

Digital Curriculum Educator Survey Results

Review of Respondent Data on Use of Technology to Support Instruction

Prepared by:

Navigation North

November 21, 2018

Prepared For:

California Historical Society

Teaching California Website Project

Total Survey Respondents: 344

Typical Respondent: Middle to Secondary Educator with Specialization in History-Social Sciences

Executive Summary

Mostly Veteran, Secondary Teachers

Over 50% of Respondents are long-time instructors (+57% = +15 years experience), teaching in single-subject assignments at public middle / high schools (+78%).

Personal Use of Tech. Outpaces Professional:

Teachers adoption of technology in their personal lives does not necessarily transfer over into equally pronounced use in their professional processes.

Most Believe in the Instructional Value of Teacher Technology Use:

Over 80% of respondents claim that technology as an instructional planning, delivery and differentiation tool translates to High or Considerably High Instructional Value.

Over 95% claim technology can/does help them provide more diverse learning materials and in turn diversify their teaching for improved outcomes.

Little Professional Support and Coordination:

Most teachers (+88%) work in schools where there is little/no - informal planning and sharing on effective use of technology in the classroom. And most (+77%) say they are expected to learn new technologies on their own outside of school hours.

Student Use of the Internet Provides Motivation and Work Benefits, yet also Requires More Work for the Teacher:

Overall, respondents cited higher levels of motivation, collaboration, and student work products when using the Internet.

While more teachers feel these benefits are also coupled with more teacher work to monitor for plagiarism and use of unreliable sources, +73% feel that student access to the Internet does NOT result in increased discipline issues.

Teachers Use of Digital Curriculum / Resources Is Starting to Pace with Use of Traditional Materials:

Over 80% of educators cite that over half or more of their curricular resources used in the classroom comes from online sources. +92% say they'd adopt a coherent, sequenced online curriculum equally with that of their regular curriculum if given the option.

Teachers Regularly Turn to the Internet for Curriculum

+79% search for online curricular resources several times a week or more for their classrooms.

Teachers Are Looking for A Variety of Curricular Resources and Like to Use Search Terms:

From worksheets to assessments to lesson plans to primary sources to media, teachers are looking for everything, but use open search terms far more than standards, frameworks, or topic lists.

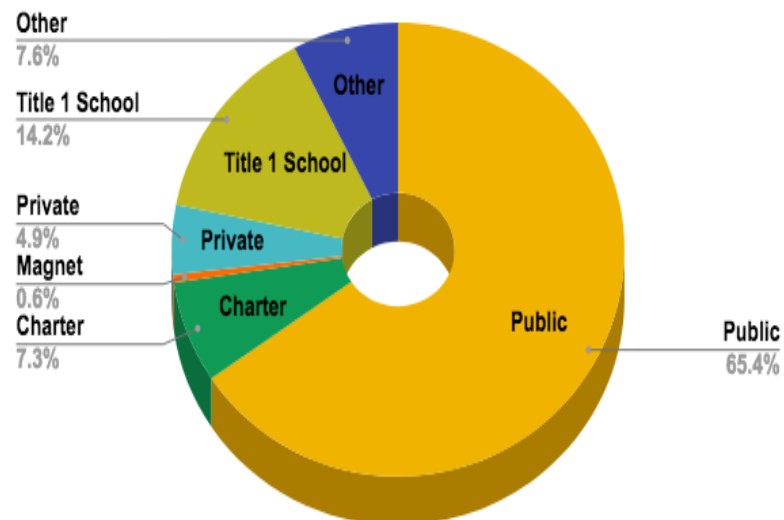

Executive Summary	2
Background Information Section	4
Chart 1: School Type	4
Chart 2: Years Teaching	4
Chart 3: Grade levels taught	5
General Technology Use In Education Section	6
Chart 1: PERSONAL vs PROFESSIONAL adoption of technology	6
Chart 3: Teachers learning new applications	7
Chart 4: Teachers Search and curate digital resources - instructional value	7
Chart 5: Guide for Students Using Internet	8
Chart 6: Planning / Setting up devices	8
Chart 7: Technology to differentiate instruction	9
Chart 8: Sharing common strategies	10
Attitudes and Behaviors on Digital Curriculum Resources Section	11
Chart 1: When using the Internet with students, I've noticed:	11
Chart 2: As an educator, I've noticed:	12
Chart 3: Strongly Agree, Agree, Disagree or Strongly Disagree:	13
Chart 3a: Regular use of teaching materials:	13
Chart 3b: Accentuate traditional materials	13
Chart 3c: Online sources or digital material	14
Chart 3d: Sourced from online sites and systems	14
Chart 3e: Readily adopt digital materials	15
Searching for Digital Curriculum Materials and Resources Section	16
Chart 1: Online resource search	16
Chart 2: Digital curriculum types	17
Chart 3: Digital curriculum types	18

Open Response Section

Background Information Section**Chart 1: School Type**

At what type of school do you teach?

**Chart 2: Years Teaching**

How many years have you been teaching?

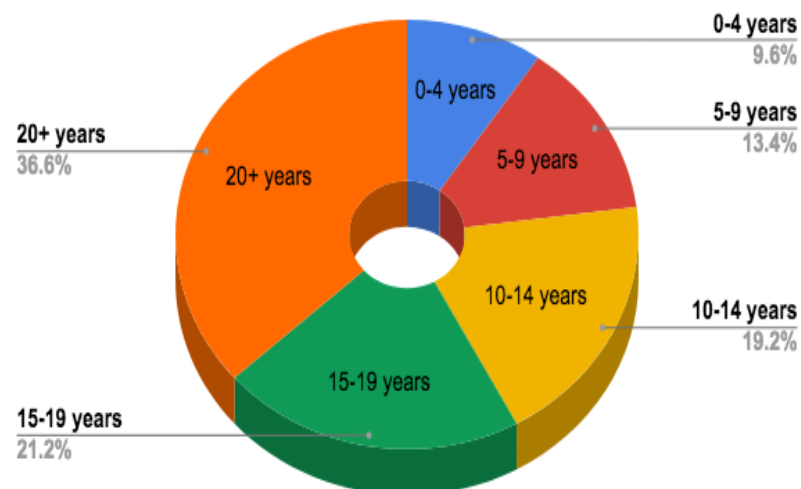

Chart 3: Grade levels taught

Which of the following grades do you primarily teach?

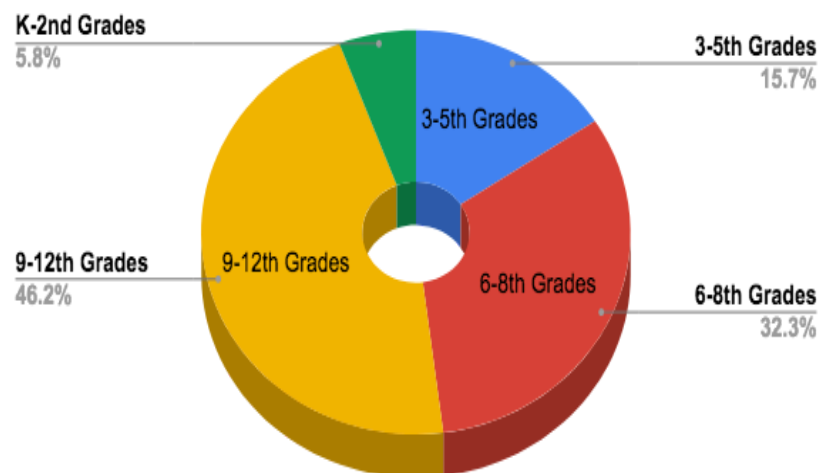

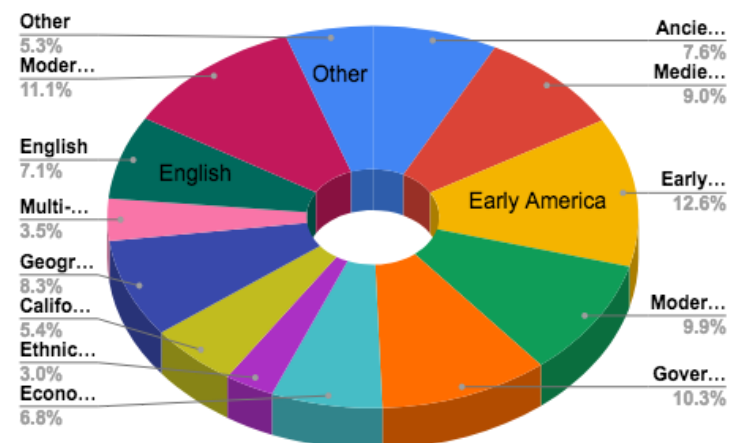

Chart 4: Subjects Taught

Which subjects do you teach?

Subject	%	Subject	%
Ancient World History	7.6%	California History	5.4%
Medieval World History	9.0%	Geography	8.3%
Modern World History	11.1%	Multi-subject Elementary	3.5%
Government	10.3%	English	7.1%
Economics	6.8%	Other	5.3%
Ethnic Studies	3.0%		

General Technology Use In Education Section

Chart 1: PERSONAL vs PROFESSIONAL adoption of technology

Select the level of **PERSONAL** Adoption of Technology that best describes you.

