Overview:

Best variation swatches plugin for WooCommerce products.

Smart Swatches Pro is the best WooCommerce variation swatches plugin for converting the product variation select options fields into radio buttons, images, colors, and labels.

Getting Started:

Minimum Requirements

Smart Swatches Pro Server Minimum Requirements

To get the best experience of this plugin, we recommend the following:

1. **PHP 5.6 or later**
2. **MySQL 5.6 or later**
3. **WordPress 5.0 or later**
4. **WooCommerce 5.5.0+**

To be sure about the above requirements, contact your hosting vendor.

Download The Plugin

After purchasing the [Smart Swatches Pro](#) plugin, you will get a receipt email in your inbox (of the email ID you used to purchase) with a download link to the Pro version. This download link will expire after 72 hours. If you are unable to download the pro plugin within 72 hours or have lost the pro version somehow, please follow these instructions to download it again:

- Login to your [ShapedPlugin](#) account simply.
- Download the pro version from [My Account](#) → Dashboard → File Downloads.
- Install the Pro version as usual.

How to Purchase and Download a Plugin

This video will help you to know about downloading and purchasing a plugin.

https://www.youtube.com/watch?v=CH95G3oQQ74&ab_channel=ShapedPlugin

Thank you. Enjoy the plugin!

Have more questions? No problem! Feel free to [get in touch](#) with our Support Engineers.

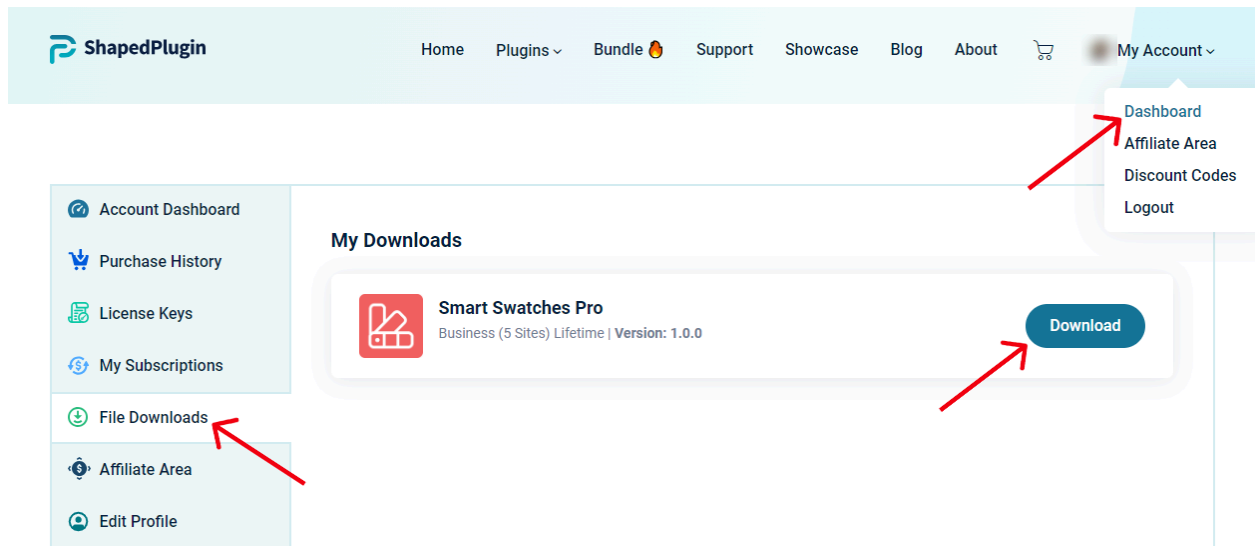

Installation & Activation

Suppose, you have installed WordPress. If you do not know how to install WordPress, contact your hosting provider or see the [documentation](#). We provide one of the easiest setups you will experience, it's fast and highly intuitive. Simply follow these quick steps and enjoy the smooth work of the plugin.

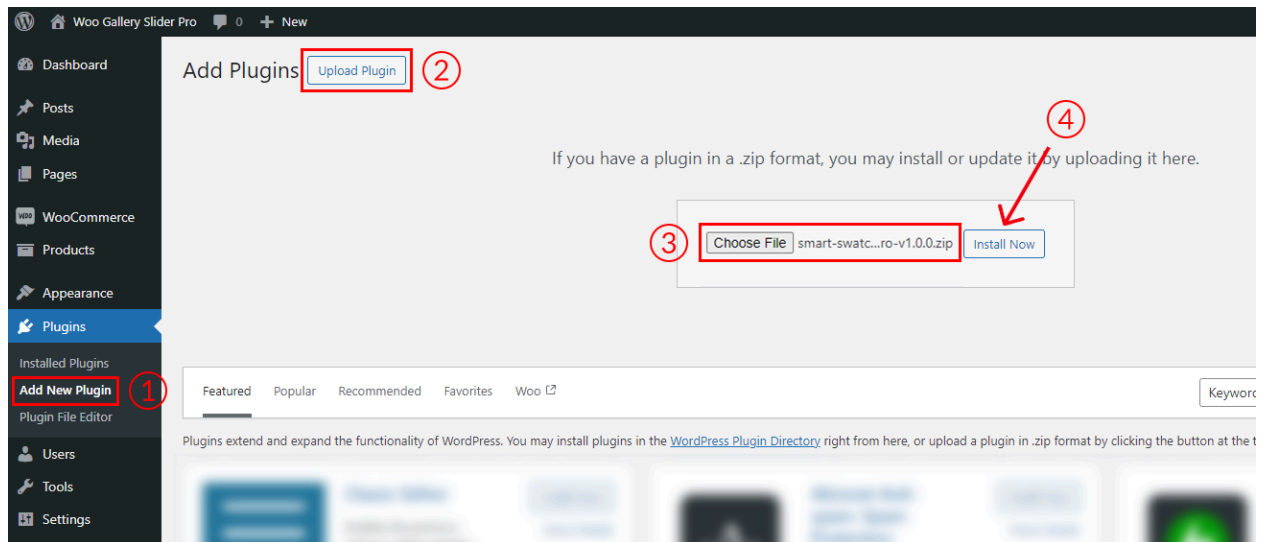

For the plugin to work as it should, the [WooCommerce](#) plugin has to be installed and enabled.

Firstly, Download Smart Swatches Pro for WooCommerce.

- Download the Pro version from [My Account](#) → Dashboard → Downloads.

Secondly, Install Smart Swatches Pro for WooCommerce.

Now follow these steps below to install Smart Swatches Pro for WooCommerce.

- Go to your WordPress Dashboard > Plugins > Add New Plugin.
- Click on the Upload Plugin button from the top left corner.
- Now from the Choose File option select the plugin's zip file smart-swatches-pro.zip.

- Click on Install Now and then Activate Plugin.
- After activating the plugin you will be redirected to the License key input field.
- Add the license and click on Activate. Now you are ready to add product variation attributes and convert them into images, colors, and labels.

What to do after Purchasing the Plugin?

