

<https://tinyurl.com/rhart303-garden-list>

**Last Updated: 4/15/2026**

This document is messy, I know. It's a living document and changes frequently and is my digital scratch pad for notes. So some notes are shorthand. There is a chance that some things in this list have died and are no longer present. I do my best to keep up and review yearly. However, some varieties do look very similar and unknowns happen. The document is pretty much laid out by genus as the heading and species listed as varieties. I've been slowly converting everything to latin names, so some common names are still present. Hope you enjoy! Feel free to ask me any questions.

## Garden Information:

This garden is in Castle Rock, Colorado

Zone 5b at 6400ft

Most of the garden is full sun on a northwestern facing slope.

Yearly temps range from -17°F to 100°F

Annual average precipitation is 17"

Most of the garden is on irrigation getting water about a ½" every 10 to 14 days in the summer.

In spring and fall the garden is watered about ever 14 days at the same rate unless there has been precipitation.

## Perennials

### Agave

**Varieties:** Utahensis var. Nevadensis, Neomexicana,

### Ajuga

**Varieties:** Ajuga reptans Bronze form 'Bronze Carpet', Ajuga reptans 'Walberton Black Scallop', Parrot Paradise, Flashy Flamingo, Fierce Falcon,

### Alyssum - Basket of Gold

**Seasonal:** Spring blooms yellow. Cut after flowering to promote reblooming.

**Varieties:** wulfenianum, alpine alyssum "golden spring", gold dust, saxatilis "gold kobold", Aurinia saxatilis 'Gold Rush'

### Anacyclus Pyrethrum

**Varieties:** Mt Atlas Daisy "Silver Kisses",

**Notes:** Early Spring daisies, heard it can be seedy.

### Antennaria - Pussytoes

**Varieties:** Dioica 'Rubra', dimorpha 'PJS03S' aka 'Granita',

### Anthemis marschalliana - Filigree Daisy

**Notes:** 2 in back garden

## Arenaria

**Varieties:** balearica “Corsican Sandwort”, Tetraquetra “Spanish Sandwort”, alfacarensis

### Arenaria Tetraquetra

## Armeria

**Varieties:** Maritima “Victor Reiter”, Caespitosa “Bevan’s Variety”,

## Asperula

**Varieties:** boissieri “Betty Ford Alpine” (possibly dead - crevice in upper garden by large stone)

## Aster

**Varieties:** Aster Alpinus ‘Dark Beauty’, Novae-angliae ‘Purple Dome’, Symphyotrichum laeve “Smooth Aster”, pattersonii “Paterson Aster”, Symphyotrichum novi-belgii ‘Wood’s Purple’ (front),

## Astragalus Bisulcatus - Two Grooved Milkvetch

## Berlandiera - Chocolate Flower

**Varieties:** Mora County

**Seasonal:** Grows early, Hand trim back dead stems in late winter or early spring.

**Notes:** Makes the whole yard smell like chocolate in the morning and evening hours. A couple have died after two years. Seemed to be in high organic soil with higher moisture content. After second year it is reseeding readily around the yard. Easy to pull.

## Calylophus drummondianus - Sundrops

**Notes:** Back by old sugar maple (looked like a maybe when planted fall 2025)

## Columbine

**Seasonal:** Cut to ground anytime in winter. This plant has early Spring growth.

**Varieties:** Denver Gold, Remembrance, Winky Double Red White, Arizona, discolor 'Dwarf Columbine'

## Coral Bells - Heuchera

**Seasonal:** Deadheading will prolong blooming. Removed winter-killed foliage in mid-spring. Plants are semi-evergreen with thick succulent stems growing from the crown and should not be cut back, only trimmed. Growing in mostly shaded spots.

**Varieties:**

- Firefly, Snow Angel, Sandia, Black Forest Cake, Bressingham Hybrid,

○

○

## Coreopsis

**Varieties:** Coreopsis verticillata "hot paprika", Coreopsis Hybrida "UpTick Yellow and Red"

## Coryphantha

**Varieties:** C. vivipara x Escobaria sneedii 'Hybrid Nipple Cactus CHC'

## Creeping Veronica

**Varieties:** 'Blue Woolly' pectinata, Turkish, Snowmass® Blue-Eyed, Crystal River, Woolly Veronica,

**Seasonal:** Rake old dead material in Spring.

**Notes:** Evergreen. Does not like any place there is standing water after rain or from irrigation.

## ~~Dactylorhiza Fuchsii – Orchid~~

~~**Varieties:** 'Dressingham Bonus' Common Spotted Orchid, 'Spotted Marsh'~~

## Dasyilirion texanum - Texas Sotol

**Notes:** Back lawn retaining wall

## Daylily

**Varieties:** Hungry Eyes, Raspberry Eclipse, Rainbow Rhythm Storm Shelter, Purple D'Oro, Stella D'Oro, Ruby Stella, Happy Returns, 'Double Pardon Me',

