

Hello! In an effort to highlight all that you do as agriculture students, we'd like for you to showcase experiences related to your Agriculture class such as

- Current SAE projects
- CDE team skills or activities
- Work with an employer
- Demonstration of skills or aspects learned in class
- Exploration of a business in our local area that applies to your class

This is an opportunity to show all of your skills and just how important you are to the country's infrastructure. Let's help educate as well!

1. Use the following website to choose an AFNR standard from the pathways below that you would like to highlight in your video: [Link to Standards](#)

***Tip: Hover over the question marks under each objective to see example activities.**

- a. Students with current SAE's can use skills that are in your plan under the learning objectives.
 - b. The standard should relate to a specific skill you have learned or would like to learn more about within your class or career interest area.
2. In a 30-60 second video, show what you do and explain what you are doing related to your chosen standard. (Show what you've learned, show a skill for someone else to use, demonstrate something cool to teach younger students.) ***See below for smartphone recording tutorials.

ALL STUDENTS COULD:

- Use an app of your choice (either on your smartphone or laptop), to splice together information you find on different local businesses in your area of interest. Include the following along with the standard you have chosen:

<ul style="list-style-type: none"> • logos • company data • number of employees 	<ul style="list-style-type: none"> • skills needed to get a job with said company • services provided • website
--	--

- Film yourself learning a specific task that goes along with your class or career interest that follows the AFNR standard you have chosen:
 - Explain the key aspects of doing the skill correctly
 - Explain how learning the skill benefits you in your project or CDE
 - Explain how the skill might be used in a future career

STUDENTS WHO HAVE A CURRENT SAE OR ARE INVOLVED IN A CDE COULD :

Film yourself doing a task or demonstrating a skill from your SAE or CDE

- Mention or include a picture of the AFNR standard from above
- Explain the key aspects of doing the skill correctly
- Explain how learning the skill benefits you in your project or CDE
- Explain how the skill might be used in a future career

LINKS TO EXAMPLE VIDEOS:

[Mr. Fellenbaum RS Hollinger \(business video\)](#)

[Mr. Fellenbaum Carb Rebuild](#)

[Mrs. C's Daffodil's Harvest Video](#)

[Mr. Hess Variable Rate Nutrients Rx Video](#)

[Ms. Slates Starting Your Own Home Garden](#)

3. Then upload the video [here](#). **Don't forget to hit submit!**

***You are free to upload as many videos as you'd like. We will be choosing videos from all different aspects of agriculture education to share with the public. This is your time to shine and truly show what you are learning and prove just how important agriculture is to our community.

PRIZES offered to all who submit 1 video!

THREE people will earn a top prize for most videos submitted!