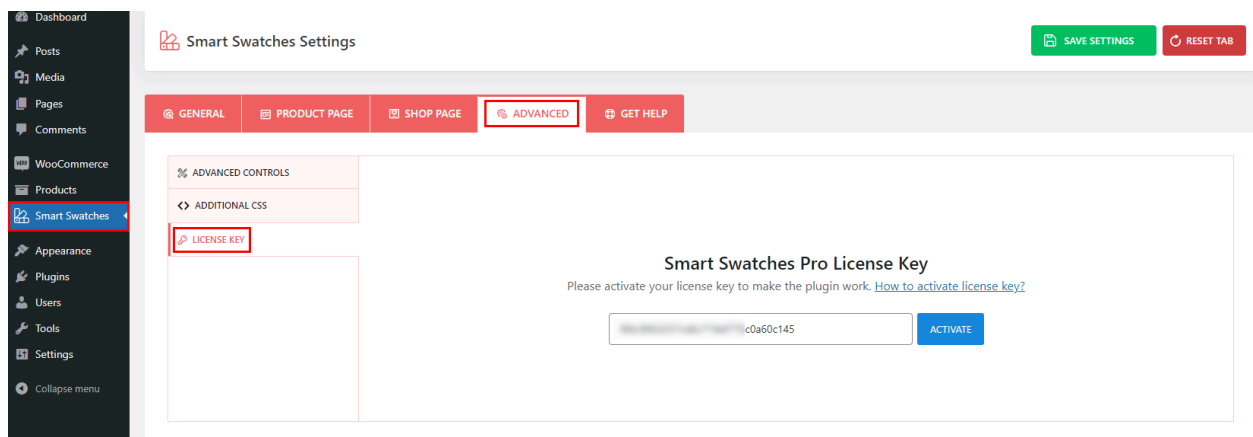

https://www.youtube.com/watch?v=GPmxwa1SEVg&t=4s&ab_channel=ShapedPlugin

Activating License Key

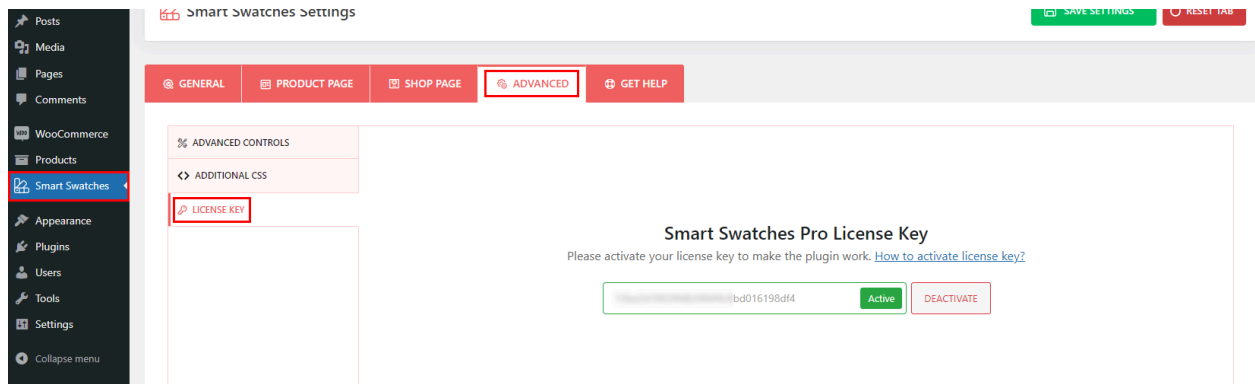

You must activate the license key to make the [Smart Swatches Pro](#) plugin work, get automatic updates & support. After your purchase, a receipt email will be sent to your inbox (of the email ID you used to purchase). That email includes the following things:

- Download link of Pro version (You can also find your purchased license key from your [account](#)).
- Purchase receipt ID.
- Your license key.
- Documentation and video tutorial links.

After installation and activating the plugin, you will be redirected to the following License Key input Settings page to activate the license key. You need to input the license key and click on the Activate button.

License Key Activated: After activating the licensee, you'll see the following screen.

Updating

You can update the plugin in two ways:

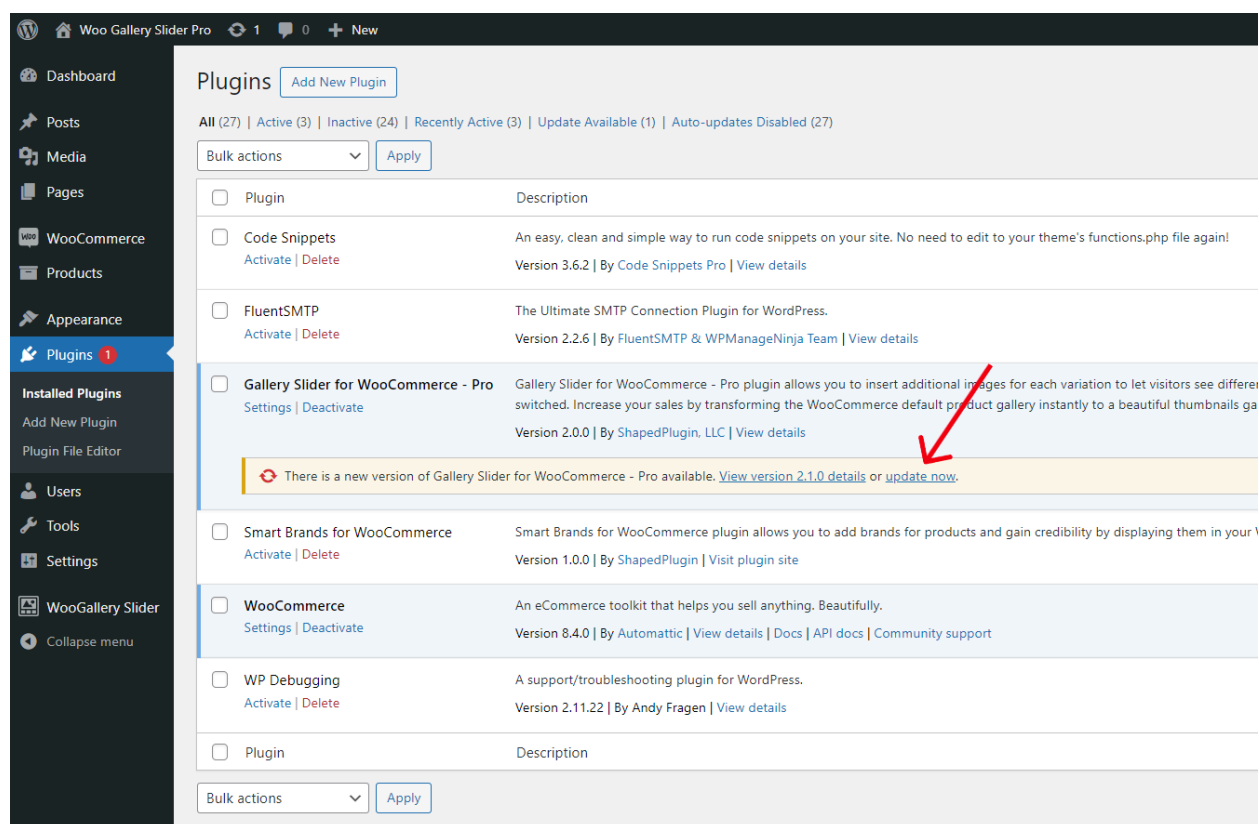

1. Manual Update

If you want to update the plugin to the latest version, please follow the below instructions:

- Deactivate and delete the existing version.
- Download the latest version from [My Account](#) → Dashboard → File Downloads.
- Install the plugin as usual.
- No data will be lost. All the previous shortcode settings will be carried to the latest version.

2. Automatic Update (One-Click)

- If you activate the license key once, you'll get regular update notifications on your plugin dashboard when an update is available. Simply just update!

If you encounter any difficulties using the latest version, please contact us in our active [Support Forum](#). Our expert Support Engineers will be glad to assist you quickly.

Admin Panel Menu Intro

Smart Swatches Pro Admin Panel Menu:

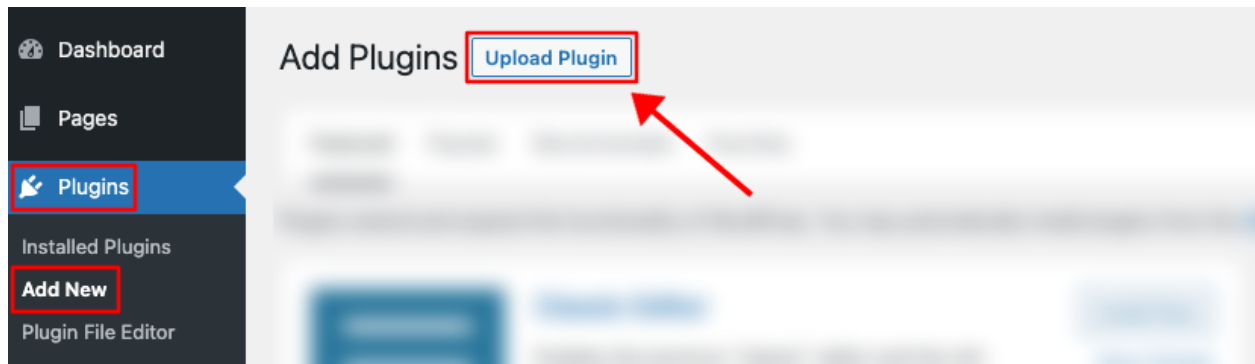

Quick Start Guide:

After purchasing the plugin, you may look forward to a quick guide where you will get all the information from installation to displaying the Smart Swatches on your Shop page and the product's single page. In this article, you will get step-by-step guidelines to use the plugin in no time.

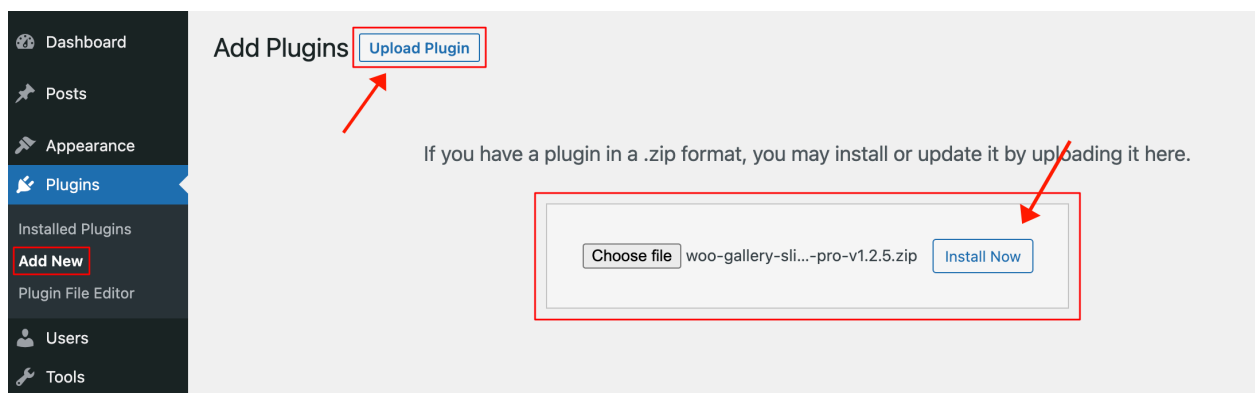

Installation

After downloading the plugin, you'll find the files in a zip folder on your computer named smart-swatches-pro.zip. Please follow the steps below to install the “Smart Swatches Pro” version.