Select the level of **PROFESSIONAL** Adoption of Technology that best describes you

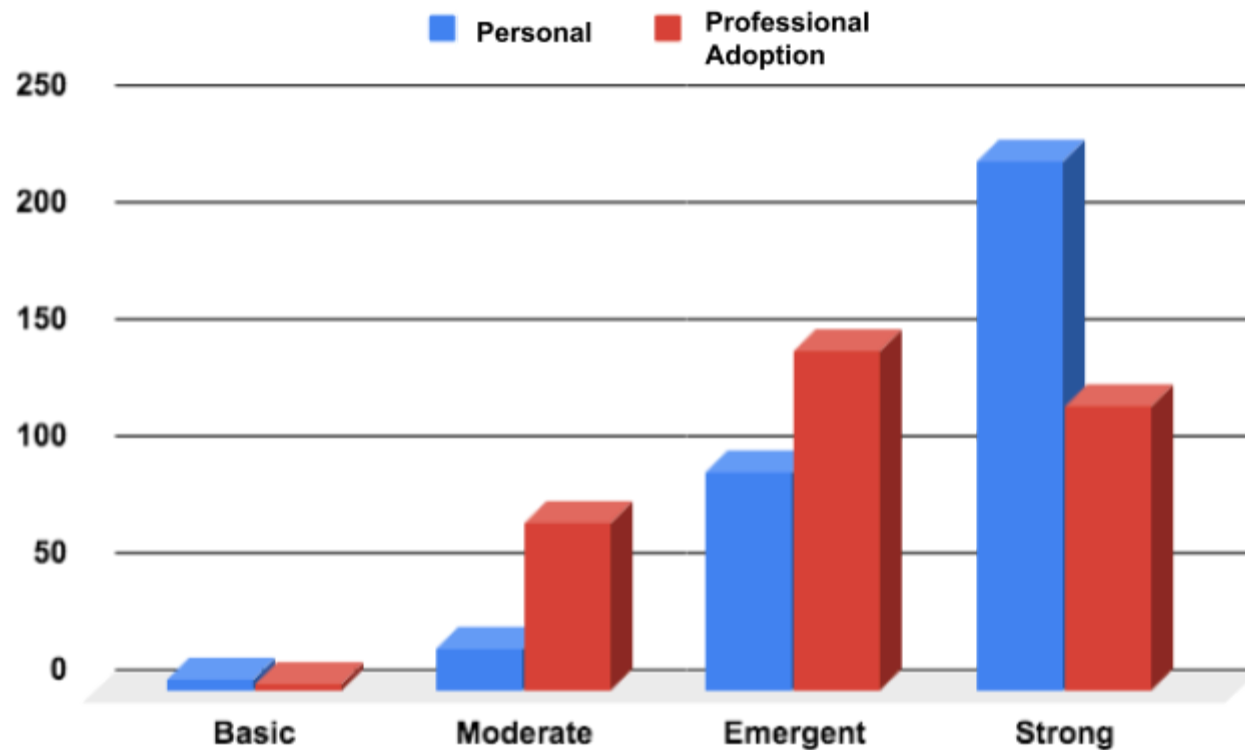

Chart 3: Teachers learning new applications

Teachers learn how to use a new application (software or online program) for grading or student performance data collection. I rate the instructional value of these types of systems as:

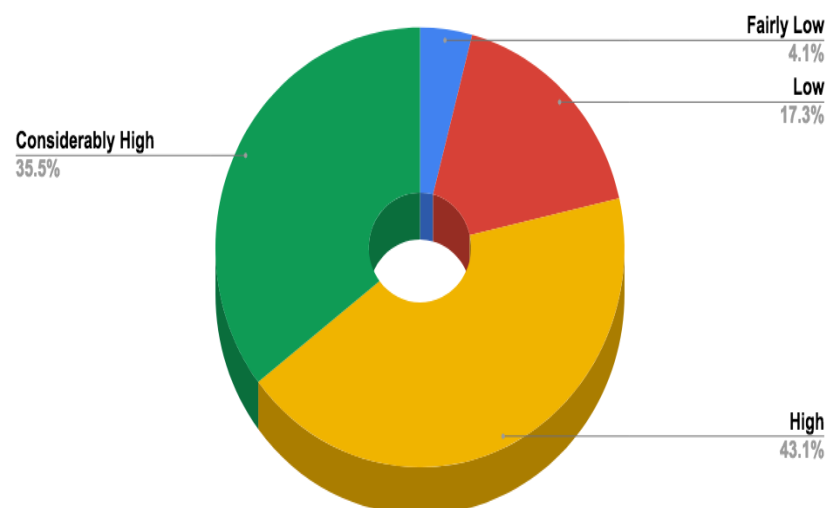

Chart 4: Teachers Search and curate digital resources - instructional value

Teachers search for and curate technology-based or digital resources for direct use with students as part of a presentation on a concept, idea, event, or skill. I rate the Instructional value of this skill as:

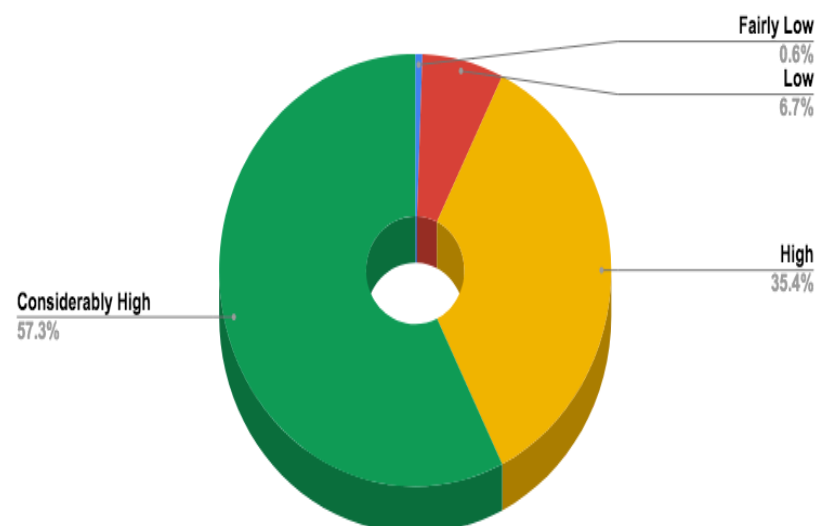

Chart 5: Guide for Students Using Internet

Teachers act as a guide for students who are using the Internet for finding information and engaging resources to aid or extend their learning. I rate the Instructional value of this skill as:

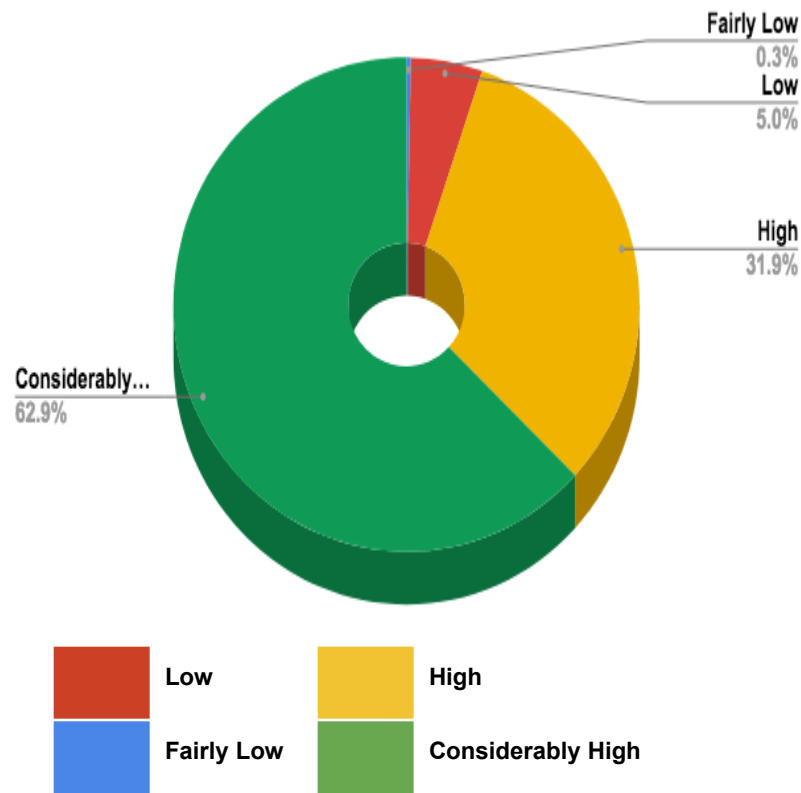

Chart 6: Planning / Setting up devices

A teacher is adept at planning for or setting up the use of devices (laptop cart, smart ph.s, tablets, etc.) as part of an activity or assignment or assessment. I rate the Instructional value of this skill as:

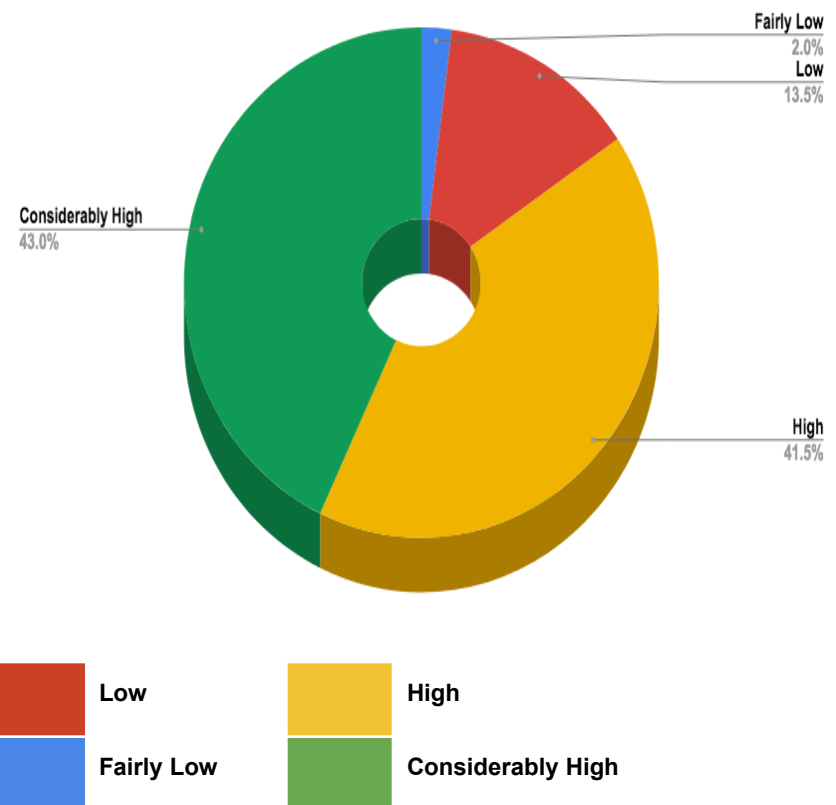

Chart 7: Technology to differentiate instruction

Some teachers use technology to differentiate instruction to provide students individual choice on materials they can use or ways students can demonstrate their proficiency. I rate the Instructional value of this skill as:

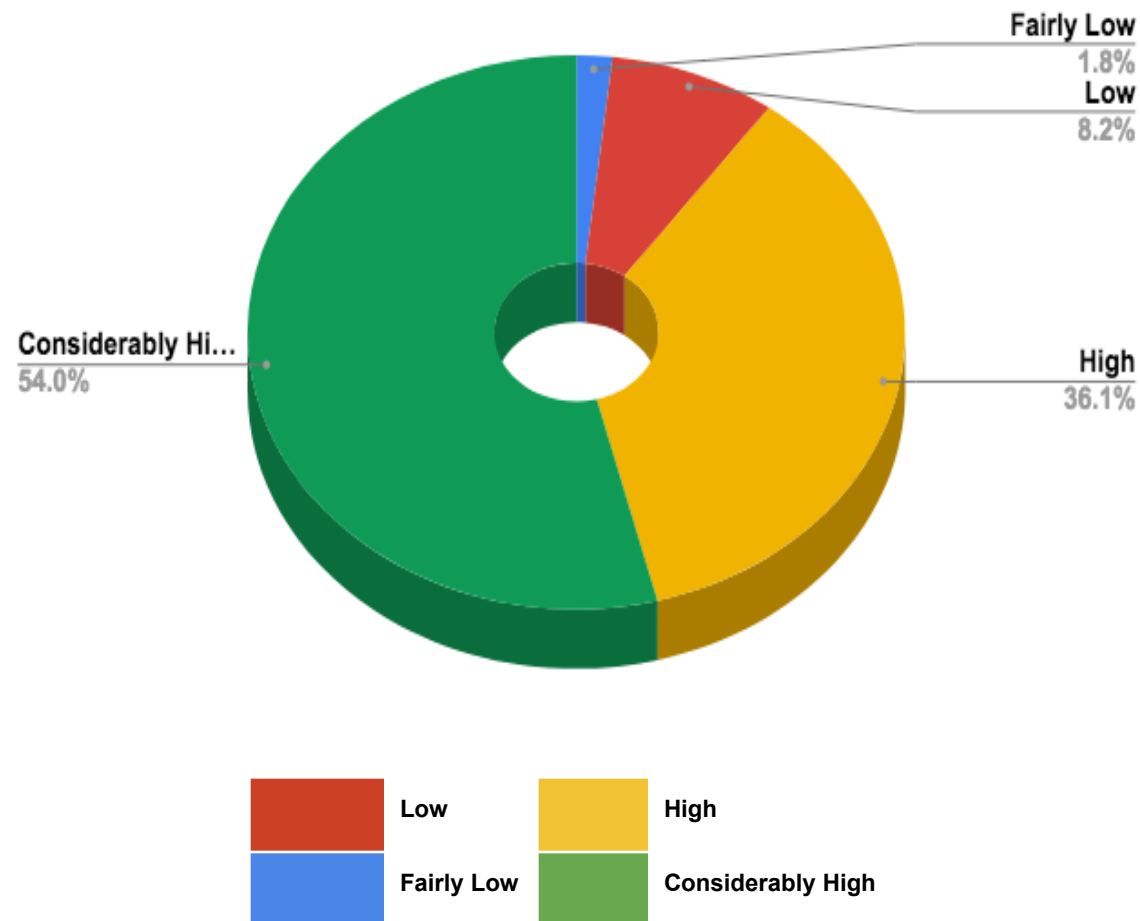

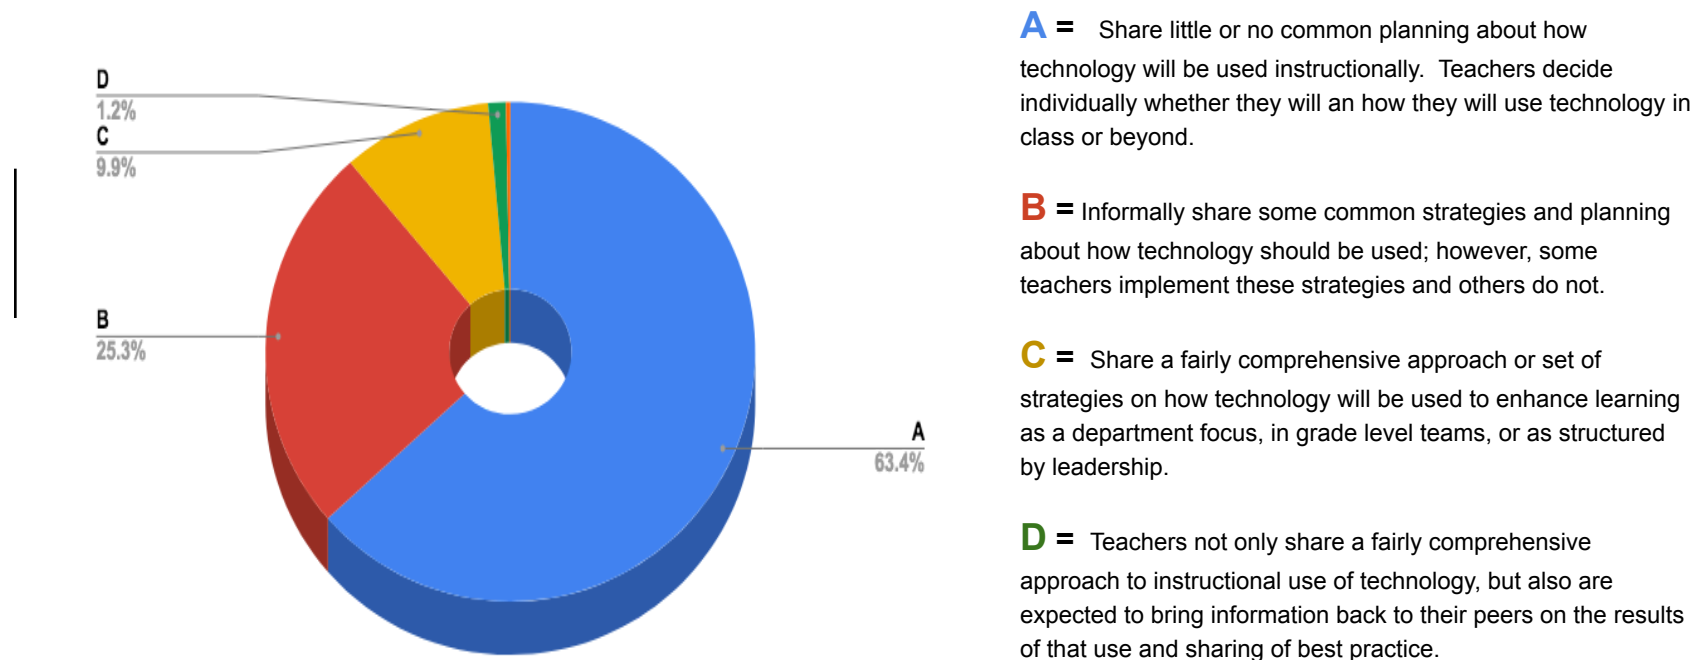

Chart 8: Sharing common strategies

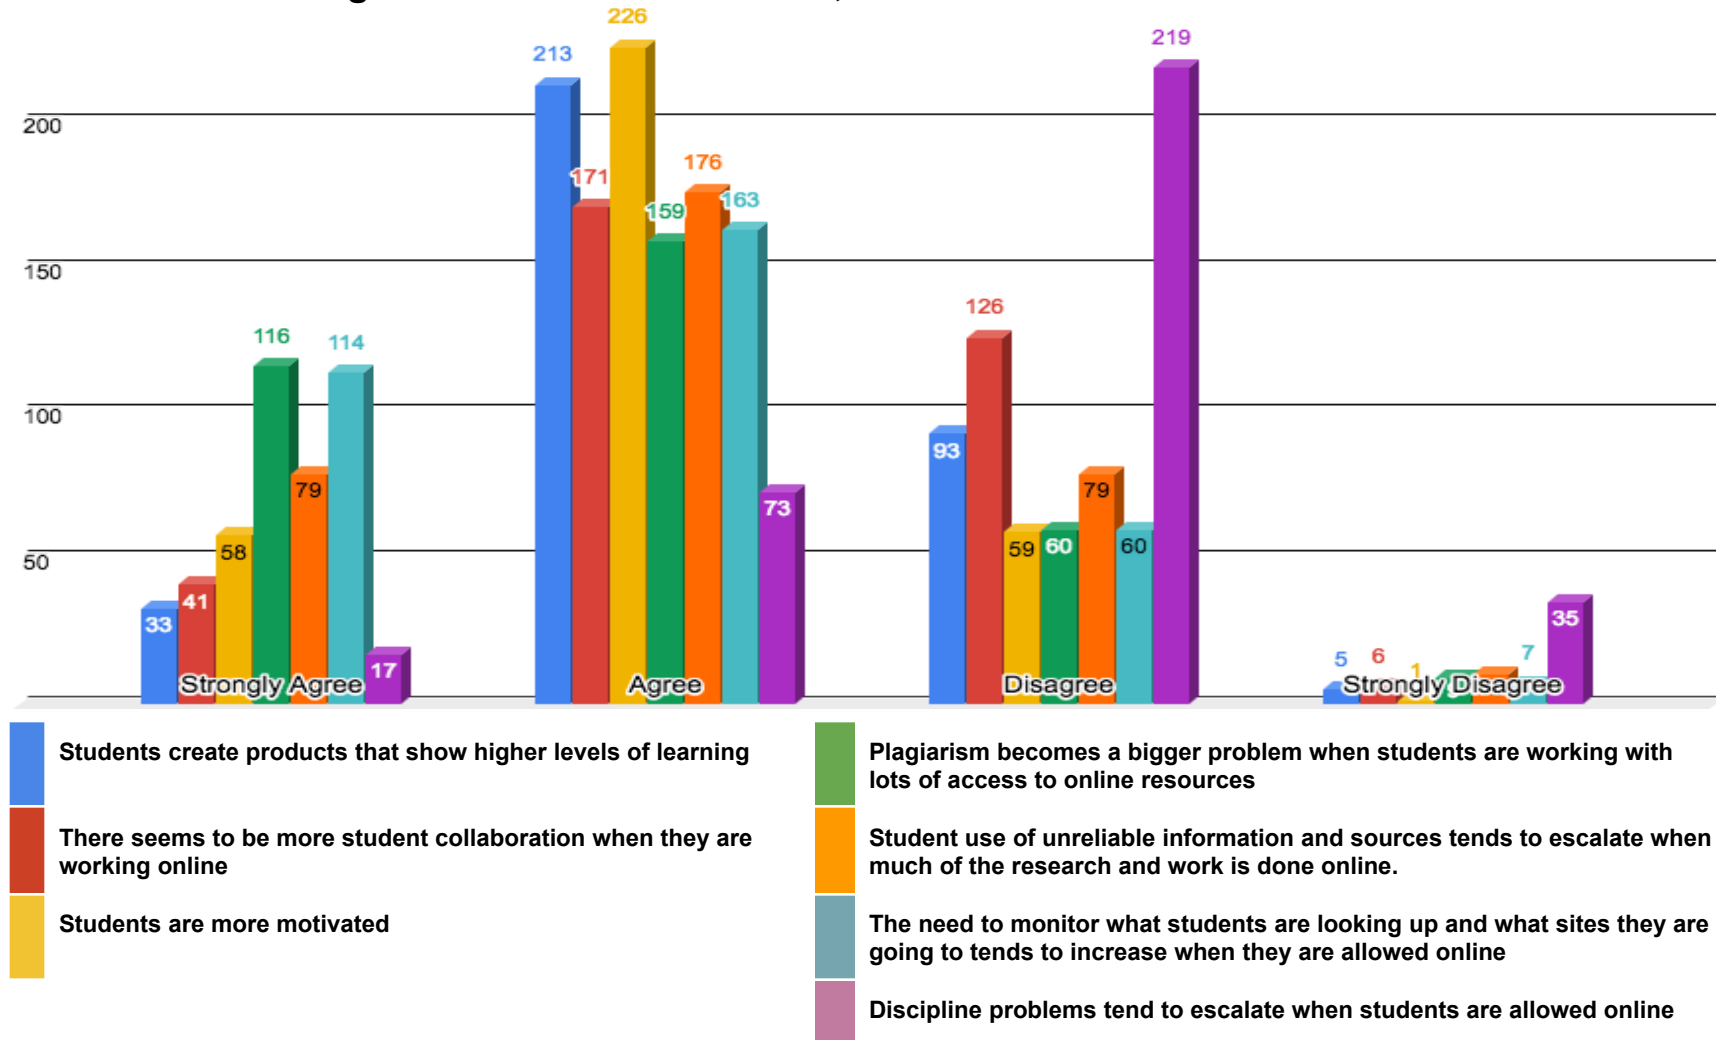

In my school, teachers in the same grade and/or subject-area (select the one choice that is closest to your school site or agency):

Attitudes and Behaviors on Digital Curriculum Resources Section

Chart 1: When using the Internet with students, I've noticed:

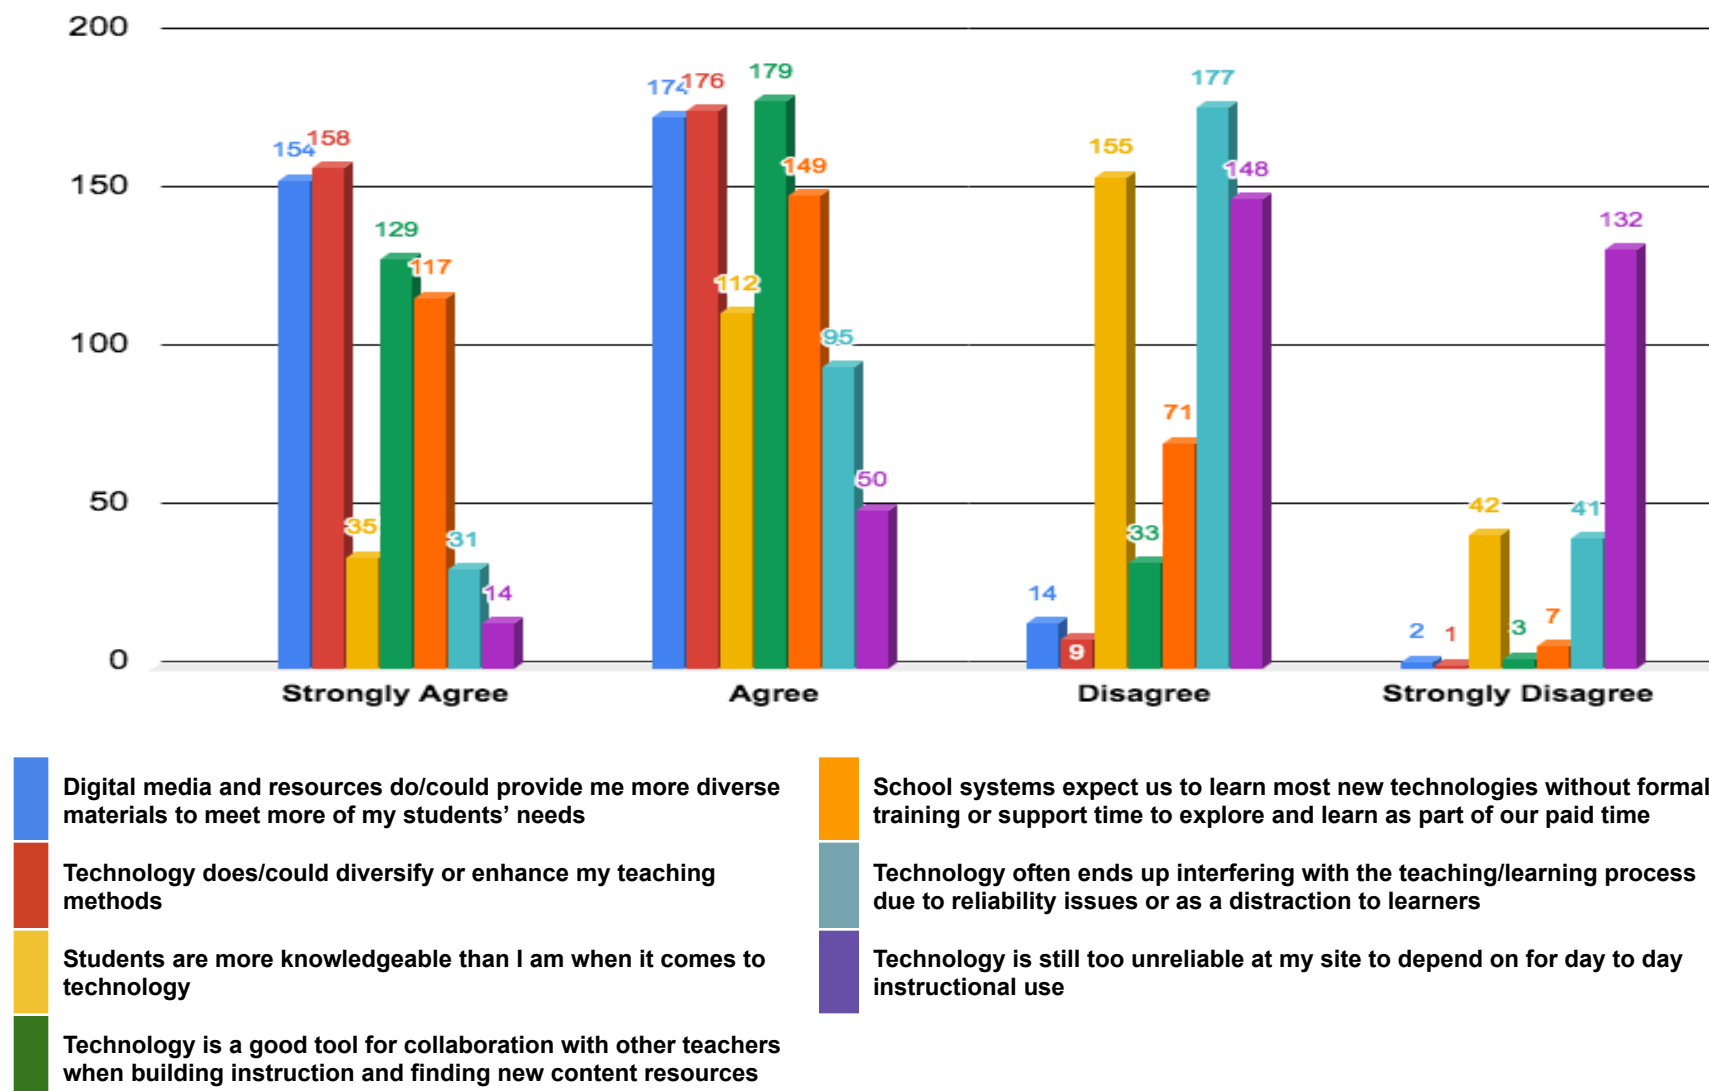

**Chart 2: As an educator, I've noticed:**

Chart 3: Strongly Agree, Agree, Disagree or Strongly Disagree:

Chart 3a: Regular use of teaching materials:

I still find and regularly use most of my teaching content and materials through sources at my school site such as textbooks, peers, library, and materials I've gathered over time.

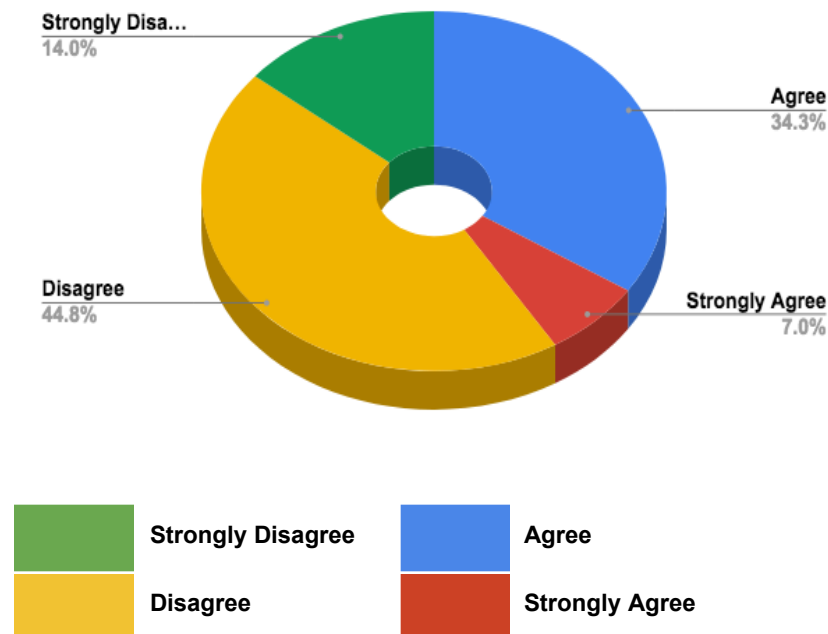

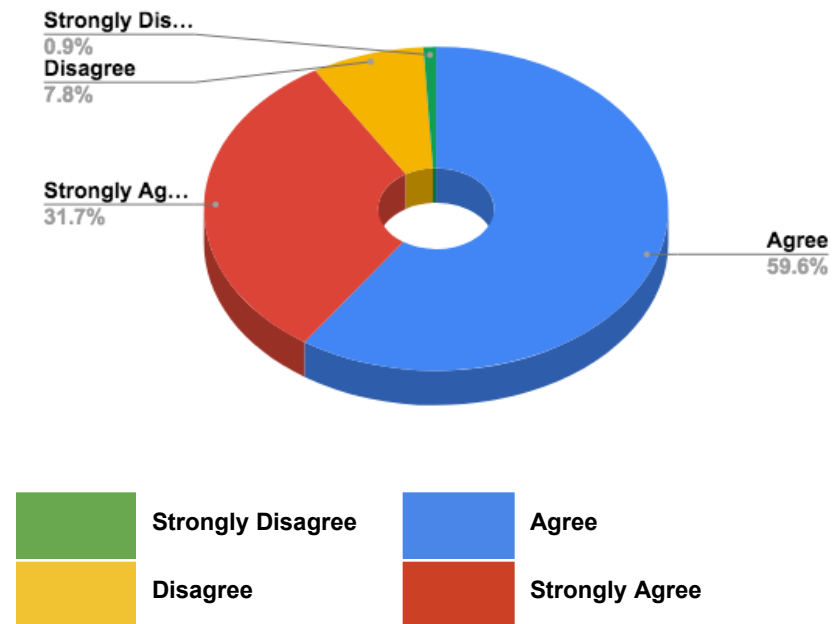

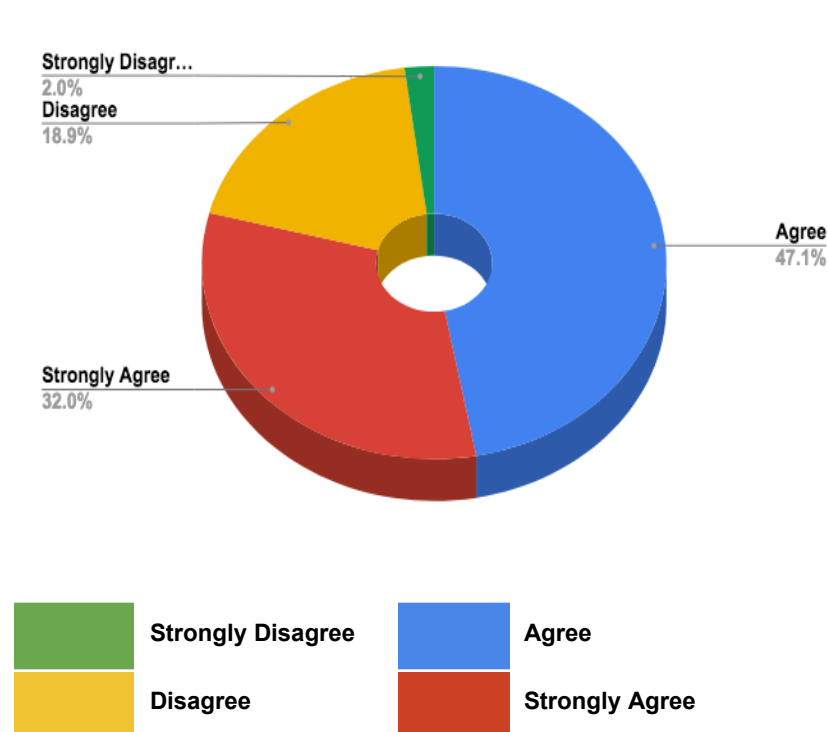

Chart 3b: Accentuate traditional materials

I have begun to accentuate much of my "on site" traditional materials with more content and curriculum resources I've found online.

**Chart 3c: Online sources or digital material**

A significant percentage, maybe almost half or more, of my content and curriculum resources comes from online sources or digital materials.

**Chart 3d: Sourced from online sites and systems**

Much of my content and curricular resources are sourced from online sites and systems. While I still use traditional materials when they fit my need, they are often blended with digital resources as part of my daily instruction.

