New Business				<p><u>Westfield CS Mid-Year Reflection Shareback Jan 2026</u></p> <p>This was data gathered at our last district meeting. Westfield reflected that we had strong progress on our current goals. All three goals we had data that showed this progress that was acknowledged by the community. Community did say they would like to see more academic support for students to prepare them better for high school. They also suggested on strengths to build on. Together we looked at what we thought were the best strengths. We then went over the areas of growth. We discussed the need for getting families more involved in their students education. We will probably see these come up on our new needs assessment.</p>