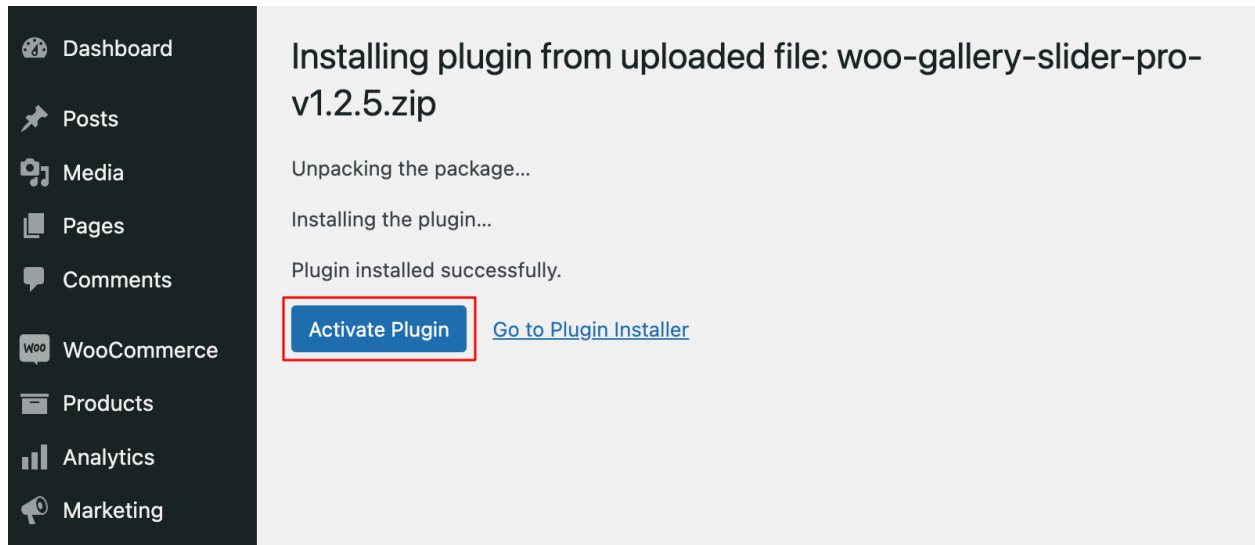

1. Go to your WordPress website Dashboard.
2. Navigate to Plugins → Add New → Upload Plugin.

3. Once you click the “Upload Plugin” button, you will get the plugin upload option from your computer. Select the “smart-swatches-pro.zip” file from your computer and click the “Install Now” button.

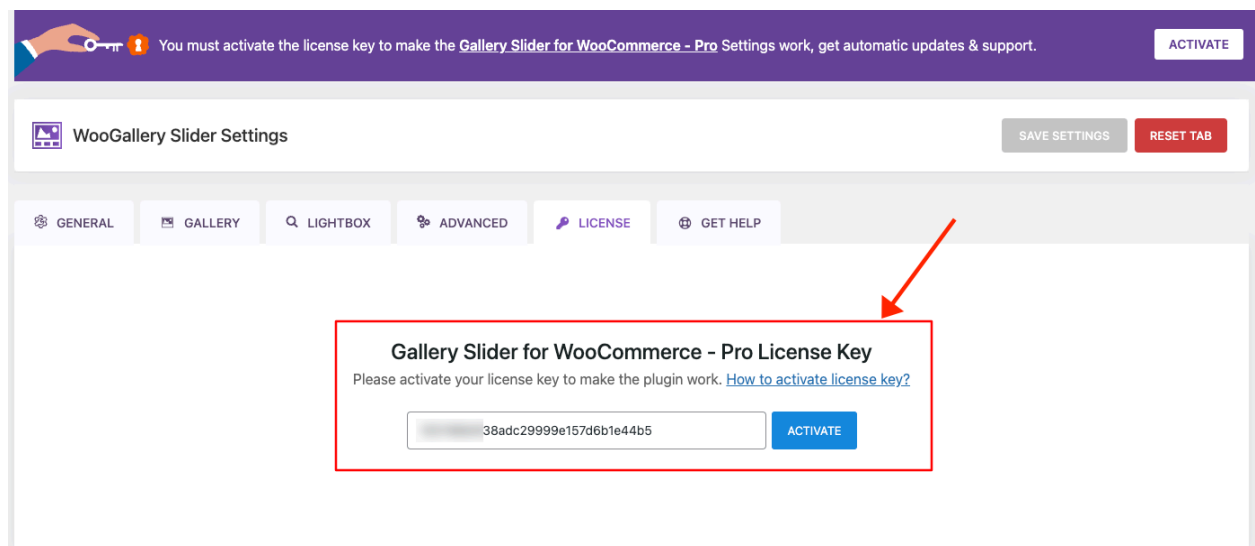

4. After successfully installing the plugin, click “Activate Plugin “ to activate the plugin.

License key Activation

After activating the plugin, you will be redirected to the License Activation page. Get the License key from your [Shapedplugin account](#) and insert it into the License Activation Field.

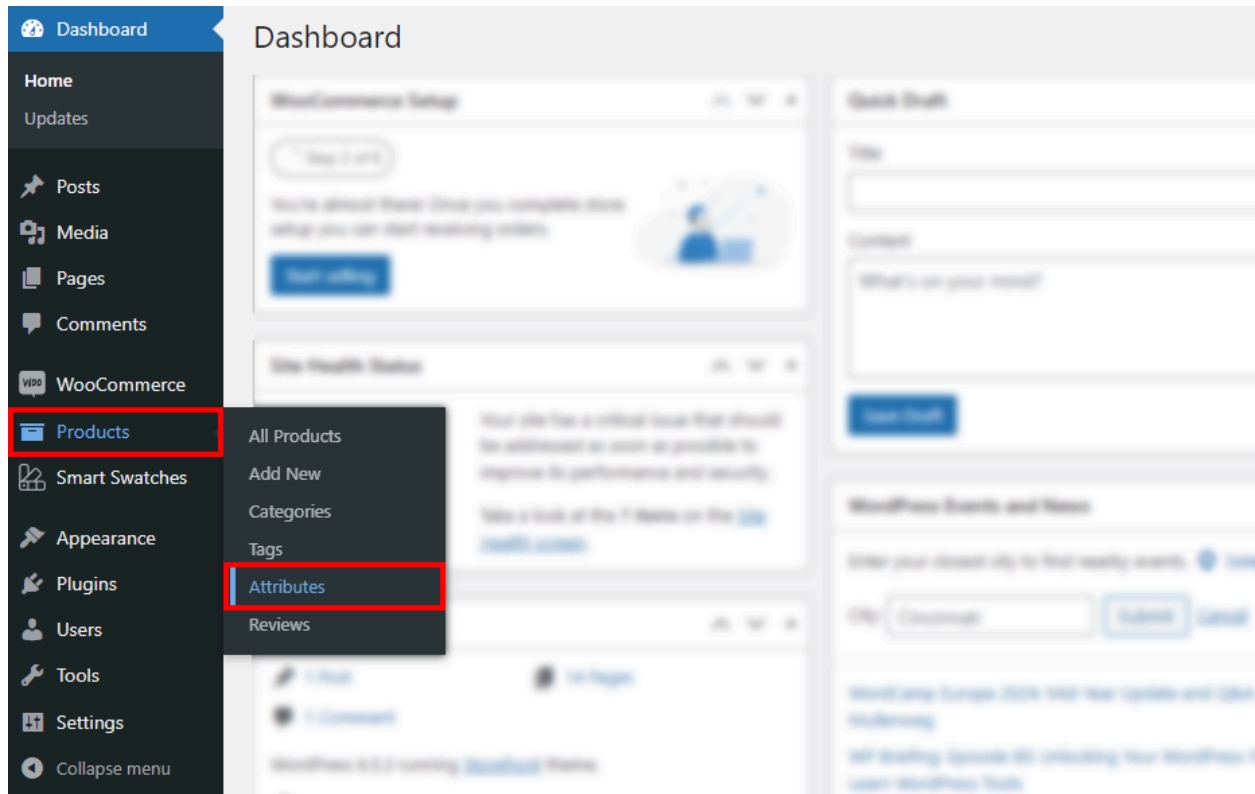

After activating the License Key, you are ready to show the variation swatches of your products.

