

List of Websites

Students in the “Expanding the Digital Classroom” of 2024-2025 probably need to be able to access the following Websites. (You probably won’t use all of them, but they should be available, if needed. Also, some of them will disappear and there may be new ones.) The URLs are listed in the chronological order used during the course. This is not an exhaustive list, there may be more along the way.

If you are working on a computer behind a firewall or with a very restrictive filter, please see your school’s tech-support to allow access to the following URLs.

<https://sites.google.com/>
