

MY VACATION VISION

LOOKING BACKWARDS

What was your favorite vacation of all time? Why?

Reflecting on all the various vacations you've been on, describe how you spent your top five favorite **days** (you do not need to stress about putting them in any order!). Be honest with yourself here. Everyone's favorite way to spend time varies wildly. Some of us like to visit historic monuments (not me!) while others like to lounge by the pool. The more honest you can be about what matters to you, the more likely you will be able to set yourself up for happiness.

Location	Description of Day: How did you spend your time? What did you like about it?

STOP HERE. If you need to consider the thoughts/feelings/preferences of a travel partner, now is the time to ask them the questions above!

LOOKING AHEAD

How many vacations do you want to go on this year? For how long? Approximately when?

Based on your past experience, what seems important to you to include in your vacations?

What other specifics are important? Weather? Wi-fi? Beach/pool/hot tub? Stars at night? Museums? King-sized bed? Top tier restaurants? Walkability? Be specific!

Share your responses with your Vacation Coach and schedule time with her to get your vacations planned!