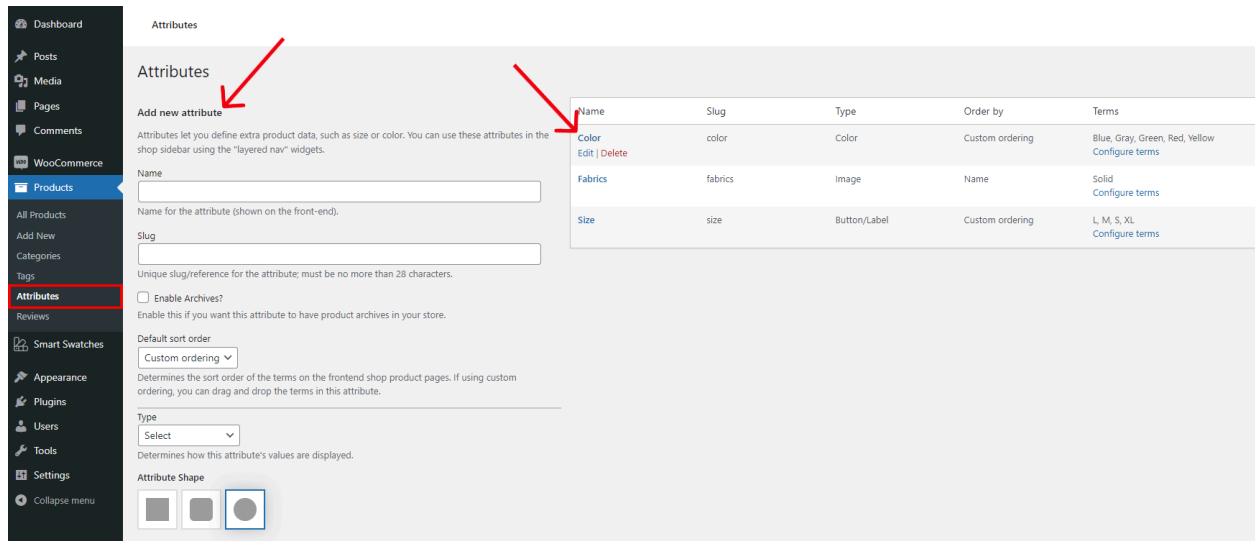

Configuring Attributes

If you do not add or configure the attributes after installing the plugin, variable products will still show dropdowns. Follow the steps below to configure the attributes:

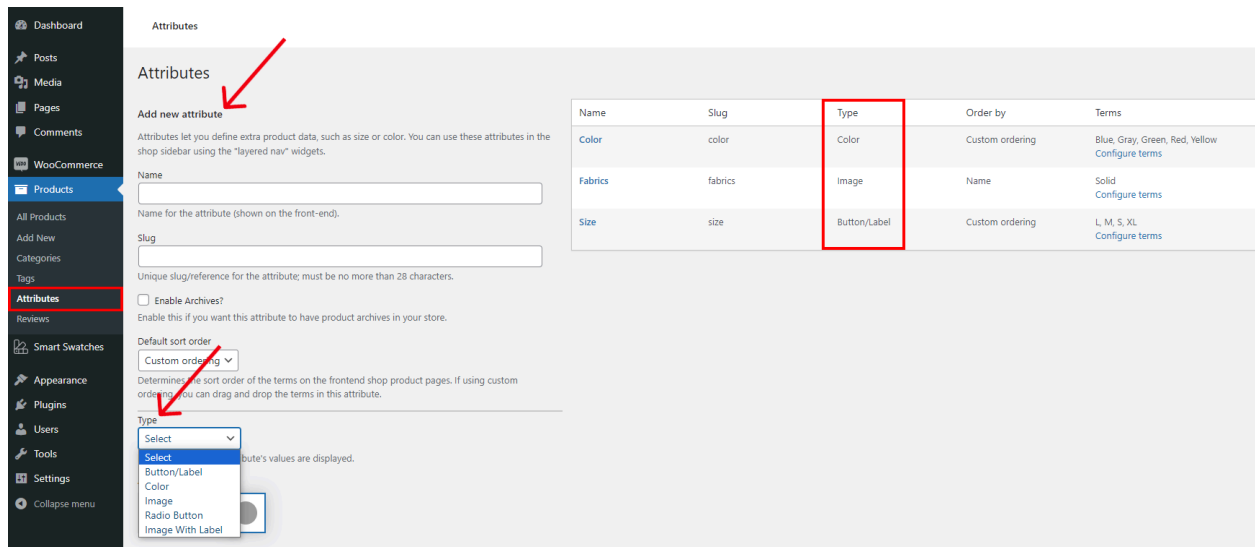

1. Log in to your WordPress dashboard, navigate to the Products menu, and click Attributes.

2. Click the attribute name to edit an existing attribute, or add a new attribute from the the Add New Attribute form, you will see the default Type selector.

3. Click on the Type selector to change the attribute's type. There are 5 options available: Button/Label, Color, Image, Radio Button, and Image With Label to choose. Select the suitable type for your attribute and click Add attribute.

4. Click on Configure terms to add new terms or to edit existing terms. After editing, you will see a button at the bottom, such as Add new Color/Size, etc. (according to the term). Click on it, and you are done.

Attributes

Add new attribute

Attributes let you define extra product data, such as size or color. You can use these attributes in the shop sidebar using the "layered nav" widgets.

Name

Name for the attribute (shown on the front-end).

Slug

Unique slug/reference for the attribute; must be no more than 28 characters.

☐ Enable Archives?
Enable this if you want this attribute to have product archives in your store.

Default sort order

Determines the sort order of the terms on the frontend shop product pages. If using custom ordering, you can drag and drop the terms in this attribute.

Type

Determines how this attribute's values are displayed.

Attribute Shape ☐ ☐ ☒

Name	Slug	Type	Order by	Terms
Color Edit Delete	color	Color	Custom ordering	Blue, Gray, Green, Red, Yellow Configure terms
Fabrics	fabrics	Image	Name	Solid Configure terms

Variation Stock Info 6	<div>ENABLED <input checked="" type="checkbox"/></div>			
Generate Variation URL 7	<input type="checkbox"/>			
Variation Threshold 8	<input type="text" value="30"/>			
Swatch Filter Widget 9	<input type="checkbox"/>			

1) Auto Convert Dropdowns to Button: Check the option to convert the product variations into buttons.

2) Auto Convert Dropdowns to Image: Check the option to convert the product variations into images.

3) Disabled Attribute Styles: Select any of the styles for the disabled attributes.

- Cross
- Blur
- Blur with Cross
- Grayscale
- Hide

4) Disable Out of Stock Attribute: Check this option to disable variation products that are out of stock.

5) Clear on Reselect: Check this option to clear the variation products selection on reselecting a variation.

6) Variation Stock Info: Enable this option to show the variation products stock information.

7) Generate Variation URL: Check this option to generate URL for your variation products.

8) Variation Threshold: Set a limit for the variation threshold. The default value is set to 30. When your variable product has more than 30 variations. You won't be able to visualize which combinations are unavailable to purchase, so the customers need to choose each combination, if unavailable then choose another one and so on. You can increase the threshold to avoid that but keep in mind that, the default way is faster than increasing the threshold.

9) Swatch Filter Widget: Check this option to give your default swatch filter widget a better look.

Configurations:

- **How to generate a product variation URL?**

Generating a product variation URL is super easy with the Smart Swatch Pro plugin.

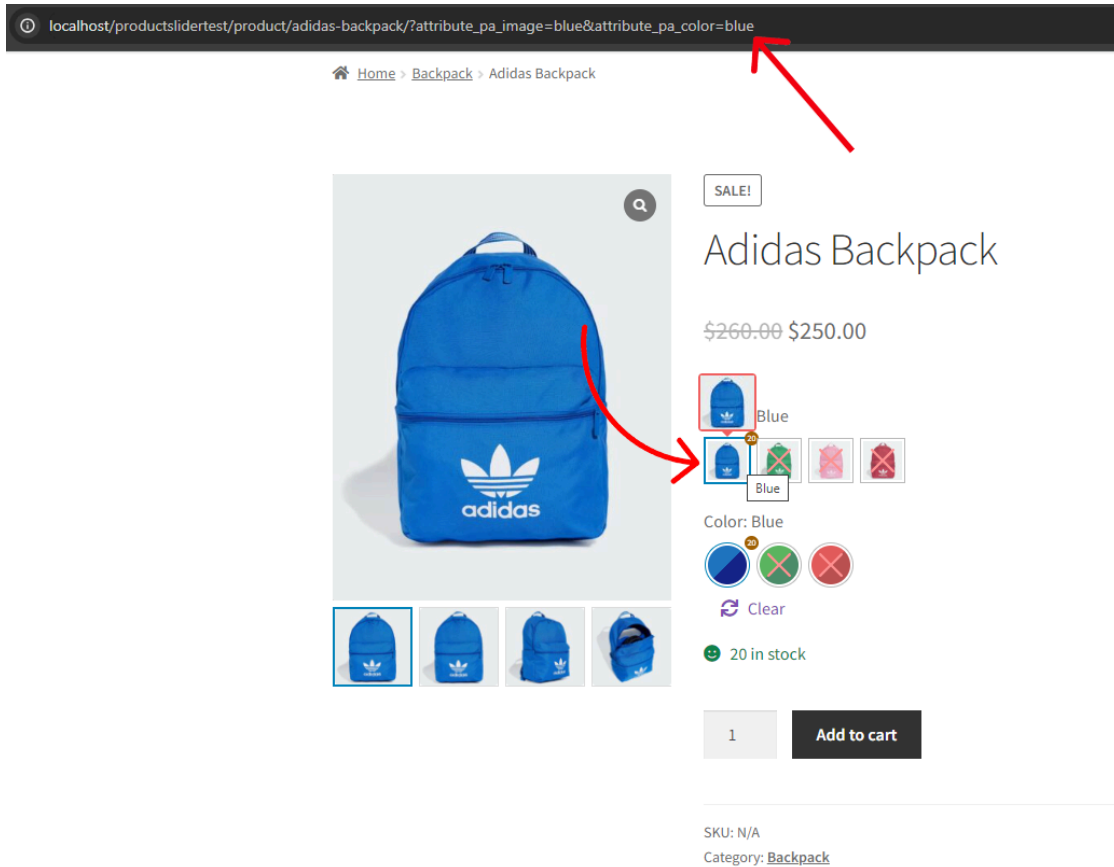

1) From your WordPress Dashboard Menu, navigate to **Smart Swatches > General**.

