How much does One Day Academy cost?

Cost of Participating in One Day Academy

Enrollment in One Day Academy involves four distinct categories of expenses, as outlined below for the 2026–2027 academic year:

1. **Annual Family Enrollment Fee** Families pay a one-time annual enrollment fee of $125 to One Day Academy. This fee covers all children in the family and is required only after the family has completed the interview process, been accepted, and received a family number. Payment is not due until acceptance is confirmed.
2. **Course Registration Fee** A registration fee is paid directly to each faculty member for every student enrolled in their class. The amount varies by discipline, faculty member, and geographic region, as it is individually determined by each instructor. All faculty members charge a registration fee.
3. **Curriculum Costs** Families are responsible for purchasing the required curriculum materials for each course in which a student is enrolled. Curriculum requirements differ by class, but every course has specific materials that must be obtained prior to the start of instruction.
4. **Tuition** Tuition is charged for each course in which a student is enrolled and is set individually by the faculty member. Payment is made directly to the instructor and may be arranged in one of the following ways:
    - Full-year payment
    - Semester payment
    - Monthly installments

Monthly tuition is due by the first-class meeting of each month. Payment schedules typically run from August through April or September through May, depending on the region.

1. These fees collectively enable families to participate in One Day Academy's classes and ensure instructors are appropriately compensated for their teaching services. For the most accurate and up-to-date details on specific faculty fees and curriculum requirements, families should consult directly with the instructors of the courses they are considering.
