

The Write Stuff
HW1: Wordpool Poem

Directions:

1. Add to the wordpool we started in class (I will post our class list on the blog) and type or neatly write:

- 5 found words (from an overheard phrase, a bumper sticker, a t-shirt slogan, etc.)
- 5 words you love
- 5 words that make a sound
- 5 words from another language

2. Use at least 10 of the words from your word pool, as well as any from the class wordpoot, to create a poem. Experiment with combining words in new ways, try to forget “rules” and at the same time write a poem that makes sense. This poem must be typed and approximately 10 lines long, single-spaced. Give it a title. No rhyming for this poem. Focus on unique word combinations and imagery.

Staple your wordpool to your poem.