**Notes:** Both D'Oros more drought tolerant.

## Dianthus

**Varieties:** First Love, Beauties Kahori, Paint the Town Magenta, Firewitch, cheddar pinks "tiny rubies", anatolicus "in front crevice might have died", "Mini Mound"

**Seasonal:** Prune back around ½ to ⅓ in Spring or after blooming. Mostly evergreen for winter?

- Kahori - Has a longer bloom span than most Dianthus. Starts late spring and goes until frost. Super short wide mat. Only a couple inches tall.
- First Love
  - Compact perennial blooms nearly continuously from spring until frost. Pink and white blooms.

- - Cheddar Pinks - used in pathway, very compact low groundcover. Hardies and longest lasting of all Dianthus.
  - Dianthus Anatolicus

### **Diascia**

**Varieties:** *Diascia integerrima* 'P009S - Coral Canyon Twingspur'

**Notes:** Amazing long time bloomer! Starts early summer and finishes to frost with heavy blooms. One of my best bloomers.

### **Draba**

**Varieties:** *glacialis* var. *Alpina*, *Aizoides*, *polytricha*, *cappadocia* "Whitlowgrass", *capitosie*, *bryoides*, *dedeana*, *hispanica*, *rigida*, *incerta* (dry strip by spineless),

**Notes:** Some of my first bloomers of the season (March).

### **Echinacea - Coneflower**

**Varieties:** PowWow Wild Berry, Primadonna Deep Rose, Sombrero Adobe Orange, PowWow White, Giant Purple Coneflower, Green Twister

### **Echinocactus**

**Varieties:** *Horizontalonius* "Eagle Claw"

**Notes:** *Horizontalonius* "Eagle Claw" is potted and brought inside during the winter. Anecdotally cold hardy to -17°F. Can't find proof online or 2nd source.

## Echinocereus

**Varieties:** Echinocereus Triglochidiatus - "Spineless Claret Cup", Echinocereus Coccinea - "Strawberry Hedgehog", Triglochidiatus "Giant Claret Cup - White Sands", Triglochidiatus "Poncha Springs", roetteri x gonacanthus 'Double Red', mojavensis fam. Inermis (pot), reichenbachii 'red top form' (blue pot upper dry garden)

## Engelmann's Daisy (*Engelmannia peristenia*)

**Seasonal:** Prune back/shear to ground in spring.

## *Eremogone hookeri*

**Notes:** back entry crevice - Hedi's plant

## *Erica carnea* - the winter heath

**Varieties:** Myretoun Ruby 'Ruby Red', Vivellii, Springwood Pink,

**Notes:** Evergreen. Keep out of Colorado winter sun. Can dry out in the winters from sun and strong winds. Does like sun in the summer but better to keep it a couple hours of shade during the day. Very picky plant.

**Blooms:** Very early bloomer. The first year for me it bloomed 3/10/23 and still blooming as of 4/21/23

- Myretoun Ruby 'Ruby Red'

### Erigeron - Fleabane

**Location:** Top backyard garden SW corner by fence

**Varieties:** Speciosus "Showy Fleabane", compositus "Railroad Ridge" (dwarf), Leiomerus (dwarf), compositus "Pink Cutleaf Daisy" (dwarf), scopulinus,

### Eriogonum

**Varieties:** ~~caespitosum~~, umbellatum var. aureum 'Psdowns' "Kannah Creek", jamesii James buckwheat,

### Escobaria

Varieties: Vivipara "Ball Cactus", Sneedii "Sneed's Foxtail", leei 'Lee's Dwarf Snowball',

### Ferocactus

**Varieties:** Pringlei "Baja Fire Barrel", ~~Cylindraceus "Red Fire Barrel"~~

**Notes:** Potted and brought inside in the winter.

### Gaillardia - Blanket Flower

**Seasonal:** Leave all Gaillardia varieties standing over the winter and cut back to 1-2" inches above the soil in mid-spring when the plants begin to wake up.

