

WARNING THERE IS ADULT NSFW CONTENT INCLUDED IN THIS MOD LIST

This is a modlist for DigIntoGaming's Fallout 4 Nuclear Family RP Modded series on youtube:
https://www.youtube.com/playlist?list=PLz_G5CHFCvCqJyxZcXJMzTammwFZebFJq

Special Notes: This modlist is largely based off the Nexus mods Collection Immersive Wasteland 2 by Sheldonwang: <https://next.nexusmods.com/fallout4/collections/fk0rll>

This is a work in progress modlist and I may add or remove mods from my personal list from time to time. If you are seeing a specific mod in my series on youtube then leave a comment on that video asking about it and I will try to figure out which one it is for you. Sadly I cannot add this to a collection on nexus because the Immersive Wasteland 2 prerequisite is not mine and I don't think it would be right to "steal" it. I also have no intentions on giving any support or help for the modlist so use at your own risk.

I simply modified the collection to my distinct liking and added some extras to suit my needs/wants. Things I added and removed are as follows:

Disabled Start me up
Disabled easy hacking and replaced with Autohack dual activators version
Disabled no food healing robco patch, replaced with Food doesnt stack and food heals by half
Disabled no more cash register sound
Disabled start me up and alternate dialogue patches for Immersive wasteland 2
