

Witch's Stockings

nDsw or DswDsw

- Please refer to the main [Double Socks](#) Journal for basic info!
- Witch's Stockings is a mutation modifier of Double Socks, so Double Socks has to be genetically passed and present in order for Witch's Stockings to occur.
- It behaves the same way as Double Socks in the way of how it dilutes and which genes it appears under and over.
- It occurs in bands of black and white on the legs, still not extending onto the main body.
- The white and black bands are always soft shaded!