**Varieties:** Gaillardia Arizona Sun, Gaillardia pulchella, Mesa Peach,

### Gazania

**Varieties:**

- Colorado Gold
  - A long blooming, cold hardy perennial species from the Drakensberg Mountains of South Africa. Blooms late spring to frost with bright yellow daisy-type flowers held over a rosette of narrow, deep green leaves. Gazania is a reseeder when planted into gravel mulch and will naturalize in your landscapes. A 1998 Plant Select Winner. Grows and spreads worse than dandelion but easy to pull.

o

### **Genista Depressa - Broom**

**Varieties:** Genista Depressa,

**Seasonal:** Blooms early summer

**Location:** Upper retaining wall in cactus garden

### **Gentiana**

**Varieties:** sino-orn "Eugen's Allerbesten", paradoxa "Blue Herald", Gentianella tenuifolia "Petrie" (note label says "petrei" unconfirmed if still alive in backyard patio area), dinarcica "Montenegro" (back entry crevice), septemfida var lagodechiana (back entry crevice), septemfida var lagodechiana 'Bella Alpinella' (garage),

### **Gentiana acaulis**

**Varieties:** Hybrid 'Holzmann', Hybrid 'Renate', Hybrid "Vierlanden", ~~Undulatifolia~~, hybrid "Hohenstein"

### **Gentiana angustifolia-Hybrid (Leach)**

Recommended by Mike Bone

## Gomphostigma virgatum - Silver Shield

In the wet garden by retaining wall

## Gypsophilia sp. (ex DBG)

Entry crevice garden

## Hedysarum boreale utahensis - Sweetvetch

## Helianthus maximiliana - Maximilian's Sunflower

**Varieties:** Lemon Max, Santa Fe,

## Heterotheca

**Varieties:** jonesii x villosa 'Goldhill', possible seedling reverts back to jonesii and villosa.

- Goldhill golden-aster (Heterotheca jonesii x villosa 'Goldhill')
  - Flowering season Spring to Fall. Likes it dry to xeric.
  - States its not a reseeder, seeing seedlings of parent variety. Not true to hybrid.

## Hosta

**Varieties:** Blue Mouse Ears, Guacamole

## Hummingbird Trumpet Mint - (*Monardella macrantha* 'Marian Sampson')

**Seasonal:** Clean old leaves off plants. Deadhead to cleanup and encourage more blooms.

**Notes:** Heavy snow sitting for months has seemed to severely damage the plants in Castle Rock. Plants did not fully recover the following year. Very little luck with this plant. Comes back weaker and sparse each year but still hanging in there. Does not look as pictured. Very minimal foliage but alive. Did amazing in my Aurora garden.

## Hymenoxys

**Varieties:** scaposa "Prairie Sunshine", "Thrift-Leaf Perky Sue"

## Hyssop

**Seasonal:** Cut back in spring 4-5 inches above the ground when new growth is starting to show.

**Varieties:** Sunset Hyssop - *Agastache rupestris*, Sonoran Sunset Hyssop, Colorado Red

- Sunset Hyssop - *Agastache rupestris*
  - a superior perennial enjoyed in the garden for its spicy fragrance, uniquely colored flowers, and finely textured foliage. This western native is also a superb hummingbird plant attracting them for several months with its nectar-rich flowers. Like lavender, it is an indispensable perennial for water-thrifty gardens. *Agastache rupestris* loves a hot, sunny position in well-drained soil. Keep an eye out for the hummingbirds when this plant is in bloom. Its nectar-rich flowers are unsurpassed in bringing hummingbirds into your garden. (Seed propagated.)

○

- Sonoran Sunset Hyssop - *Agastache cana* 'Sinning' PP 13,673

○

## Jovibarba

**Varieties:** *hirta* ssp "Arenaria" (in pot outside)

## *Knautia macedonica* 'Mars Midget'

**Varieties:** 'Mars Midget Pincushion Flower' *macedonica*,

## Iberis

**Varieties:** Mermaid Lavender

## Ice Plants

**Seasonal:** Keep snow off ice plants as much as possible. Cut back water before freezing temps set in. Remove winter die back after the last frost.