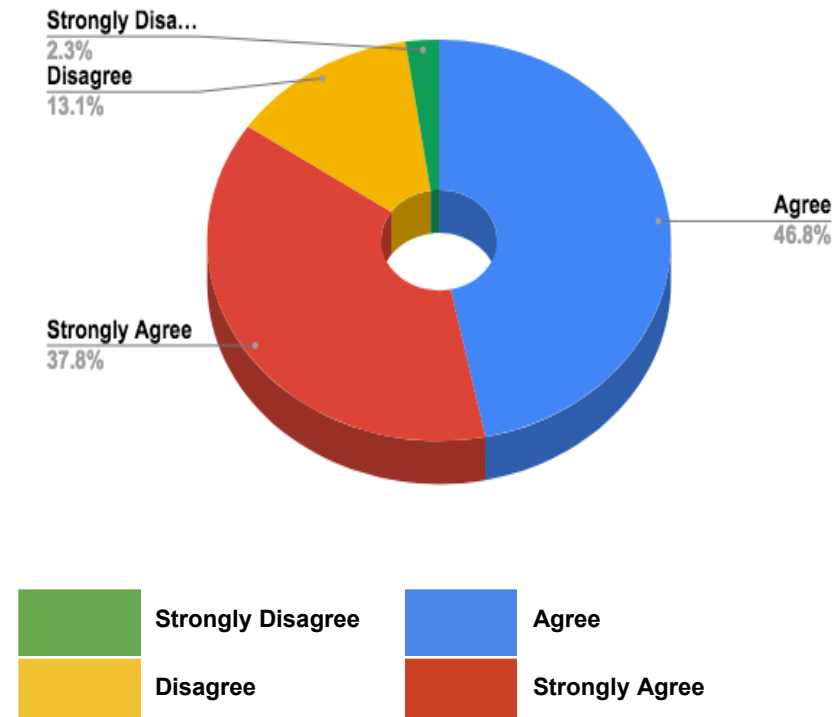

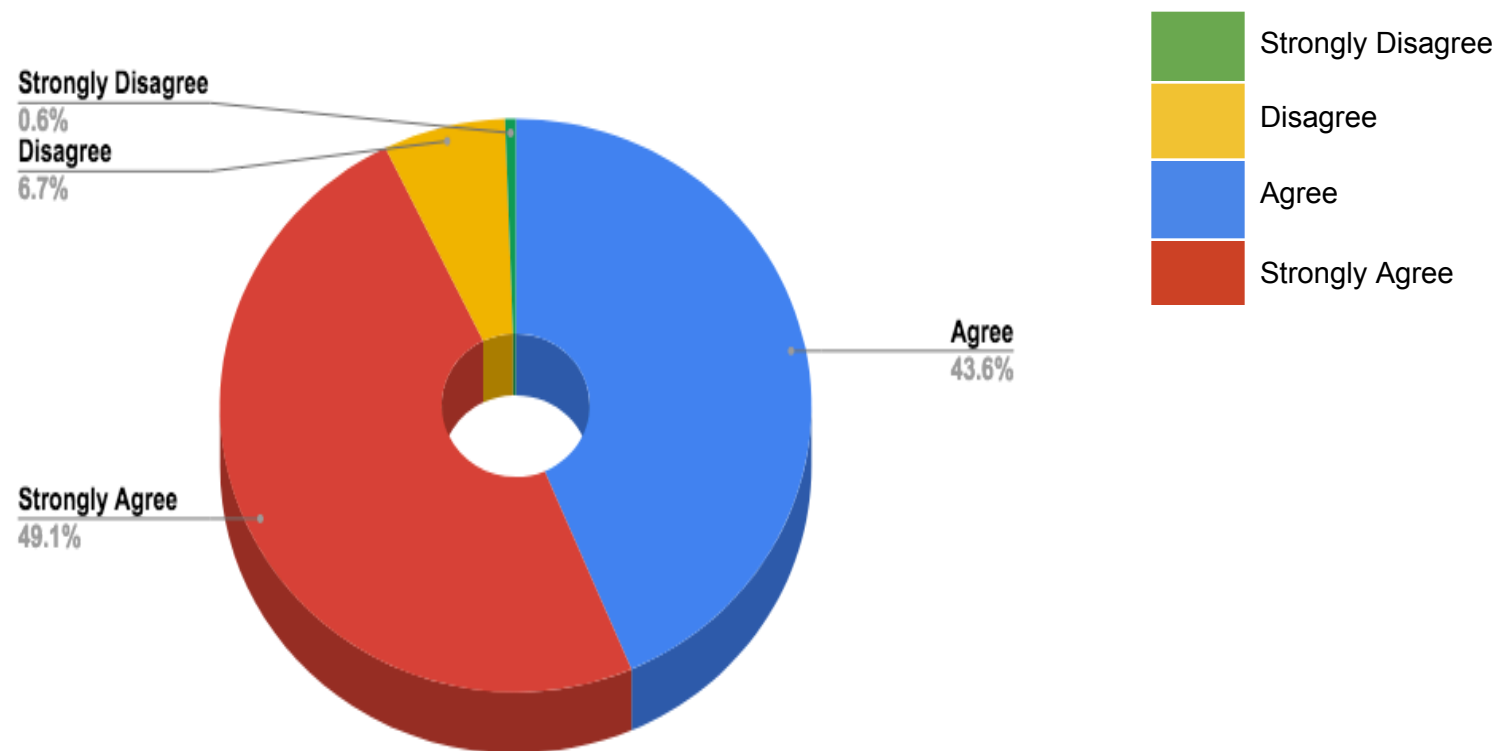

Chart 3e: Readily adopt digital materials

If there were high-quality, coherently sequenced, comprehensive content online for me to use, I would readily adopt those equally with my traditional resources.

Searching for Digital Curriculum Materials and Resources Section

Chart 1: Online resource search

How often do you search online for curriculum resources?

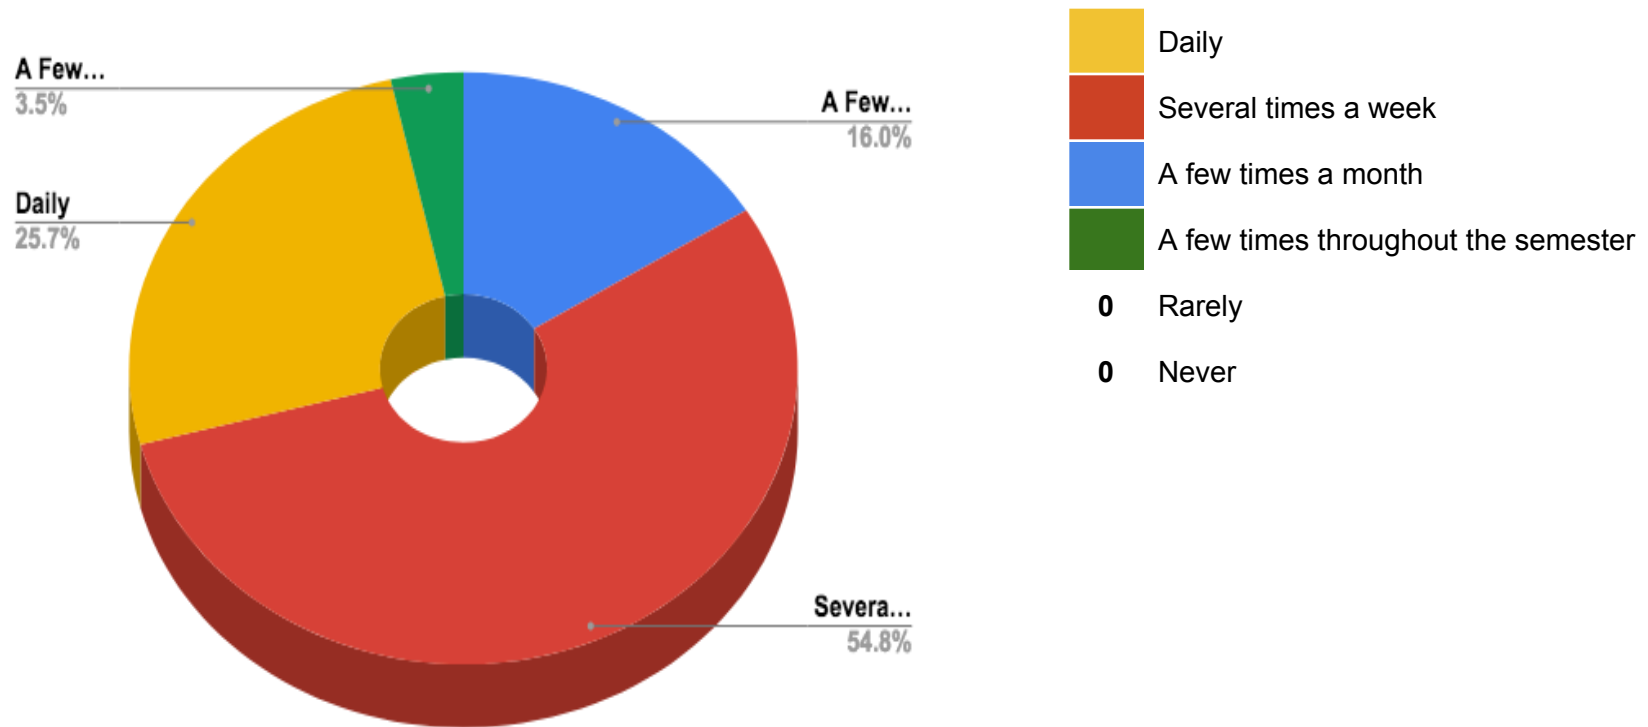

Chart 2: Digital curriculum types

What types of digital resources do you typically search for?

