LDR Patch Tournament Details:

Ruleset: Freaky Friday / Open Format / Double Elimination / Triple Battle / LDR Patch

For the Freaky Friday ruleset I will do rolls for which folder you will use for the tournament. I will do 2 rolls per entrant so you will have to pick one folder out of the two options given. After you have selected a folder you must use only that folder for the tournament.

Grand Finals will be best of 5 (First to win 3 rounds)

Rules:

- Use the folders provided in your matches
- Make sure to revel set up when battling your opponent

Prizes:

1st - A Cameo on a chip like e.g. ZeiiSpin or HonorLog

note - if you already have a reference already in the patch you sadly cannot claim these prizes and will be passed 1 place below. You can play for bragging rights and a role in my server if 1st (this however is exclusive to those with a reference already in the patch)

How to play LDR Patch:

To play my patch all you need to do is select the patch in the Tango menu. After that you'll need to create a save within tango as this creates a special save which is needed to have access to all the chips added and to not get an error. After you have created the save you can load up and start playing my patch. If you run into any issues feel free to DM me on discord @ldr100.