**Varieties:** Raspberry Granita, Alan's Apricot, Fire Spinner, Lavender, Red Mountain, Mesa Verde, *Sphalmanthoides* "Tufted Ice Plant", Orange Granita, Table Mountain, Ocean Sunset Orange Glow, Gold Nugget

## Iris

Before the Storm, Black is Black, Study in Black, Dwarf Crested Iris, All Night Long, Hello Darkness, Sparky, Starring Bearded Iris, Black Lightning 'Dwarf Bearded',

## Jeffersonia dubia

## Kniphofia - Hot Pokers

**Seasonal:** Cut back dead leaves before new growth. Generally in March/April.

**Varieties:** Regal Torch Lily, Flamenco, Dwarf lemon popsicle, Pfizer Red Hot Poker, (unknown yellow from neighbors)

## Lavender

**Seasonal:** Trim in August or early Spring before new growth.

**Varieties:** Wee One, Phenomenal, munstead, Thumbelina Leigh, Blue Cushion,

## Leucanthemum

**Varieties:** superbum 'Daisy Duke/Daisy May', 'Whitecap',

## Lewisia

**Varieties:** Lewisia longipetala 'Little Raspberry', lewisia cotyledon 'sunset strain' - might be dead, Elise Ruby Red, Little Plum, Elise Ultra Violet,

## Limonium Latifolium - Statice

**Varieties:** Sea Lavender

## Liatris - Blazing Star

**Varieties:** Dotted Blazing Star, Kobold,

## Lychnis - Rose Campion

**Varieties:** Lychnis Coronaria "Rose Campion",

## Monarda - Bee Balm

**Varieties:** Jacob Cline, Sugar Buzz® Berry Taffy

## Mums

**Varieties:** Eternal Red, Avalon Pink, Sunset Orange, Autumn Spice Igloo, Cranbury Red, Cheryl pink

**Seasonal:** In Spring cut the stems down to about an inch or so above the ground before new growth appears.

## Nepeta

**Seasonal:** Cut to ground anytime in winter or early Spring before growth. This plant comes up early.

**Varieties:** Cats Meow, Blue Wonder, Little Trudy, Purrsian Blue - down by openspace gate, Select Blue, Walker's Low,

**Notes:** "Walker's Low" is almost completely removed, it is way larger than advertised and super seedy.

o

## Opuntia

**Varieties:** Chocolate Princess Walk In Beauty, Watermelon Man Walk in Beauty, Walk in Beauty Mandarin Sunrise, Walk in Beauty Garnet Glow, Walk in Beauty Apricot Glory, Al Parker, Baby Blue (front pot), phaeacantha 'Mesa Sky CHC' (back fence), Cylindropuntia multigeniculata 'Snow Leopard'

## Origanum

**Varieties:** Hopflower oregano  
Origanum libanoticum, Amethyst Falls

## ~~Oxytropis Besseyi~~

**Varieties:** Ventosa (Besseyi Locoweed)

## Penstemon

**Varieties:** Compact Pineleaf Penstemon, Barbatus "Scarlet Bugler", Firecracker, Firecracker - Richfield Strain, Halfpint Pineleaf, Grand Mesa, Prairie Jewel, wagon wheel, Penstemon rostriflorus "Bridges", davidsonii var. Menziesii "Microphyllus", pseudospectabilis 'Desert', Superbus, fruticosus 'Shrubby', rupicola, rupicola 'Myrtle Hebert', barbatus var. praecox f. nanus 'Rondo', pinifolius 'Luminous' (lower garden junipers, triangle garden), heterophyllus 'Electric Blue' (upper garden by crevice), P. Strictus 'Rocky Mountain' (front),

**Info:** Evergreen in some varieties for zone 5.

**Seasonal:** Cut down old foliage in late fall or early spring before new growth starts. Cut down the stems of the spent flowers after bloom, if desired.

- Pineleaf Penstemon pinifolius
  - Evergreen in Castle Rock. 0-12" tall x 12-18" wide. Penstemon pinifolius (Pineleaf Beardtongue) Compact, hardy and water thrifty, the red-orange tubular flowers of P. pinifolius, set the late spring garden ablaze in color. Out of flower, the plant resembles a tiny mugo pine with thin, evergreen leaves held on tidy stems giving the plant year-round interest in the waterwise landscape. A little known native species native to southern New Mexico and eastern Arizona.

