Competitive Supplier or Program Manager to violate any applicable Governmental Rules related to data sharing.

EXHIBIT D - OPTION FOR ALTERNATIVE SUPPLY OF POWER

Competitive Supplier shall provide power to Participating Customers, including through the purchase of REC's, throughout the term of this ESA and from sources selected in Competitive Supplier's own discretion. However, Program Manager desires to build or contract with a third party to supply renewable sources of energy (a "Renewable Power Source") after the Effective Date of the Program for the benefit of the Participating Customers or a subset of Participating Customers within the Municipality, should the Municipality elect to do so. Upon completion of any such Renewable Power Source or identification of a third-party Renewable Power Source, the Program Manager may offer to procure or sell output from the Renewable Power Source to Competitive Supplier, either directly or through an Associated Entity, under a separate Power Purchase Agreement ("PPA"). Competitive Supplier may also propose alternative PPA opportunities for a Renewable Power Source, or Program Manager and Competitive Supplier may elect to solicit offers from the free market for like quantities of power, RECs, or capacity.

Program Manager understands and acknowledges that (i) Competitive Supplier shall have no obligation to enter into a PPA during the term of this ESA; and (ii) if Competitive Supplier agrees to enter into a PPA, then completion of a PPA is contingent upon (without limitation) Competitive Supplier's confirmation (in its sole determination) that (a) the terms are in compliance with all rules, laws and regulations; (b) it has internal senior management approval after completion of financial, credit, legal and operation due diligence; and (c) the Parties have executed an amended ESA to incorporate terms of the PPA, including any necessary pricing adjustments agreed to by all Parties. In the event that Competitive Supplier elects not to enter into a PPA as described above and Program Manager enters into a third-party agreement, then the terms of this ESA shall remain unmodified and in full force and effect.

In the event Program Manager identifies output from Renewable Power Source(s) that Program Manager desires to assign to or request that the Competitive Supplier use in the Program, Program Manager will describe whether each product is unit-contingent or smoothed, and Program Manager will describe the projected (if unit contingent) or committed quantity (if smoothed) for RECs, Capacity and/or kWh, including time blocks for the product, if appropriate.

In the event that the Parties elect to enter into a PPA, the Parties agree to negotiate, in a Commercially Reasonable manner, a rate adjustment to Participating Customers to (a) compensate Competitive Supplier (or an Associated Entity) for any losses should Competitive Supplier (or an Associated Entity) need to then sell off any of the original power purchased to supply the Program at a lower price than it purchased it for, or (b) compensate Participating Customers for any gains should Competitive Supplier (or an Associated Entity) then be able to sell off any of the original power purchased to supply the Program at a higher price than it purchased it for. Any such rate adjustment shall only amend or modify the ESA by a written instrument signed by all Parties hereto. For avoidance of doubt, the foregoing does not obligate the Parties to come to an agreement regarding a rate adjustment.
