

6-20-2023 at 6:00 PM located at Maine Craft Distilling 123 Washington Ave, Portland ME

Portland Maine Professional Chapter

General Body Meeting

Summary

This week's meeting will have a presentation by a local KidWind Challenge Team based out of Portland High School. KidWind is a non-profit org that plans events that provide hands-on design celebration that engages students through the lens of wind and solar energy. Student teams design, construct, and test small scale wind turbines and solar structures at events all over the world. The "West End Whales" Team was recently supported by EWB-PMP members to travel to Boulder, Colorado to compete in the National Competition. Listen to hear more about their recent competition, and some of the fascinating designs they have completed thus far! [See the linked website for information on KidWind!](#)