## Petunia

Petunia Patagonica - Photo March 2025

## Phlox - Garden and Creeping

**Varieties:** kelseyi Lemhi Purple, kelseyi "Lemhi Midnight", "Violet Pinwheels", Millstream Daphne, paniculata 'Flame', paniculata 'Material Girl', paniculata 'Sunset Coral',

**Notes:** Bloom mid April in full sun, others bloomed in May.

## Pulsatilla Vulgaris - Pasque Flower

**Varieties:** Perlen Glocke Pearl Bells,

## Red Birds in a Tree - Scrophularia

**Seasonal:** To improve cold hardiness, leave plants standing through the winter and cut back the stems to a height of 2-3" inches in mid-spring.

## Rose - Ruby Voodoo

**Seasonal:** Cut back to keep neat after last frost.

**Notes:** Aphids per typical rose.

## Rumex scutatus - Silver Shield French Sorrel

**Notes:** Back native lawn retaining wall edge.

## Salvia

**Varieties:** Desert Rose Salvia, "Autumn Sapphire Grass Sage" Salvia reptans 'P016S', Marcus Dwarf Blue Salvia, May Night, nemorosa 'Midnight Purple', Blue Marvel, "Ultra Violet Sage" (next to dry strip), pachyphylla 'Mulberry Flambe', pachyphylla 'Mojave Sage'

**Notes:** First plant to get Powdery Mildew caused garden spread to other plants.

## Saxifraga

**Varieties:** paniculata var. Minutifolia Red back "White Mountain Saxifrage",

## Scutellaria suffrutescens - Cherry Skullcap

**Notes:** planted on try strip behind saliva

## Sedum

**Varieties:** Angelina, Angelina Teacup - SunSparkler, Autumn Joy, Back in Black, Birthday Party, "Blue Elf" x Sedor - SunSparkler, 'Blue Spruce' reflexum, 'Chocolate Ball' hakonense, Cherry Tart "Coral Carpet" Album, Dazzelberry - Sunsparkler, Dazzling Dynamite - SunSparkler, "Blaze" sputum red form, Dark Magic, Dream Dazzler, "Grey Stonecrop" Pachyclados, Harvest Moon/Cape Blanco (died over winter), 'Mini Ewersii' hylotelephium caudicicola ewersii, 'Mossy Stonecrop' lydium, Mr Goodbud, October Daphne, "Purple Form" Blue Spanish S. hispanicum var. Minus, "Red Wiggle" ochroleucum, "Ruby Mantle" spurium, Sapphire Tuffet, Spot On Deep Rose, Summer Glory, Voodoo Red Leaf "Voodoo" spurium, grisebachii (Boissier & Heldreich), Sedum hispanicum - trying to remove as it spreads aggressively in my garden due to overhead irrigation.

Dream Dazzler - Will die back in Winter but will grow back.

- Harvest Moon - died - from PACNW Coast. Has not survived winter.

## Sempervivum

**Varieties:** Adamina, Allionii, Allison, Andrenor, Arctic White, Artemis, Ashes of Roses, Bermuda, Blaze, Blue Light, Braune Maus, Canada Kate, Casablanca, Cobweb, Coconut Kiss, Devon Dumpling, Elfen Magic, Giuseppi Spiny, Gold Bug, Gold Dust, Gold Nugget, Gold Rush, Heart of Darkness, Isella, King George, Lemon Waves, Lively Bug, Lotus Blossom, Mars, Mayfair Hybrid, Mike, Mint Marvel, Oddity, Red Tips, Red Zinger, Pacific Jordan, Pacific Zoftic, Picasso, Pluto, Royanum, Safari, Sanford, (Jovibarba Hitra subsp arenaria "miniature"), Silbering, Silver Angel, Silver Cup, 'Sneeuwitje' (Snow White), Speciosum, Spinner, Supersemp Onyx, Ulrike, Urmina, Weitblick, White Knight, Xandra

**Notes:** A few of these may be dead or eaten by deer.

Sempervivum Arctic White - Photo - Front Garden March 2025

Sempervivum Gold Nugget - Photo March 2025

### **Silene - Moss Champion**

**Varieties:** acaulis Pedunculata, acaulis "Anne Spiegel", acaulis 'Tatoosh' (back entrance crevice), acaulis 'Eagle Summit'

### **Silphium laciniatum - Compass Plant**

### **Sisyrinchium**

**Varieties:** angustifolium "Narrowleaf Blue-Eyed Grass", "Devon Skies", montanum "Blue-Eyed Grass",

### **Splendens Armeria**

**Info:** Low water, deadhead when blooms are spent,

## Strawberry

**Varieties:** Honeoye, Allstar, Ft Laramie

**Locations:** Honeoye is on retaining wall by house. Allstar is near the rock in main flagstone patio. Ft Laramie is SW of Allstar

