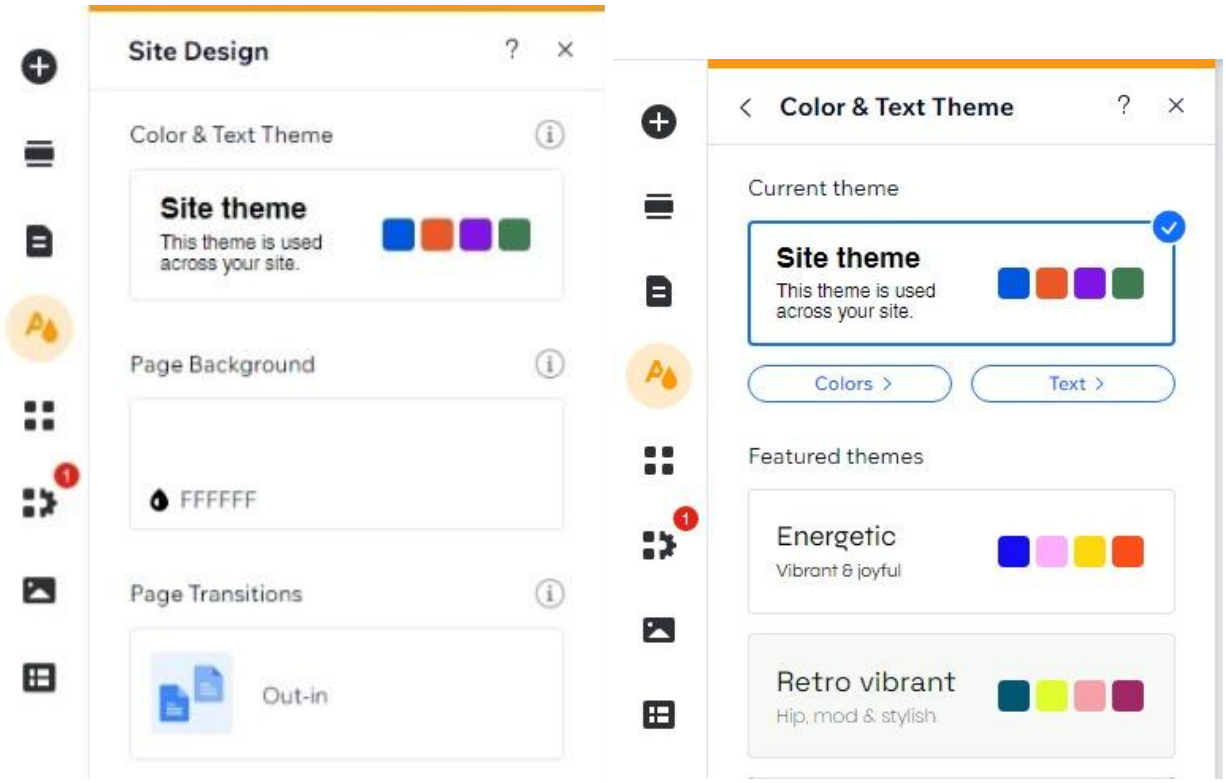
Using themes in Wix

This tutorial will walk through how to edit both the color theme and the text theme in Wix. Using a theme helps keep things consistent within your site.

Getting to “Color & Text Theme”

The “Site Design” option is located on the left menu towards the top. Click on the capital A with a paintdrop to open it. Then select “Site theme”



Old Dominion University is an equal opportunity, affirmative action institution.