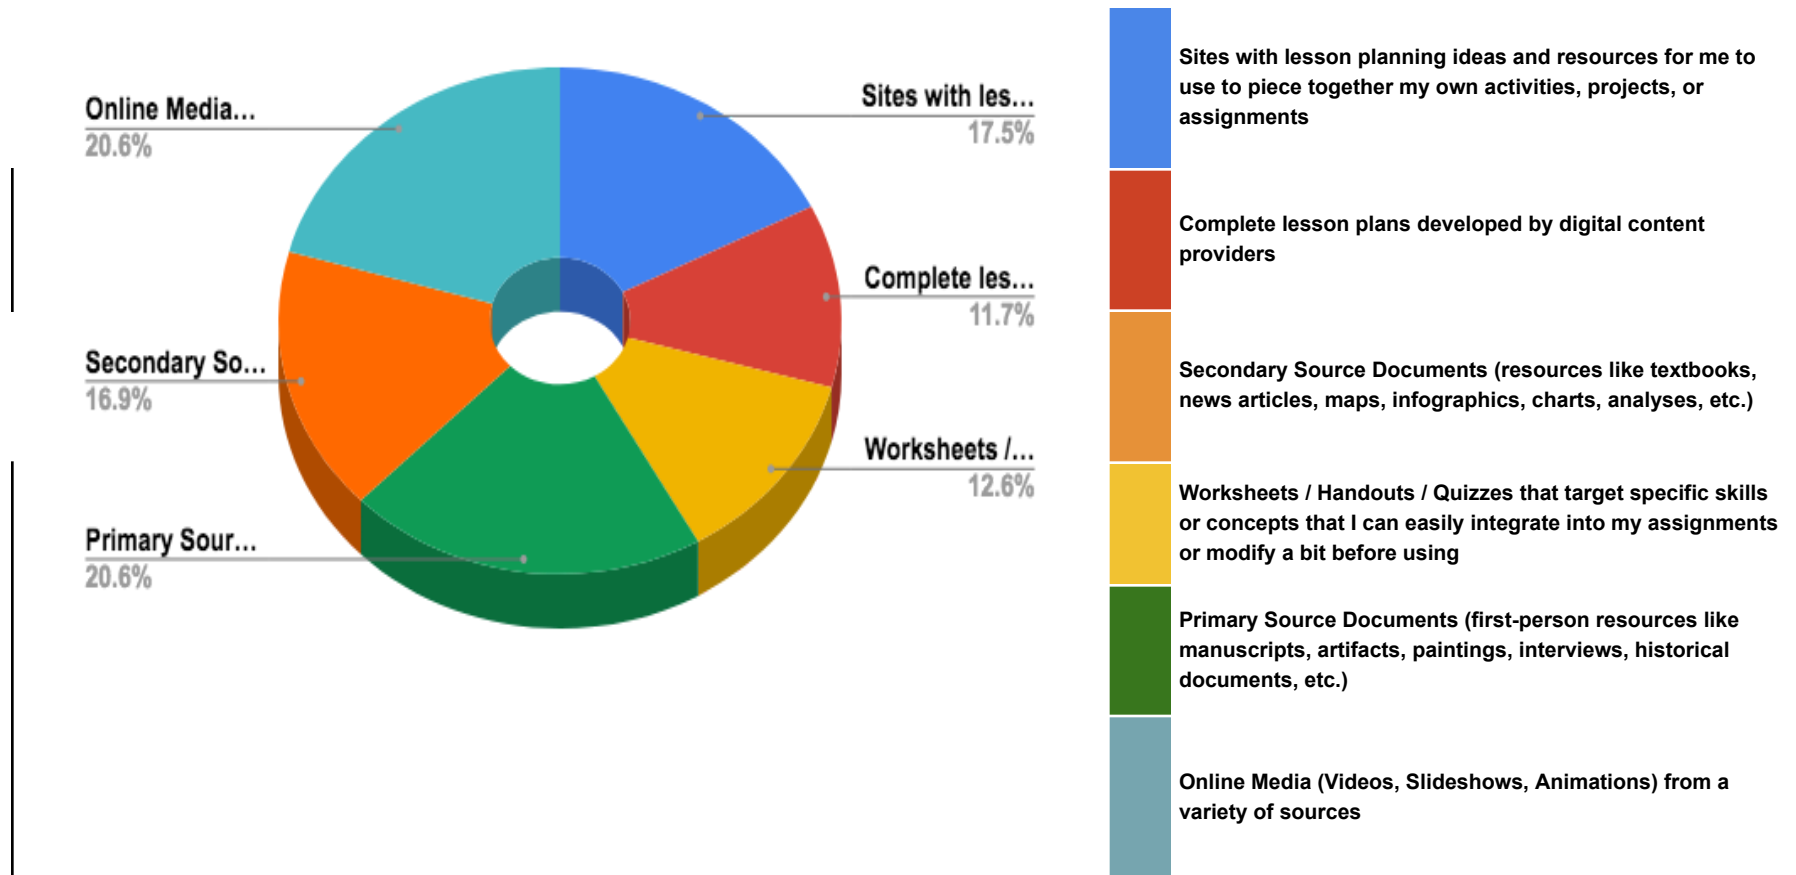

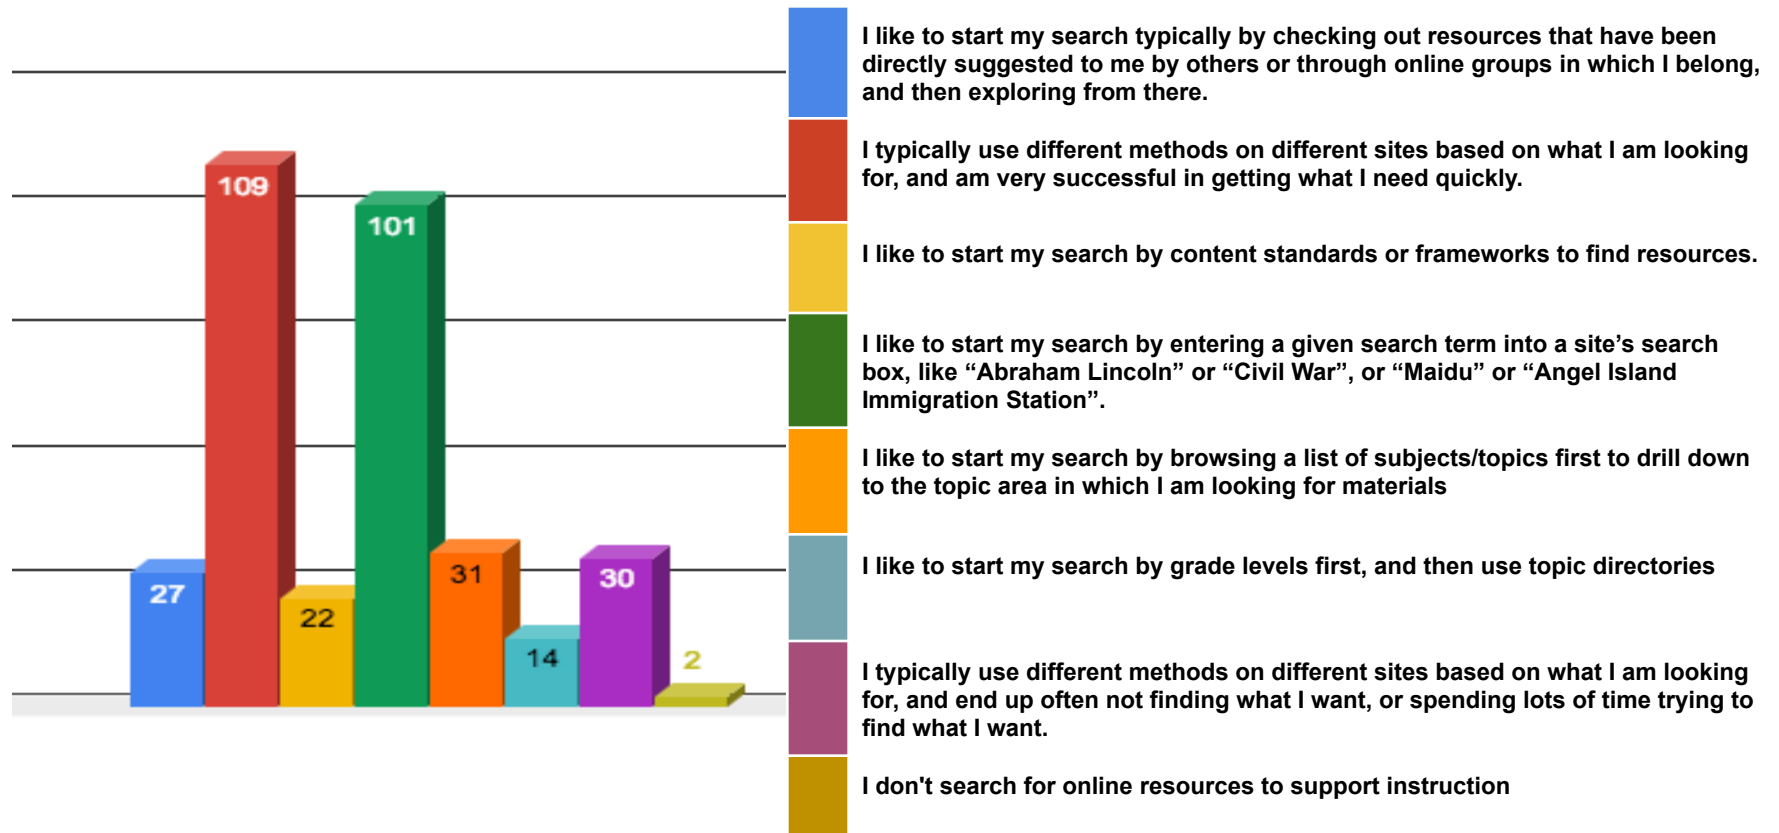

Chart 3: Digital curriculum types

What types of digital resources do you typically search for?

Other responses

- Other teachers websites
- I use different methods, but my searches are usually very specific to based on the topic or objective

Open Response Section

Please list your favorite websites that you frequently use for educational digital resources, content, or instructional ideas.

- Gilder Lehman , NEH, LOC,
- NA
- newsela, edutopia, teacherspayteachers, bill of rights institution, icivics, and Constitution project
- SHEG, American Social History Project, Gilder Lehrman
- Shag
- Stanford History Education Group, Gilder Lehrman, Edsitement
- Facing History, CSpan, and my AP U.S. History and AP Gov Facebook groups.
- Library Databases like Gale U.S. History in Context
- LOC, Nara, Smithsonian, Calisphere, US National Parks
- Pinterest, Twitter, PD conferences, YouTube, BrainPop, Teachers give Teachers
- Commonlit. Newsela. Teacherspayteachers
- Discovery Education is the main source
- I do not have a favorite or most frequently used resource.
- Gilder Lehman
- Edsite
- Teachers Pay Teachers

When you are at school, do you use any educational resource sites that require you to “log in” or set up an account? If so, list them here. (If not, why not?)