## Sun Daisy - Osteospermum

**Varieties:** Purple Mountain, Avalanche, Lavender Mist, Mandy, new hybrid in upper garden pink with white center.

**Seasonal:** As plants become dormant in the fall, remove dead leaves and stems. Remove old growth in late winter.

**Notes:** Is evergreen some years with mild winter. Will die back to the crown if cold winter. Cut back in late spring after new growth has started. Can be cut back to the ground if stalks did not leaf out. Wait until leaves peek out to see what has died or hasn't died. 2023: new growth started in last week of April. Panayoti noted that Lavender Mist gets a fungal disease and dies. I concur that I have lost around half of these plants over the years while Avalanche prevails!

## Tanacetum densum ssp. Amani - Partridge Feather

## Teucrium - Creeping Germander

**Varieties:** T. chamaedrys Prostratum - Gray Creeping Germander (HCG), Eversilver 'Harlequin's Silver',

## ~~Thermopsis Montana - Golden Banner~~

**Seasonal:** early bloomer in May, yellow flowers.

**Notes:** Did spread out like 3 feet via runners. Removed from garden beds and put in the open space area. Will take over the garden in irrigated areas.

**Info:** legume family, nitrogen fixer

## Thermopsis lupinoides - Golden Candles

**Seasonal:** bloomed first week of May

**Notes:** looks similar to T. Montana but forms clumps vs spreading aggressively.

**Info:** legume family, nitrogen fixer

## Thyme

**Varieties:** Woolly, Mother of Thyme, 'Pink Creeping Thyme' *praecox* ssp. *arcticus* 'Coccineus', Chintz, Effin, Juniper Leaf, Red Thyme

- Woolly - Light purple in winter. Hardest one yet. Virtual maintenance free. No clean up in Spring
- Mother of Thyme - Well behaved, rich purple in winter. Very little clean up in Spring. Mostly does not die back. Very little Spring clean up.
- Chintz - Prolific bloomer but messy to clean up in Spring.
- Effin - Compact, sparse blooms. Will die back in center if wet winter.
- Red Creeping - Longest bloomer in my garden.

## Townsendia

**Varieties:** *parryi* "Parry's Townsend Daisy", *rothrockii* "Rothrocks Townsend Daisy", *grandiflora* "Large Flower",

Parryi

## Verbena

**Varieties:** verbena bipinnatifida 'Dakota verbena',

## Zauschneria

**Info:** Orange Carpet hummingbird trumpet is a rapidly spreading variety of hardy fuchsia. It forms a low groundcover of fuzzy, thin, green leaves. From mid summer to fall, it is covered with masses of small, orange, trumpet-shaped blossoms appearing on the last few inches of each stem. This plant spreads by underground rhizomes and can fill in an area, making it a good groundcover.

**Seasonal:** Remove old leaves and stems in the early spring before new growth starts. Pull any unwanted spread early.

**Varieties:** Orange Carpet® Hummingbird Trumpet (Epilobium canum subsp. garrettii)

'PWWG01S'

## Grass

### ~~Andropogon gerardii - Big Bluestem~~

~~**Varieties:** Blackhawk—Moved to Mary's~~

### Calamagrostis - Feather Reed

~~**Varieties:** Karl Foerster, Korean Feather Reed~~

~~**Notes:** Removed Korean Feather Reed as I found it really seedy.~~

### Blue Grama

**Varieties:** Blonde Ambition, Zig Zag

**Seasonal:** Cut in Spring before growth. Flowers stand throughout winter.

### Carex

**Varieties:** Appalachia “Appalachian Sedge”,

**Notes:** Appalachia died in an unirrigated section of the yard.

### Elymus Glaucus - Blue Basin Wildrye

**Notes:** Located in open space and next to power distro

### Festuca

**Varieties:** Festuca idahoensis 'Siskiyou Blue', Festuca glauca 'Boulder Blue', 'Sea Urchin', 'Elijah', X'Cool as Ice

### Gracillimus - Maiden Hair Grass

**Season:** Cut back to 3-6 inches. Scuf out the centers to remove old dead stalks. I try to do this after a rain when it is wet and they come out easier. You can also soak for a few days in Spring with water.

