

# Divide and Go

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

## Directions:

Spin the spinner and divide by 3.

The quotient is the amount of points you earn.

After each new spin, add your points to your total. Keep track of your points by placing a marker on the correct spot on the hundred chart.

The first player to get exactly 100 points wins.

Example of playing the game:  
Jim spins 27 and divides by 3 so he gets 9 points. He puts his marker on 9.

On his next spin, Jim spins 6 and divides by 3 to get 2 points. He then adds his 2 points to the 9 points he already had. He now has 11 points and moves his marker to 11 on his hundred chart.