2) Under the **General** settings tab, you will find the **Generate Variation URL** option. Check the option.

The screenshot shows the 'GENERAL' settings tab for the Smart Swatches Pro plugin. The tab is highlighted with a red box. Below the tabs, there are several settings:

- Auto Convert Dropdowns to Button**: ☒
- Auto Convert Dropdowns to Image**: ☐
- Disabled Attribute Styles**:
 - ☒ Cross
 - ☐ Blur
 - ☐ Blur with Cross
 - ☐ Grayscale
 - ☐ Hide
- Disable Out of Stock Attribute**: ☐
- Clear on Reselect**: ☒
- Variation Stock Info**: **ENABLED** ☐
- Generate Variation URL**: ☒ (highlighted with a red arrow)

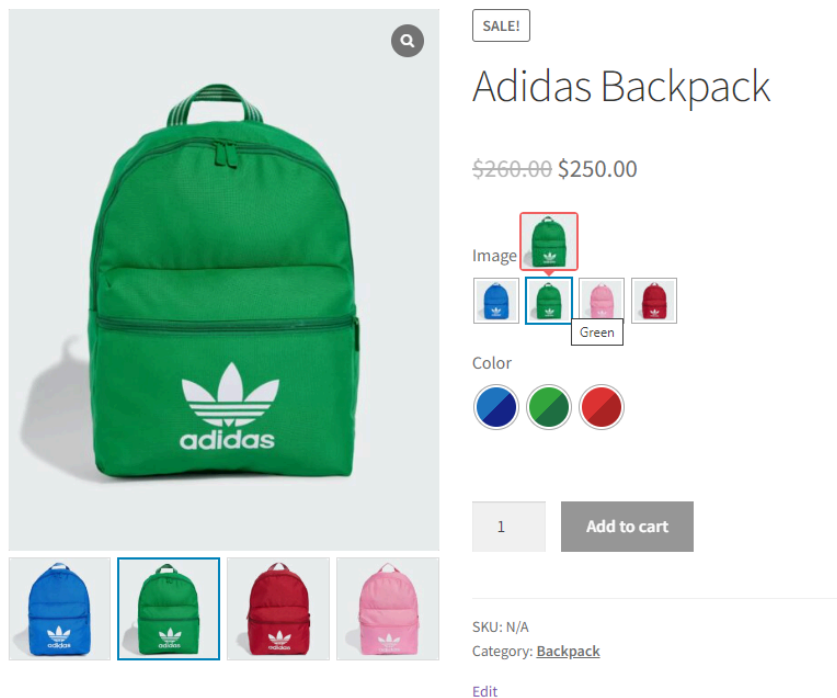

3) Now, you can generate a variation URL from the single product page.

- **How to configure the Tooltips?**

Configuring the tooltips is very easy with the Smart Swatches Pro plugin.

- 1) From your WordPress Dashboard Menu, navigate to **Smart Swatches > General**.
- 2) Under the **General** settings tab, you will find the tooltips option. **Enable the Tooltips** first, and all other options will appear below.

- **How to show selected product variation labels?**

Showing the selected product variation labels is easy with the Smart Swatches Pro plugin.

1) From your WordPress Dashboard Menu, navigate to **Smart Swatches > Product Page**.

2) Under the **Product Page** settings tab, you will find the **Selected Variation Label option**. Enable the option.

3) You will find a field where you can set a **separator** for the label.

The final outlook would be something like this:

- **How To Enable Text Tooltip?**

Enabling text tooltip for the variation swatches is very easy with the Smart Swatches Pro plugin. Follow the instructions below:

1) From your WordPress Dashboard Menu, navigate to the **Products > Attributes** and get into your desired variation **Edit** mode.

The screenshot shows the 'Attributes' page in the WordPress admin. On the left is a sidebar with navigation links: Dashboard, Posts, Media, Pages, Comments, WooCommerce, Products, All Products, Add New, Categories, Tags, Attributes (highlighted with a red box), Reviews, Smart Swatches, Appearance, Plugins, Users, Tools, Settings, and Collapse menu. The main content area is titled 'Attributes' and contains an 'Add new attribute' form. The form includes fields for 'Name' (with a hint: 'Name for the attribute (shown on the front-end)'), 'Slug' (with a hint: 'Unique slug/reference for the attribute; must be no more than 28 characters.'), a checkbox for 'Enable Archives?', a 'Default sort order' dropdown (set to 'Custom ordering'), a 'Type' dropdown (set to 'Select'), and 'Attribute Shape' radio buttons (Square, Circle, Circle with cross, with 'Square' selected). A red arrow points from the 'Name' field to a table of existing attributes. The table has columns: Name, Slug, Type, Order by, and Terms.

Name	Slug	Type	Order by	Terms
Color	color	Color	Custom ordering	Blue, Gray, Green, Red, Yellow Configure terms
Fabrics	fabrics	Image	Name	Solid Configure terms
Image	image	Image	Custom ordering	Blue, Green, Pink, Red Configure terms
Size	size	Button/Label	Custom ordering	L, M, S, XL Configure terms

2) Select **Tooltip Type > Text** and click on **Update**.

The screenshot shows the 'Edit attribute' page for the 'Color' attribute. The sidebar is the same as in the previous screenshot. The main content area is titled 'Edit attribute' and contains a form with the following fields: 'Name' (set to 'Color'), 'Slug' (set to 'color'), 'Enable archives?' (checkbox), 'Default sort order' (dropdown set to 'Custom ordering'), 'Type' (dropdown set to 'Color'), 'Attribute Shape' (radio buttons, with 'Circle with cross' selected), 'Attribute Shape Size' (input set to '40 px'), 'Product Page Display Styles' (input set to 'Default'), 'Shop Page Display Styles' (dropdown set to 'Default'), and 'Tooltip Type' (dropdown menu open, showing options: Text, None, Text, Image, Text & Image, with 'Text' selected). A red arrow points from the 'Shop Page Display Styles' dropdown to the 'Tooltip Type' dropdown. Another red arrow points from the 'Update' button at the bottom left to the 'Text' option in the 'Tooltip Type' dropdown.

3) Go back to the Attributes and click on **Configure terms** to add tooltip text.

1) From your WordPress dashboard navigate to **Smart Swatches > Shop Page**.

2) Under the **Shop Page** settings tab you will find the **Variation Label** option.

3) Click to **Show** the variation label on the shop page. By default it is set to **Hide**.

The final output would be something like below:

● How To Use Product Page Styles To Shop Page?

Using the same styles of the product page to your shop page is pretty simple with the Smart Swatches Pro plugin. Follow the steps below:

1) From your WordPress dashboard navigate to **Smart Swatches > Shop Page**.

2) Under the **Shop Page** settings tab you will find the option **Use Product Page Styles to Shop Page**.

3) **Check** the option and you are done. Your variation swatch styles of the product page will be applied to the shop page as well.

The frontend will look something like below:

• How To Select Different Shapes For Different Attributes?

Variation swatches can be displayed in three different shapes for different attributes. Follow the steps below to do that:

1) From your WordPress Dashboard Menu, navigate to the **Products > Attributes** and get into your desired variation **Edit** mode.

The screenshot shows the 'Attributes' page in the WooCommerce dashboard. On the left is a sidebar with navigation links: Dashboard, Posts, Media, Pages, Comments, WooCommerce, Products (highlighted), All Products, Add New, Categories, Tags, Attributes (highlighted), Reviews, Smart Swatches, Appearance, Plugins, Users, Tools, Settings, and Collapse menu. The main content area is titled 'Attributes' and includes a section for 'Add new attribute' with fields for Name, Slug, and Type, along with checkboxes for 'Enable Archives?' and 'Default sort order'. A red arrow points from the 'Add new attribute' section to a table of existing attributes.

