Eversolo Streamers 24-hour Time Format Setting Tutorial

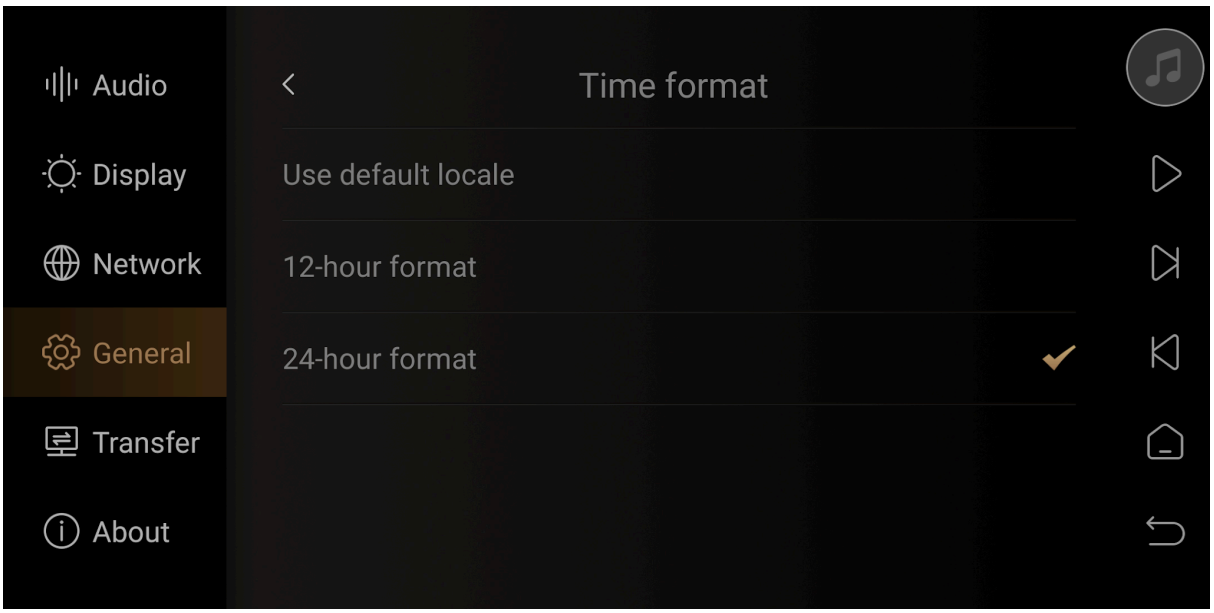

This tutorial applies to all **DMP Streamer Series**, here we use DMP-A6 as an example.

1. Go “Settings”- “General”- ”Time” from the home page of DMP-A6.

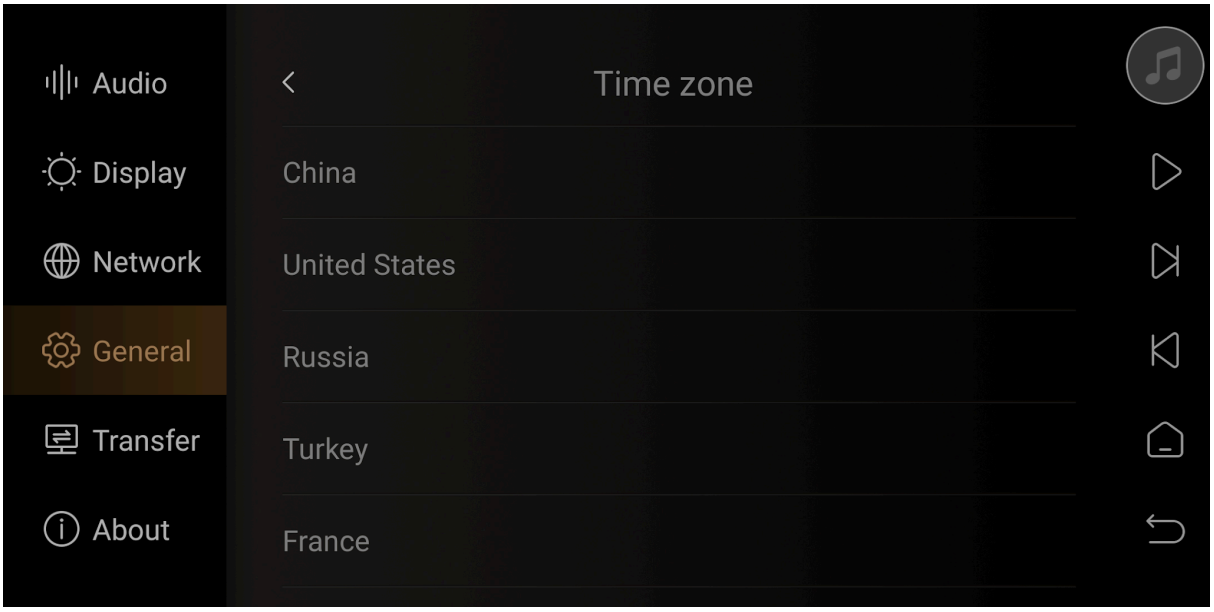

Set the option to “24-hour”format in “Time format”menu.

Time zone sub-options can be set as certain country's time zone.

Set up is complete, return to the home page. The time has been switched to the 24-hour format.