### Helictotrichon: - Blue Oat

**Varieties:** Helictotrichon sempervirens “Blue Oat Grass”

### Panicum - Switch Grass

**Varieties:** Virgatum “Blue Dallas”, Northwind Switch Grass, Totem Pole

### Schizachyrium scoparium - Little Bluestem

**Varieties:** Blue Heaven, Standing Ovation, 'Ha Ha Tonka' (back conifers and entry lower patio),

### Sporobolus - Prairie Dropseed

**Varieties:** Sporobolus heterolepis “Prairie Dropseed”

### Sorghastrum nutans - Indian grass

**Varieties:** golden sunset,

# Bulbs

## Aliums

**Varieties:** Globemaster(10" diameter blooms), unknowns., ~~Purple Sensation~~,

**Notes:** Panayoti noted that Purple Sensation is invasive and I ripped out all these bulbs. On the list still because I need to be sure I removed all bulbs in Spring of 2025.

## Crocus

**Varieties:** Fuscotinctus Snow Crocus, Orange Monarch Snow Crocus, 'Spring Beauty' sieberi, Tommasini's Ruby Giant Crocus, Yellow Mammoth Dutch Crocus

- 'Spring Beauty' sieberi
  - 3-4" tall. Crocus sieberi Bulbs Spring Beauty is a hard-to-find variety with lavender blue flowers marked with dark blue striping on the outer petals. Outstanding when planted in large drifts. Early spring blooming.

- Saffron Crocus
- Tommasini's Ruby Giant Crocus
  - 3" tall. Early spring blooming. 'Ruby Giant' is a very vigorous and showy variety and somewhat ground-squirrel resistant.

## Daffodil

### Varieties:

- Daffodils Narcissus Mix
  - 60 Days of Daffodils Narcissus Mix will give you Daffodil blooms for two months, from early to late spring. Enjoy this custom mix of many different daffodil varieties. Plant in drifts for a stunning display all spring long. 10-14" tall.

- 
- Fortissimo Large Cupped Daffodil
  - Fortissimo Daffodil bulbs are large 5" cupped Daffodils that provide the dramatic element in any flower symphony. Narcissus Fortissimo is renowned for its enormous light yellow and dark orange cupped blooms. Mid-spring blooming. 18-20" tall. Javelina resistant.

- 
- Decoy, Jetfire, Zinzi, Kapiti Peach,

## Foxtail Lily

Shelfords Hybrid Mix Foxtail Lily, Cleopatra Orange Foxtail Lily,

## Grape Hyacinth

**Notes:** 6" tall. Mid-spring blooming. The deep blue fragrant flower clusters resemble upside-down grapes. Muscari re-seeds readily, and spreads by bulbs to form colorful colonies. Pull right away any place it comes up that is not wanted.

## Hyacinth

- Royal Navy, Dark Dimension, Blue Jacket,

## Iris

**Seasonal:**

**Varieties:** 'George' histrioides, Harmony,

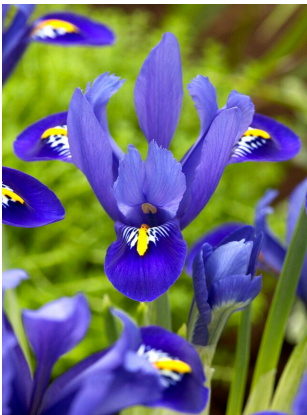

- 'George' histrioides

- Katharine Hodgkin

- Harmony

- Dutch Iris - Eye Catcher, Dutch Iris - Red Ember, Dutch Iris - Blue Diamond

## Lilies

Stargazer Oriental Lilies

## Snowdrops (*Galanthus*)

Double Snowdrops (not sure these grew),

## Tulips

Flamingo Queen, Tarda Botanical, Lizzy Botanical, Red Madonna Parrot Tulip, Red Impression Tulip, Red Emperor,

## Wild Tulips

**Varieties:** Little Beauty, Little Princess, Persian Pearl

- Little Beauty Wildflower Tulip
  - Little Beauty Wildflower Tulip is a vigorous variety and a delight in the garden with its rich, reddish-pink petals and glowing blue-eyed center. A wonderful hybrid companion to Little Princess Tulips, a vigorous naturalizer, *Tulipa humilis* Little Beauty will form colorful, fragrant colonies over time. Especially nice planted with Muscari. 4-6" tall. Blooms in mid-spring blooming. Wildflower tulips are the only tulips that are deer resistant.

