CONCLUSION

Present the main conclusions of the study. This section should also highlight the implication of the findings (e.g., a suggestion for future research, policy suggestions, etc).

REFERENCES

All reference results referred to in the article text must use primary references. We will usually expect a minimum of 20 to 30 references primarily to journal papers, depending on the length of the paper. **The reference uses the APA 7th Edition.** Cite references in the text by name and year in parentheses. For references in a non-English language, provide the English translation between square brackets ([]) right after the title. Authors are strongly urged to use a reference manager such as ENDNOTE, MENDELEY, or ZOTERO.