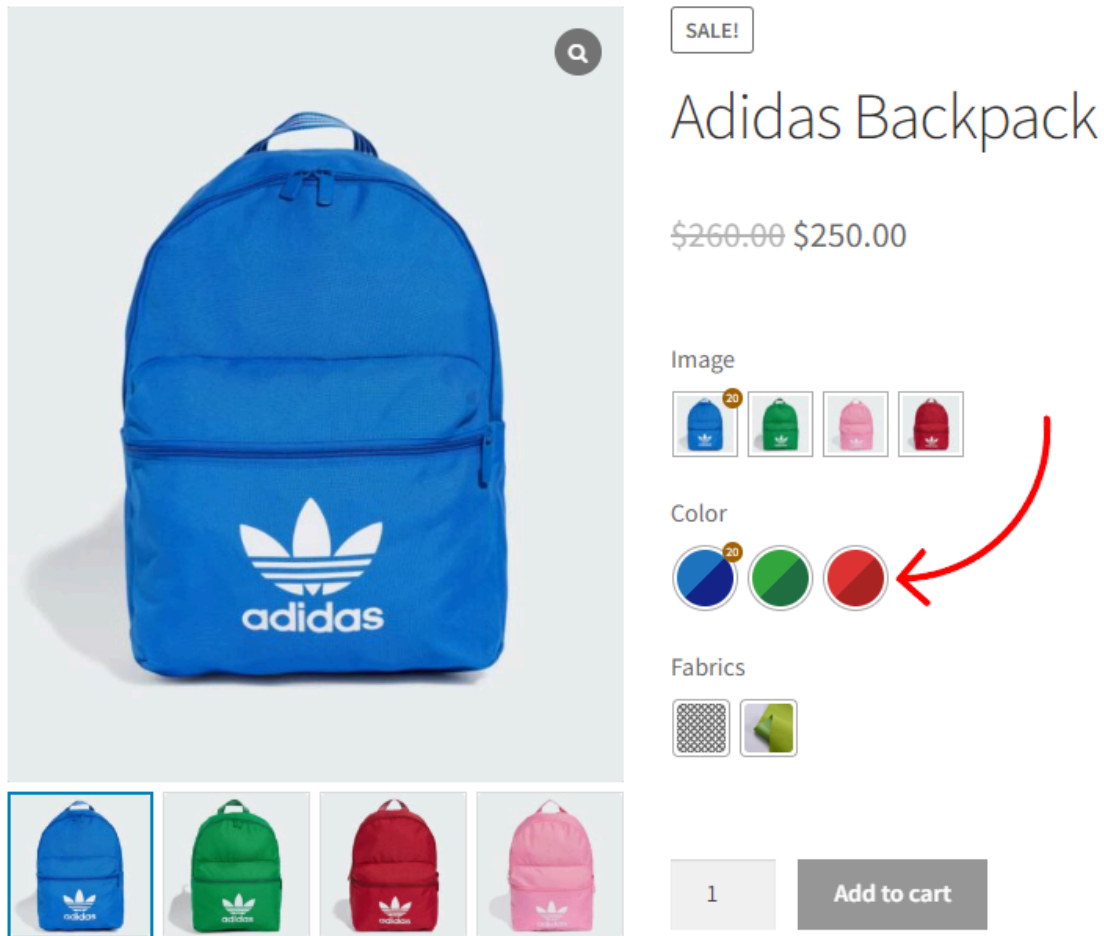

Name	Slug	Type	Order by	Terms
Color	color	Color	Custom ordering	Blue, Gray, Green, Red, Yellow Edit Delete Configure terms
Fabrics	fabrics	Image	Name	Solid Configure terms
Image	image	Image	Custom ordering	Blue, Green, Pink, Red Configure terms
Size	size	Button/Label	Custom ordering	L, M, S, XL Configure terms

2) Select any of the **Attribute Shapes** from three different shapes and click on **Update**.

This screenshot shows the 'Attributes' page with the 'Update' button highlighted by a red arrow. The 'Attribute Shape' section shows three shape options: a square, a rounded square, and a circle. The circle shape is selected and highlighted with a red box and a red arrow. Other settings visible include 'Attribute Shape Size' (40 px), 'Product Page Display Styles' (Default), 'Shop Page Display Styles' (Default), and 'Tooltip Type' (Text).

3) Now, refresh the Single Product Page or Shop Page to see the changes.

The final look would be something like this:

- **How To Show Product Stock Quantity On The Variation Swatches?**

Displaying variation stock quantity on the variation swatches is pretty simple with the Smart Swatches Pro plugin. Follow the steps below to do it:

1) Select your desired product from the **Products > All Products** page and go to the **Edit Product**.

Dashboard

Products

Products (25) | Published (25) | Sorting

Bulk actions Apply Select a category Filter by product type Filter by stock status Filter

<input type="checkbox"/>	Name	SKU	Stock	Price	Categories
<input type="checkbox"/>	Adidas Backpack ID: 203 Edit Quick Edit Trash View Duplicate	–	In stock	\$260.00 \$250.00	Backpack
<input type="checkbox"/>	WordPress Pennant	wp-pennant	In stock	\$11.05	Decor
<input type="checkbox"/>	Logo Collection	logo-collection	In stock	\$18.00 – \$45.00	Clothing
<input type="checkbox"/>	Beanie with Logo	Woo-beanie-logo	In stock	\$20.00 \$18.00	Accessories
<input type="checkbox"/>	T-Shirt with Logo	Woo-tshirt-logo	In stock	\$18.00	Tshirts
<input type="checkbox"/>	Single	woo-single	In stock	\$3.00 \$2.00	Music
<input type="checkbox"/>	Album	woo-album	In stock	\$15.00	Music
<input type="checkbox"/>	Polo	woo-polo	In stock (200)	–	Tshirts
<input type="checkbox"/>	Long Sleeve Tee	woo-long-sleeve-tee	In stock	\$25.00	Tshirts

2) Now open your existing product variations and set the value in the **Stock Quantity** field.

3) Refresh the **Single Product Page** or the **Shop Page** to see the changes.

The final look would be something like this:

Language and Localization:

Managing License:

License Applicable

According to our license terms, a customer can use the plugin on the live site(s) specified in his package. A personal package holder can activate the plugin only on one live site. So, he can't reuse the plugin on another site. If a user desperately needs the plugin for his new site, he must upgrade his license or buy a new package.

*** Before using the plugin on the live site(s), a customer can use the plugin on some under construction fields like →

- **localhost**
- **10.0.0.0/8**
- **172.16.0.0/12**
- **192.168.0.0/16**
- ***.dev**
- ***.test**
- **.*local**
- **dev.***
- **staging.***
- **staging-.***
- ***.staging.site**
- ***.wpengine.com**
- ***.preview-domain.com**
- ***.wpenginepowered.com**
- ***.mystagingwebsite.com**

Sub-domain or multisite: If you are using a sub-domain in the same WordPress installation as a WordPress multisite, then you can use the plugin both on the main site and that sub-domain site. If you are using a different installation of WordPress for a

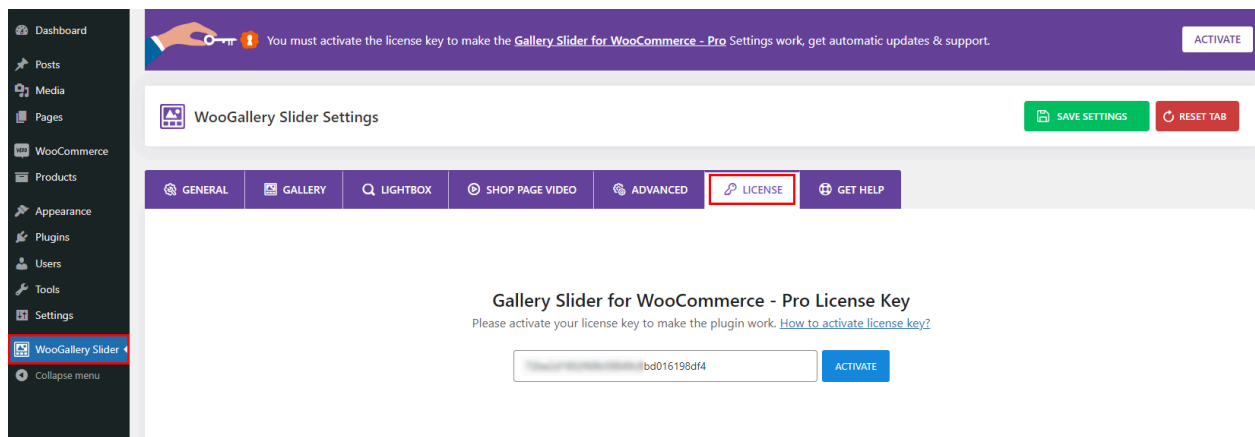

sub-domain, then you can't use a single site license for that sub-domain. In this case, you have to buy a new single-site license for that sub-domain.