- Ancestor.com, GALE Database
- Google Drive
- newsela, icivics, bill of rights institution
- SHEG (Stanford History Education Group)
- Tci
- SHEG and Gilder Lehrman
- Facebook groups
- We have ezproxy at school, so I don't have to login to databases while at school. Other sites I log into are Gilder Lehrman (free) and Questiaschool.org (paid subscription)
- only if i have to for specialized information
- District login, Seesaw
- Same as above
- Discovery Education, Illuminate, AERIES
- I do not have membership to any paid-for education resource site, nor do I intend to purchase said membership(s) unless proven to be indispensable. Many free sites have been lacking in materials and usefulness.
- Stanford - Reading Like an Historian
- I don't think so

- National Writing Project, ReadWrite Think, Morgan Library, Digital History, PBS, Oxford University, ERIC digital database
- Have teaching
- Teacher pay teacher
- Engage NY
- Starfall
- UCDavis
- California educ
- Youtube
- google, crf, lausd, teacherspayteachers
- History Matters @ GMU, Digital History @ Univ Houston, online resources for Give Me Liberty textbook, Crash Course US History videos, Stanford History Educ Group, Gilder Lehrman
- Teaching Channel, YouTube, Smithsonian, Socrative, Padlet, Library of Congress, History Channel, NPR, BBC
- Google
- Google drive by other AP teachers.
- SHEG, iWitness, facebook groups
- Ted talks, YouTube, district websites other than my own, UCB library digital resources, Stenhouse publishers for materials my district makes available.
- Teachers Pay Teachers, BBC, History.com
- khan academy
- SHEG, APCentral, Facebook Groups
- TPT, history.org, library of congress, misc
- icivics
- NEWSELA, Scholastic, New Tech Website, Facing History and Ourselves, PBS
- Teachers pay teachers, Pintrest
- readworks.org
- PBS. ERIC, some National Writing Project stuff, university search engines (Columbia University)
- Yes
- Clever, Khan Academy
- crf
- SHEG, Gilder Lehrman
- Google Suite
- No
- Textbook website
- SHEG
- I tend not to because my time at school is usually too busy and there are too many distractions like phones, students walking in, teachers walking in. I am more likely to visit sites that require a log in, with the exception of my own district, on weekends.
- No, because they often cost more money than I can afford to dedicate to the resource.
- Newsela
- Big History Project
- TPT, and many others
- school blocks
- Newsela, Facing History and Ourselves
- edpuzzle, nearpod,
- readworks.org or typingclub

- History.com, wikipedia, Library of Congress, Bancroft Library, NYTimes, KQED
- Teachers Pay Teachers
- Read Like an Historian, Icivics, History Blueprint, Gilder Lehrman, Bill of Rights Institute, C-SPAN

- sheg.stanford.edu, Safari Montage, You Tube, TCI, google
- gilder lehrman, library of congress
- <http://gilderlehrman.org/>, <http://sheg.stanford.edu/>, <http://ucbhssp.berkeley.edu/events/teaching-historical-thinking>
- Constitutional rights foundation, teaching tolerance,
- SHEG, History Alive, Impact by McGraw
- vox, cnn10, pbis, stanford, gilder lehrman, youtube
- GilderLehrman, Library of Congress, SHEG, History.org, Edutopia, Math-Drills
- Our library has a huge database that I use first. My students have access to it too.
- history.co.uk
- Reading Like a Historian, scholastic.com, YouTube, online newspapers, NPR
- pintrest, teacherspayteachers, studiesweekly, i-Ready, code.org,
- Na
- SHEG
- I civics, brainpop, newsela, stafford, uc davis
- iCivics, Bill of Rights Institute, Facing History
- iCivics Foundation for Teaching Economics
- LOC.gov, Stanford History Education Group, YouTube, TED-Ed
- SHEG and Zinn. Sometimes PBS
- Smarter balanced digital library achieve the core ,various district curriculum resource sites
- Youtube, Myap.collegeboard.org, prezi
- Library of Congress, GilderLerman, Edutopia,
- Safari Montage, SHEG lessons, TCI
- newsELA, ActivelyLearn
- Yes, such as Gilder Lehrman, or the Stanford site listed above.
- Teaching channel
- McGraw Impact, History Alive
- most of the sites I use are free
- ReadTheory, ReadWorks, TenMarks, GilderLehrman, Clever, History.org
- My district has bought subscriptions to sites like Discovery Ed Streaming and our access is connected to our own login and passwords. I don't have to re-login.
- no-the expense
- scholastic.com
- studiesweekly, iready, codeorg
- No
- SHEG
- I civics, brainpop, newsela, stafford, uc davis
- Facing History
- izzit
- Stanford History Education Group, others that I can't remember off the top of my head
- SHEG
- Yes ,proteacher
- Myap.collegeboard.org, edpuzzle, quizlet, prezi
- Teacher Pay Teacher,

- KQED Learn, NWP C3WP, Whitehouse.gov, PBS, Lerner Arnenberg, The New York Times Learning Network.
- ReadWorks
- <http://afe.easia.columbia.edu>
- Newsela
- Edsitement, Newvisions, Gilder Lehrman, Edutopia, Twitter
- Newsela.com, Upfront magazine, Kids Discover online
- Google Classroom
- TedEd, Google Classroom, Amplify, CommonLit.org
- www.pearsonrealize.com, cnn.com
- Pinterest, Teachers Pay Teachers--specifically for beginning/emerging English language learners in Geography. I generally develop other lessons and scaffolds for other classes in which I have a better grasp at making the class accessible. ELD/SDAIE has been challenging for me.
- Youtube
- History.com, Reading Like A Historian, Crash Course History, Khan Academy, Quizlet
- National Geographic, PBS Learning, YouTube, SHEG, TeachersGiveTeachers (Hyperdocs), Nearpod, TedED (great animated videos)
- History Hub, Zinn Education, YouTube, US History.org, PBS
- Read Like A Historian and all things HSSP
- Zinn Education, Teaching Tolerance, NewsELA
- teachers pay teachers, pinterest, engage ny, common core sheets
- Constitutional Rights Foundation, Federal Reserve Economics
- Stanford History Education Group, Library of Congress, EDSITEMent, Ted Ed, Newsela, Crash Course, Teaching American History, National Archives, Modern History Sourcebook, You Tube,
- No, because there is plenty of resource available without setting up an account and logging in.
- ReadWorks
- Online textbook and publisher related material
- Yes too many to list
- Playposit, Newsela
- Gale Database
- Google Classroom
- Google Classroom
- Yes, pearsonrealize.com, googlesuites
- Teachers Pay Teachers
- yes - EMC, TCI, Scholastic Scope, Edmodo, Study Island, Lesson Helper,
- etc.
- Reading Like A Historian
- SHEG, Nearpod (district is supplying this year)
- DiscoveryEd, Common Lit, PBS, Zinn Education
- ReadELA, because we bought a premium subscription
- NewsELA, but I really don't like having to set up an account
- mcgraw hill, benchmark advance
- Yes. The ones above require a login.
- Gradpoint, Stanford History Education Group

- newsela, readworks, readwritethink
- No particular favorite. I go all over.
- Nearpod, icivics.org, mr. roughon.com, study.com
- APUSH Teachers group on Facebook, SHEG, YouTube, Digital History
- Stanford SHEG; Teachers Pay Teachers
- No idea
- Stanford SHEG, UCLA History/Geo project, or Larry Ferlazo's blog, and YouTube
- library of Congress, study.com, youtube, TedEd, icivics, national archives, horrible histories, smithsonian, brain pop etc.
- Nat Geo, Edutopia, KQED, CEEI, UCBSSHP
- New visions for public schools
- HERB (Social history Project), PBS, Washington post
- Teachers websites through search of information
- Internet Archive, National Geographic
- Youtube...videos, Discovery Education, NASA, NOVA, ReadWorks
- Stanford History Education Group, various history projects (e.g. UCD History Project), Educator Blogs (Cult of Pedagogy), etc
- SHEG, CrashCourse (youtube), World History for us all,
- CCSM
- SHEG, Zinn Ed Project, Facing History, Gilder Lehrman, Library of Congress, NY Times
- Edutopia, education world, internet4classrooms, Google, nasa.gov, etc.
- icivics.org, Sheg, National Library, Youtube, History Channel, TCI, Constitutioncenter.org
- Primary source sites
- newsela, readworks
- TCI, which is our new adoption.
- Nearpod, google...drive, docs, slides, forms, sheets, classroom, quizlet, edpuzzle.com, study.com,
- Facebook, SHEG, YouTube, Textbook Websites
- Stanford SHEG; Teachers Pay Teachers; Holt McDougal Online Text book; Google;
- Many. Can't list all
- Newsela (occasionally), Discovery Ed (not so much anymore)
- study.com, TedEd, icivics, brainpop
- Amplify, Newsela, No Red Ink, Read Theory, Storiumedu, iCivics, Quandary
- No, my district does not have approved curriculum.
- TCI
- No
- McDougal Littel
- Discovery Education, ReadWorks, NASA, NOVA
- TCI, SHEG, Newsela
- SHEG
- CCSM
- same as above/no problems logging in
- No
- icivics, sheg, TCI
- Yes Pearson and I civics

- Teachers Pay Teachers, Boom Learning, My own website: https://protopage.com/mrs.wadescience#5th_Grade/Home_Page , Pinterest
- Smithsonian Institution and National Geographic
- Teaching tolerance, facing history
- Library of Congress, Content Standards
- archives.org
- I have no favorite.
- icivics,
- Big History Porject
- Mount Vernon.org
- Mission-us.org
- SHEG
- Icivics, histroy.org, colonialwilliamsburg.org
- SHEG, DBQ Project, Teaching Tolerance, Facing History, Constitutional Rights Foundation
- google search
- College Board
