

Title of Article (maximum 14 words)

First Author's Name^{1*}, Second Author's Name¹, Third Author's Name¹

¹ Author institution with no titles (11Pt)

* Corresponding author: Name (name@email.com)

Abstract

Describe an abstract in one concise and clear way, with no more than 200 words. The abstract should not include an introduction or conclusion of the article; instead, it is encouraged to include several key points: 1) Main questions and context of the discussion; 2) Role of the study; 3) Results of the data; 4) How the article discussed; and 5) Main findings. It is still possible to convey the things that are significant and contribute to the research as long as the words do not exceed the number as mentioned beforehand. It is also highly necessary to avoid the footnotes, references, and subtitles. The more concise the abstract is, the better assessment it will be. (150 – 200 words)

Keywords

Mention 4 (four) specific words or phrases about the research variables, use capital letters at the beginning of each word, separated by commas, and sorted alphabetically. Keywords are designed to facilitate the retrieval of articles by search engines, so it is not recommended to use general terms. This will be useful for indexing purposes.
