

✓ Reddit – \$30 Scrambly Method

How It Works:

Note: By default, Scrambly will show you the amount of money you have in "coins." Just so you know, 1,000 coins is equal to \$1.00.

There are two special bonuses given to you when you sign up with my link:

1. **\$5 bonus for making \$5.**
2. **\$25 bonus for your first cashout (must verify with ID to cashout).**

You only need **\$1** to do your first cashout.

After your first cashout, **\$25** will be credited to your account.

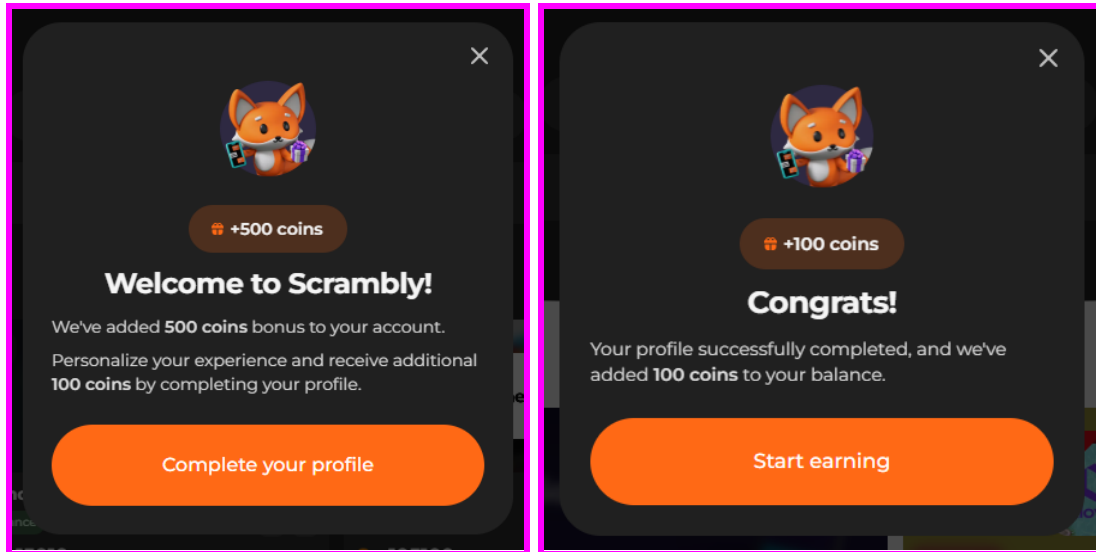

This counts as earning **\$5**, so you'll also be credited an extra **\$5**.

This leaves you with **\$30** total, which you can cash out instantly!

Steps:

1. Signup

1. Sign up to Scrambly with this link: <https://go.scrambly.io/BhmRZ7>
(All other steps won't work if you don't use this link!) **SIGN UP WITH GOOGLE!!**
2. **After Signup go through the link again to confirm eligibility for the bonus**
3. After creating your account, you should see a prompt saying that a **\$0.50** signup bonus has been added and that you should complete your profile.
4. Make sure to complete your profile for the extra **\$0.10** bonus so it takes less time for you to cash out.

2. Make The Remaining \$0.40

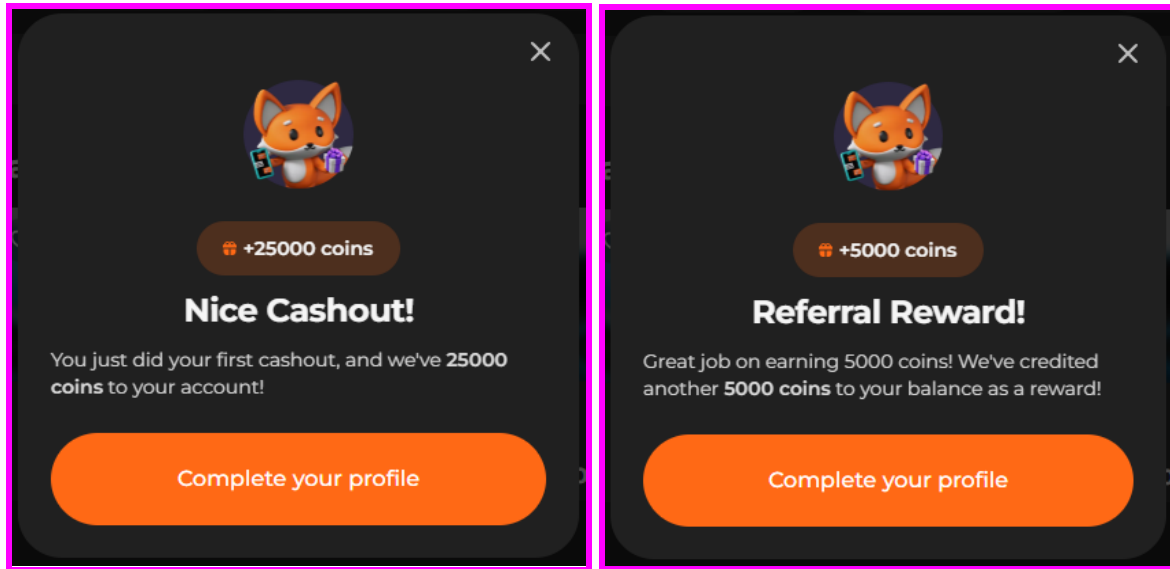

At this point, your account should have **\$0.60 (600 coins)**.

1. Go to **Bonus** → **Redeem** and enter the code “**MYCHIPS**” to get a **25%** boost.
2. Head back to **Discover** and pick a game. You'll only need a few minutes to earn the remaining **\$0.40**.
3. Once your balance hits **\$1**, you can cash out!

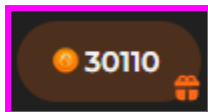

3. Cashing Out

Finally, once you have at least **\$1** in your account, you can cash out.

1. Go to Withdraw and pick an option to cash out (make sure you complete ID verification first). It doesn't really matter which option you choose since you're only cashing out **\$1**, what really matters is the **\$30** bonus.
2. After cashing out, you should see a prompt saying that **25000** coins (**\$25**) have been added to your account, shortly after, you should see another prompt saying that **5000** (**\$5**) coins have been added to your account.

Now, your balance should look something like this:

Finally, you can cash out your **\$30** instantly. Enjoy!
