

### **Instructions:**

1. Input picture you want for your design into this doc.
2. Click that picture and navigate to Picture Format > Wrap Text > Behind Text.
3. Drag and drop the picture into the above template area. Move it around to your liking.
4. Print!
5. Cut out along the black border. The gray rectangles are the pieces you'll cut out of the final design as per the diagram.
6. (OPTIONAL) If you want the graphic to extend all the way to the bottom, you will need to create the gray rectangles and overlay them on the lid image with Picture Format > Wrap Text > In Front of Text, so that they appear on top of your design.

**Thanks [youtube.com/@forthenext](https://www.youtube.com/@forthenext) for the original dimensions!**

*Caveat: please note that I recreated the lid design using Canva, which only edits to the nearest tenth. So it might be a few hundredths of millimetres off from the exact dimensions.*
