

Privacy Policy for RF Recorder

Introduction

This Privacy Policy explains how RF Recorder ("we", "our", or "us") collects, uses, and discloses information when you use our browser extension.

Information Collection

RF Recorder does not collect any personal information from its users. The extension operates entirely locally on your device and does not transmit any data to external servers.

Information Collected Locally

The extension collects and stores the following information locally on your device:

1. ****User Actions****: The extension records user actions (clicks, form inputs, etc.) on web pages to generate RobotFramework scripts. This information is stored locally and is not transmitted to any external servers.
2. ****Extension Settings****: The extension stores user preferences and settings locally using the browser's storage API.

Use of Information

The information collected locally is used solely for the purpose of generating RobotFramework scripts based on user actions. This information is not used for any other purpose.

Data Sharing

RF Recorder does not share any information with third parties. All data remains on your local device.

Data Security

Since all data is stored locally on your device, the security of your data is dependent on the security of your browser and device.

Changes to This Privacy Policy

We may update this Privacy Policy from time to time. We will notify you of any changes by posting the new Privacy Policy on this page.

Contact Us

If you have any questions about this Privacy Policy, please contact us at [your contact information].
