Suggestions for how to quickly add to the book documents:

Option 1: Use the Kindle Web reader

(<https://www.amazon.com/gp/feature.html?docId=1000579091>) to open the book on your computer and then copy/paste directly from the book into the document.

Option 2: While reading the book on your Kindle highlight the descriptions/text you want to add to the document. Then open your Amazon Highlights page (<https://read.amazon.com/notebook>) and copy/paste from there into the document.

Option 3: Type it in by hand. :(Please don't do this, it will be so much extra work for you! If one of the options above doesn't work for you ask in the discord channel for help.

BOOK LINKS:

Here's the process to follow:

- 1) When adding to the documents please type in the whole phrase/sentence you are pulling from the books to make it easier to fact check later. It's ok if this ends up looking a little messy.
- 2) Before you add to any of the documents please look at the Snow White link first as a reference.
- 3) If you are participating in the project send MyrrhLynn an email at myrrhlynn@gmail.com and include your Discord name. Kitty will have a little download as a thank you for helping.
