

Red = Not an actual option/button, but something we should be able to do.

[Ideas from sup3p]

Completed: Shows only levels you've completed.

Only Official Songs: Search for only official songs, but no specific song in particular.

Allow Demon with other difficulties: Ability to search demon rated levels and easy *through* insane levels at the same time.

Star Value: Search for a specific star value.

Recommended: Shows levels that have been recommended by players with a recommend button (Based off TDG Zoid's idea)

Unfeatured: Shows levels that have not been featured.

Randomize: Sets random filters.

[Ideas from TGD Zoid]

Non-downloaded: Shows levels you haven't downloaded

Least Downloaded: Search levels that are the least downloaded but recommended by other players (With a "Recommend" button) And levels with more people who recommend it show up higher on the list.
