Thank you for choosing to register your dog for an evaluation with Canine Conversations LLC dog training.

At Canine Conversations we find it very important to conduct an initial behavioral evaluation in order to properly assess the training & behavioral modification needs of each dog. This initial in-home consultation costs \$100 & is prepaid to hold an appointment spot. The evaluation appointment lasts 1 hour, during which a certified trainer observes the dog(s) & examines the home/training environment.

We do require that all dogs that we work with are up to date on all required vaccines. (Distemper, Parvovirus, Rabies, Adenovirus [hepatitis], Parainfluenza) Please provide accurate veterinarian information in the registration form so we can contact your vet & verify vaccines prior to evaluations & training.

Once you agree to the training plan that we provide following the evaluation, the \$100 evaluation fee will be credited back to you & reduce the overall training cost.