- 
- Little Princess Wildflower Tulip
  - Little Princess Wildflower Tulip is a multi-colored beauty of reddish orange, primrose yellow, burnt orange and gold. A hybrid of two wildflower species, *Tulipa* Little Princess has excellent vigor and blooms heavily. 4-6" tall. Mid-spring bloom.

- 
- Persian Pearl Wildflower Tulip
  - Persian Pearl Wildflower Tulip is uniquely colored with showy purple-red petals and a bright yellow center. Like most of the wildflower tulips, *Tulipa humilis* Persian Pearl multiplies itself readily. Fragrant. Plant in large groups for a high-impact display. Plant in rock gardens with Daffodil Tete-a-Tete. Wildflower Tulips are the only type of Tulip that is deer resistant. 4-6" tall. Early to mid-spring bloom.

○

## Trees

Juniper - Taylor

Juniper - Woodward

Purple Sand Cherry

Spruce - Mac's Gold White Spruce

Spruce - Weeping White

Spruce - Norway Spruce Columnar

## Bushes

Amorpha nana - Dwarf Leadplant

**Notes:** back by old maple looked like a maybe planted in fall 2025

Berberis thunbergii - Barberry

**Varieties:** Hellmond Pillar

Sonic Bloom® Weigela Shrub - Pink

**Seasonal:** Pruning is not necessary for your Sonic Bloom Weigela, simply space your plantings to allow your Weigela to grow naturally. If you want a more formal appearance, prune annually after the second flowering period at the end of summer.

Butterfly Bush - Buddleia

**Varieties:** Red Butterfly Bush "Royal Red" (moved 2 times now at power distro), Dwarf butterfly Lo & Behold 'Ruby Chip',

**Seasonal:** Try pruning in Spring before new growth starts to emerge. See if it will cause the plant to split its branches. Can handle trimming stress any time of the year. Try not to trim in late fall or winter for best results. When trimming a butterfly bush, try cutting back the lateral branches to help train the shrub to grow into a desired shape or keep it within a specific area. This will also help with filling in unsightly areas of the butterfly bush.

Cytisus 'Lena'

Daphne

**Varieties:** Daphne x Napolitana, Daphne x napolitana 'Bramdean', Daphne x susannae 'Tage Lundell', eschmannii, medfordensis "Lawrence Crocker", "Eternal Fragrance Pink Summer Daphne" Daphne x transatlantica, D. x susannae 'Anton Fahndrich' (garage),

Cypress

Cumulus sawara

## Firebush

## Philadelphus lewesii 'Blizzard' - Mock Orange

**Note:** Back lawn by fence

## Pinyon pine

Blue jazz, Farmy, Trinidad, Tiny Taylor,  
Size: 2.5ftx2.5ft

## Juniper

## Manzanita

Mock Bearberry

## Mugo Pine

**Varieties:** Lemon, Orange Sun, Slowmound, Winter Sun, Jalubi,

Winter Sun Mugo Pine x4

6ft H x 4ft W

Orange Sun - In back mini garden by the basement windows.

Lemon - In front garden in front of pillar.

Slowmound Mugo Pine x2

Size 3ft high 4ft wide

Jalubi - middle pine by decorative pillar

## Picea Pungens - Blue Spruce

**Varieties:** Waldbrunn, Pali, La Junta, Utica

La Junta - Located in back crevice garden

Pali - Located in back mini garden by basement windows.

Waldbrunn Colorado Spruce

Size 1.5ft H x 3ft W

Utica - Upper back garden near old maple and back by the back fence.

## Pinus flexilis - Limber Pine

**Varieties:** Dakota, Tara Mae

Dakota - Located in back mini garden by basement windows

Tara Mae - Located in back garden by the fence near the retaining wall on top flagstone patio

## Spruce

Pusch Norway Spruce

Size 2ft H x 3ft W

Picea glauca - blue planet

Picea abies - tompa

## **Rabbitbush**

**Seasonal:** If a globe shape is preferred, rabbitbrush may be pruned by 1/3 in the early spring. Prune out any branches broken by heavy spring snow. Tall rabbitbrush can be rejuvenated when desired by cutting the branches to ground level in late winter or early spring before the leaves emerge.

**Varieties:** Tall Rabbitbrush, Baby Blue rabbitbrush

## Lawn Grass

Shadow III Chewings Fescue

Sheep Fescue

Hard Fescue