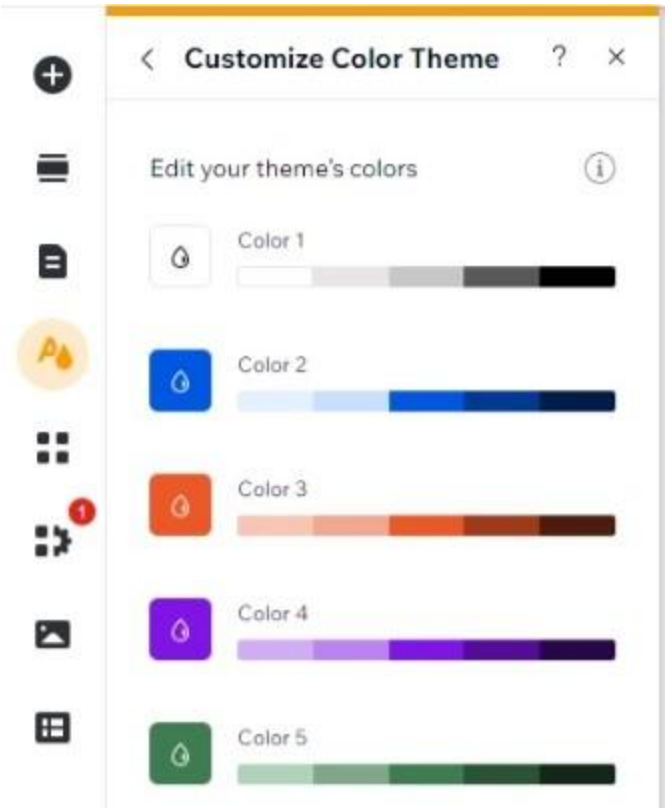
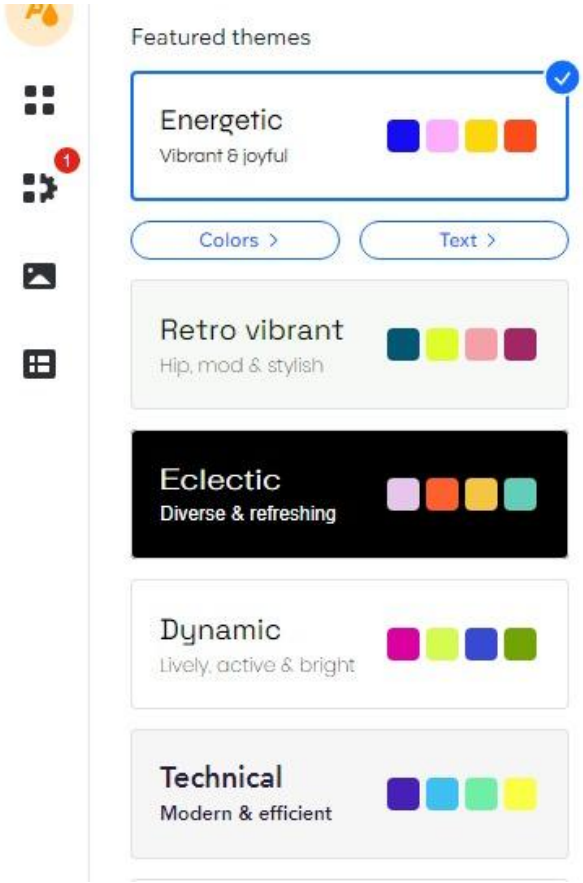
Working with color theme

You can adjust single colors and shades within a color theme. Click on the paintdrop to edit the color, and click on the rectangles to adjust each shade.



To change the entire theme, go back to “Site theme” and then go down to “Featured themes”

Old Dominion University is an equal opportunity, affirmative action institution.

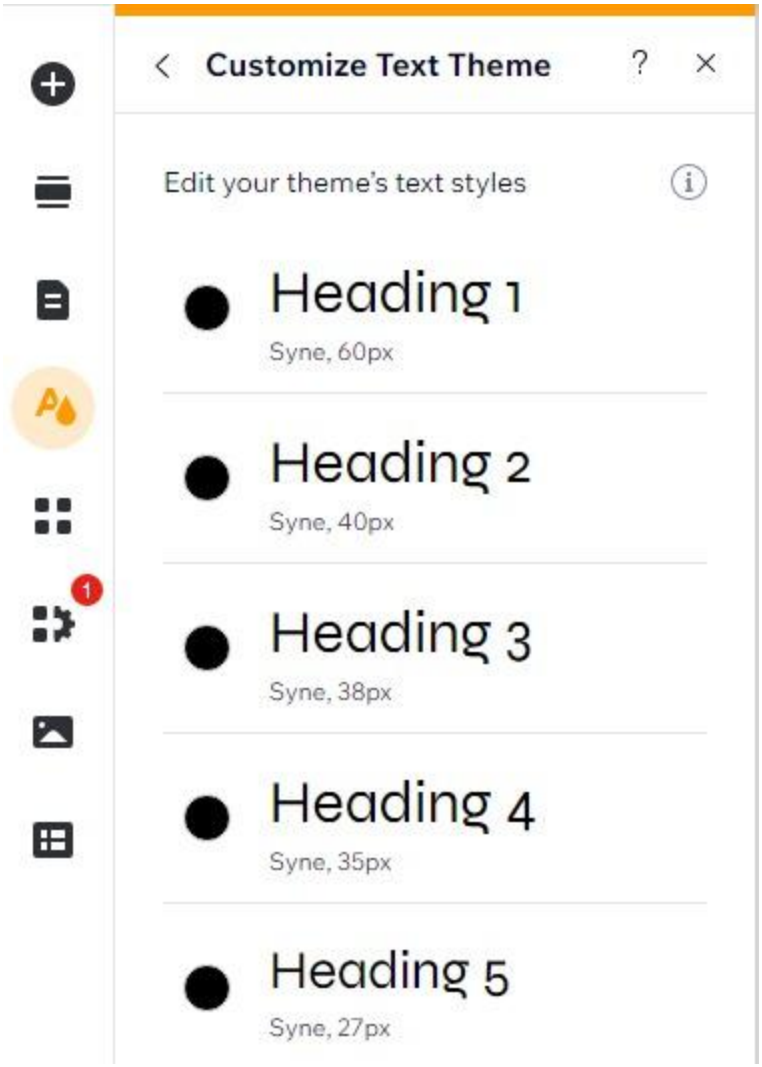


You can click on the featured themes to activate them.

Working with text theme

Click on Text (located next to Colors). You can change anything from Heading 1 through Paragraph 3.

Old Dominion University is an equal opportunity, affirmative action institution.



Old Dominion University is an equal opportunity, affirmative action institution.
