

# Your Social Media Posts Are Here!

DOWNLOAD BELOW!

## These are the instructions to upload your own logo:

**STEP 1:** [Canva](#) is a program you can use to upload your logo, so create your account! (Yes it is free!) (Go to [Canva.com](#))

**STEP 2:** Access the social media posts in Canva by clicking on the [link provided](#).

**STEP 3:** On each social media post, select and delete “YOUR LOGO HERE” by hitting the backspace button. You will have to scroll down to see the posts.

**STEP 4:** On the left hand side of the window, click ‘upload’ and upload your own logo as a .png file.

**STEP 5:** Drag your logo to the logo placement area on each post.

**STEP 6:** Download each post as a **.png file** by clicking on ‘Download’ at the top right corner of the window and selecting Page 1. Hit download. Then, select Page 2 and hit download again, so on and so forth. If you download all pages at the same time, it will download as a .zip file which you will have to extract. By selecting each page separately, it prevents you from having to do the extraction process.

**We hope you find these social media posts helpful!**