License Activation

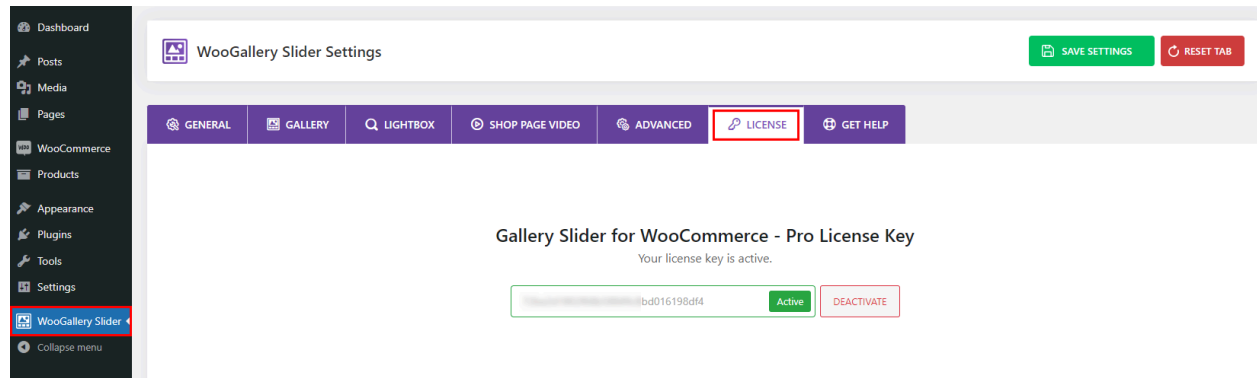

You must activate the license key to make the [Smart Swatches](#) plugin work, get automatic updates & support. After your purchase, a receipt email will be sent to your inbox (of the email ID you used to purchase). That email includes the following things:

- Download link of Pro version (You can also find your purchased license key from your [account](#)).
- Purchase receipt ID.
- Your license key.
- Documentation and video tutorial links.

After installation and activating the plugin, you will be redirected to the following License Key input Settings page to activate the license key. You need to input the license key and click on the Activate button.

License Key Activated: After activating the licensee, you'll see the following screen.

License Renewal

If you are trying to renew your paid plugin license, but not sure how? This tutorial will explain to you the steps to renew any paid plugin license from ShapedPlugin. It is important to renew your license in order to get technical support and important version updates for your purchased plugins.

Renewing an Expired License

In order to renew your expired license, first, you'll need to log into your [ShapedPlugin](#) account.

If a license has expired for any of your paid plugins, you will see an expiration notice in your account Dashboard → My Subscriptions → Status → Expired. To renew the license click the Renew button.

The screenshot shows the 'My Account' page of the ShapedPlugin website. The top navigation bar includes links for Home, Plugins, Support, Showcase, Blog, About, and a shopping cart icon. The 'My Account' dropdown menu is open, showing options for Dashboard, Affiliate Area, and Logout. On the left sidebar, the 'My Subscriptions' link is highlighted with a red arrow. The main content area is titled 'My Subscriptions' and contains a table with two rows of subscription data. The first row is for 'Product Slider for WooCommerce' with a status of 'Expired' and a 'Renew' button. The second row is for 'Category Slider for WooCommerce' with a status of 'Cancelled' and a 'Renew' button. A red arrow points to the 'Renew' button for the 'Product Slider for WooCommerce' subscription.

Subscription	Status	Renewal Date	Initial Amount	Actions	Billing Info
Product Slider for WooCommerce Personal (1 Site) – \$31 / Yearly	Expired	Dec 17, 2021	\$39	Renew	
Category Slider for WooCommerce Personal (1 Site) – \$31 / Yearly	Cancelled	Dec 17, 2021	\$39	Renew	

After clicking this renewal button, a checkout page will appear. Here, you will see a notice about “Renew an existing license?” Click on this, enter your existing license key, and click Apply Renewal. Now, choose a payment method and complete the purchase.

Apply Renewal

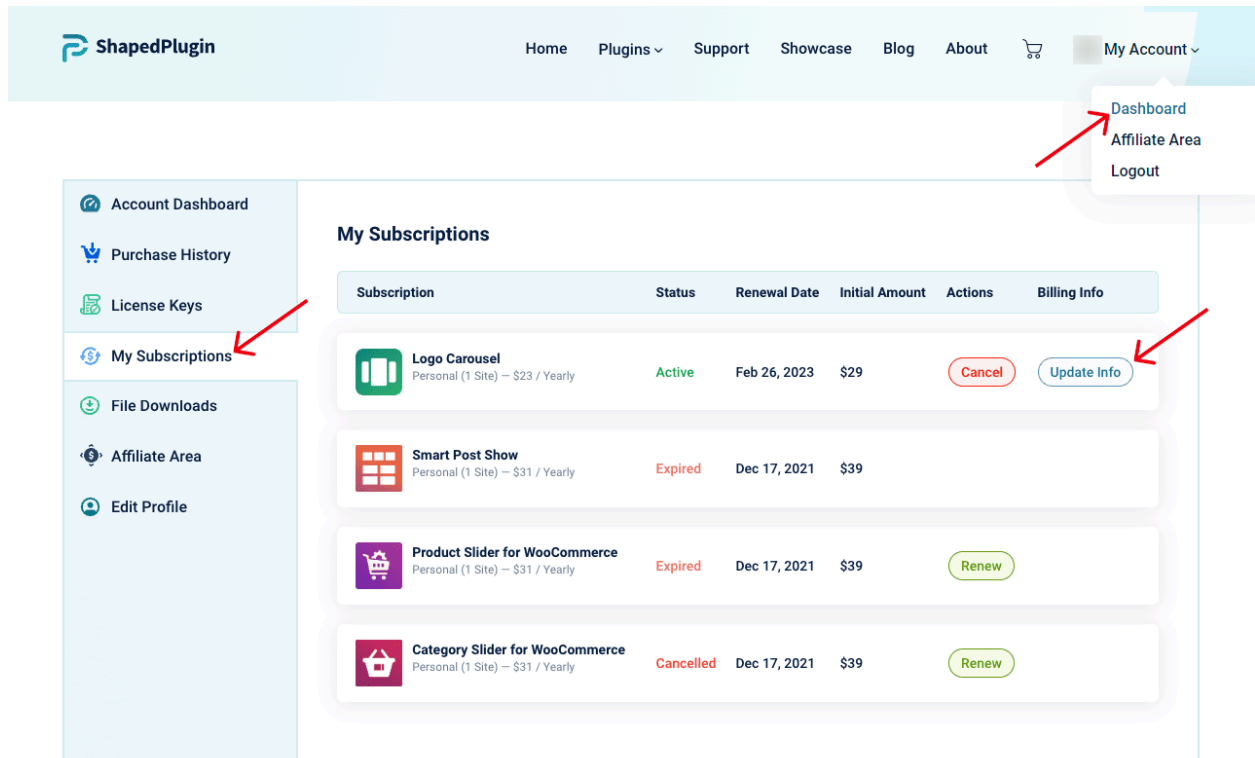

You may renew multiple license keys at once.

Once the checkout process is done, your license will be renewed.

Resolving Renewal Payment Failure

If the auto-renewal of your license is unable to process for any reason, you will receive an email from our team informing you of the issue.

To resolve this problem and renew your plugin's license, please visit your [ShapedPlugin](#) account page right away and update your payment method.

Once your payment method is updated, the renewal will be automatically processed.

License Upgrade

License Upgrading is very simple and easy. You can upgrade “Personal (Single Site)” to “Business (Up to 5 Sites)” or “Agency (Unlimited Sites)” from your [account](#).

If you buy the Personal license (single site) and want to upgrade to the next license, you'll get a discount on your upgrades,

For Example:

- **Business (Up to 5 Sites) – \$149-\$49(discount)=\$100**
- **Agency (Unlimited Sites) – \$249-\$49(discount)=\$200**

License Upgrades Steps:

Please login to your ShapedPlugin account, **My Account**→ [Dashboard](#)→ **Click on License Keys Tab**→ **View Upgrades**→ **Upgrade License**, then check out.

See screenshots for more clarification:

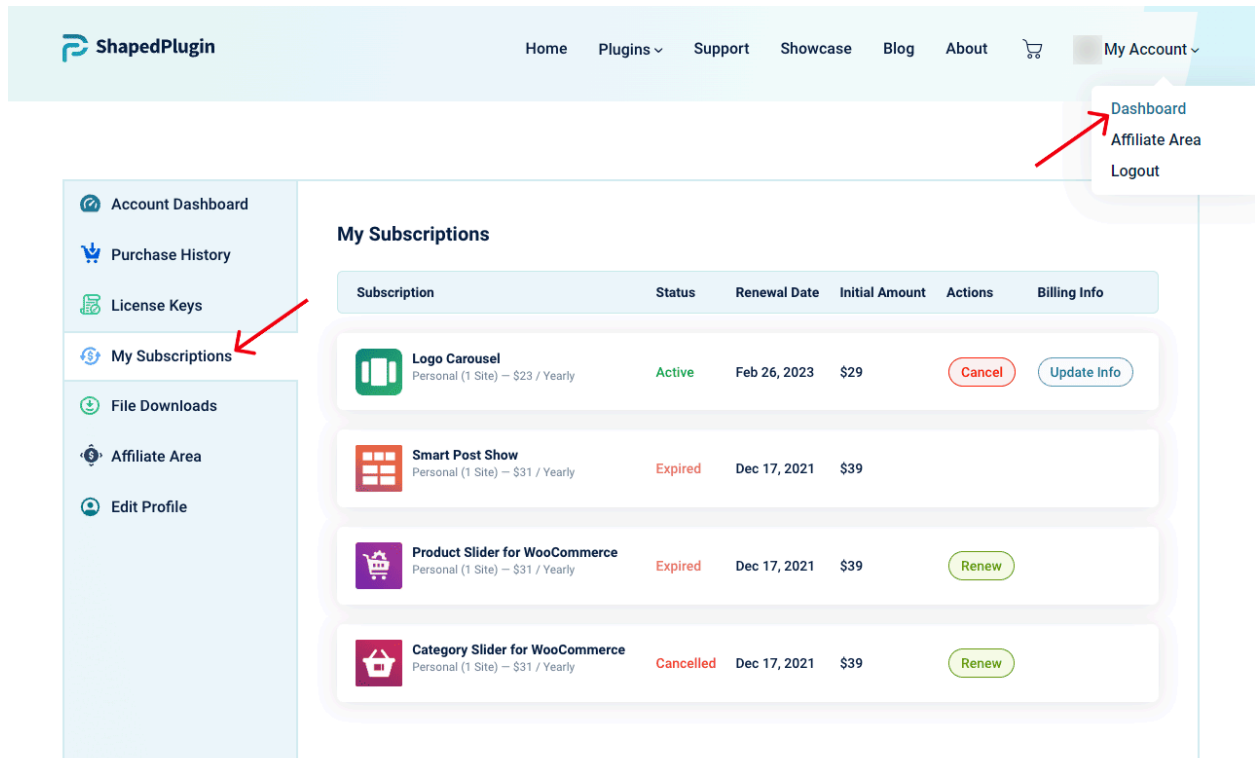

The screenshot shows the ShapedPlugin website's account dashboard. At the top, the navigation bar includes links for Home, Plugins, Bundle, Support, Showcase, Blog, About, and a shopping cart icon. The 'My Account' dropdown menu is open, showing options: Dashboard, Affiliate Area, Discount Codes, and Logout. A red arrow points to the 'Dashboard' option. On the left sidebar, the 'License Keys' option is selected, with a red arrow pointing to it. The main content area is titled 'License Upgrades' and features a 'Go back' button. Below this, there's a section for 'Gallery Slider for WooCommerce Pro'. A table lists available license upgrades with columns for 'Upgrade License Type', 'Upgrade Cost', and 'Actions'. Each row has an 'Upgrade License' button, with a red arrow pointing to the button in the first row.

Upgrade License Type	Upgrade Cost	Actions
Business (5 Sites)	\$70.00	<button>Upgrade License</button>
Agency (Unlimited Sites)	\$260.00	<button>Upgrade License</button>
Personal (1 Site) Lifetime	\$200.00	<button>Upgrade License</button>
Business (5 Sites) Lifetime	\$470.00	<button>Upgrade License</button>
Agency (Unlimited) Lifetime	\$860.00	<button>Upgrade License</button>

Manage Your Subscriptions

If you don't see the advanced features of our ShapedPlugin plugins even though you have purchased a Pro Yearly plan, chances are your license has expired. You can review your subscriptions from your ShapedPlugin account area (<https://shapedplugin.com/account/subscriptions/>) easily.

From the My Subscriptions tab, you can see a list of the plugins you have purchased from our Website. From there you can review your subscriptions, review renewal date, validity status, and other information.

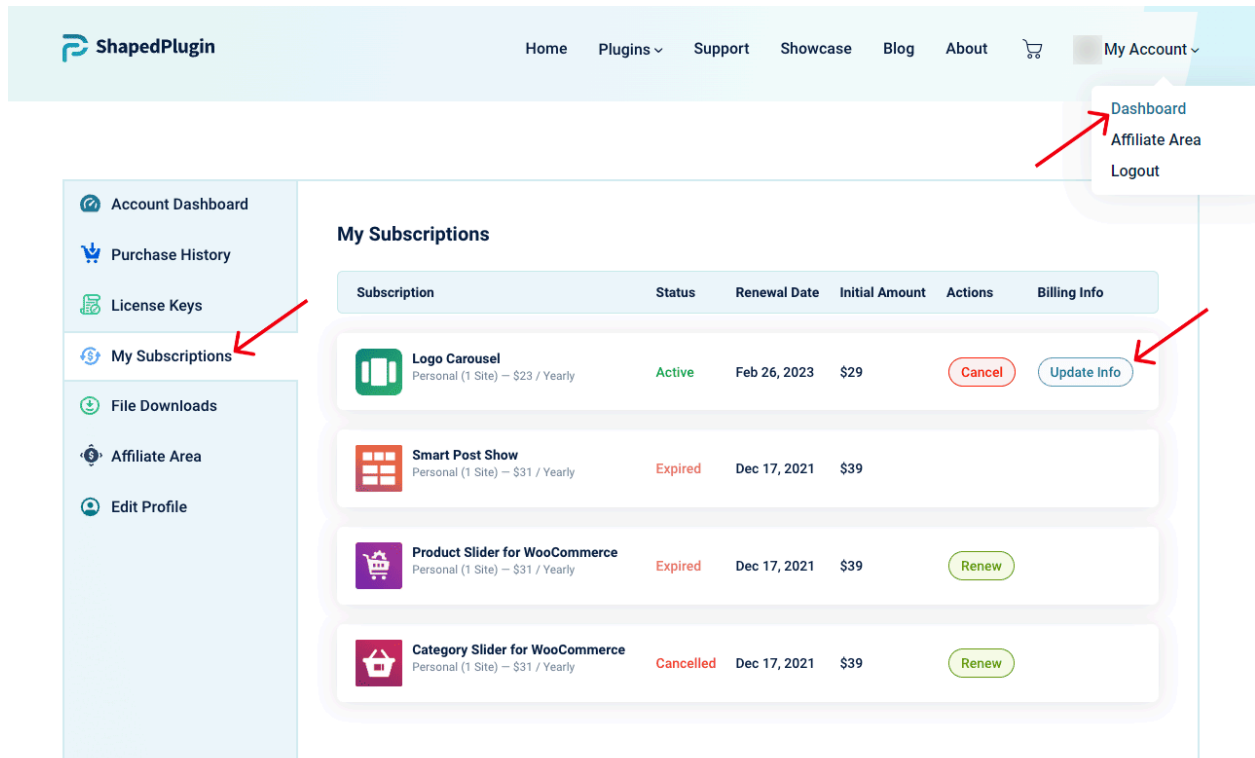

If you face any issues to upgrade your license, please [let us know](#). We'll be happy to assist you!

Thank you!

Update Billing Info

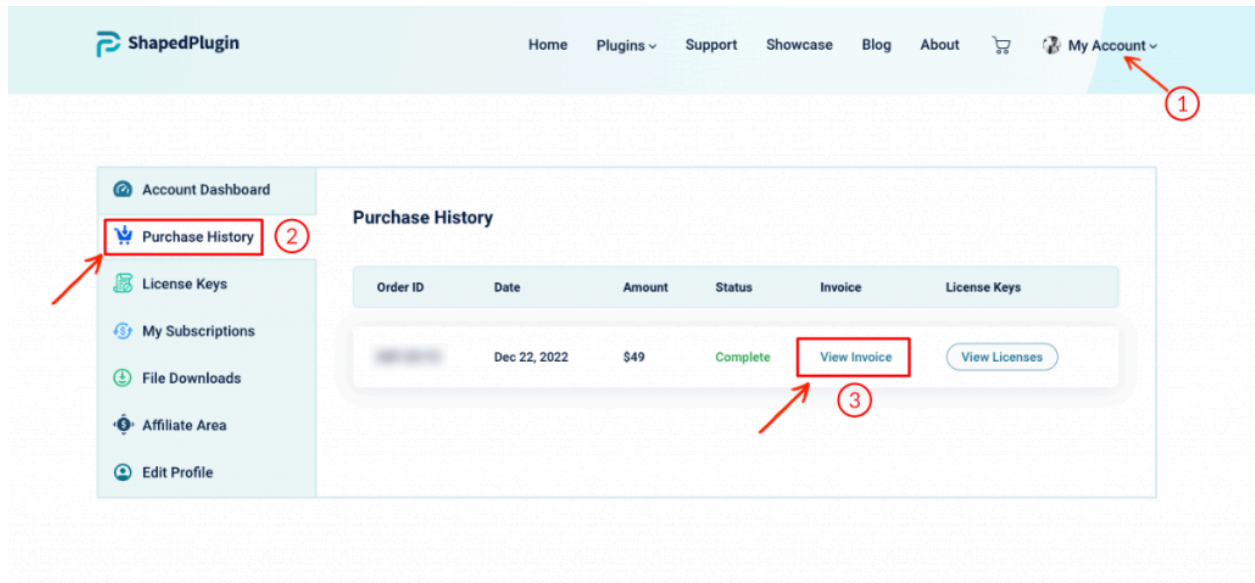

After purchasing the plugin, if you need to change or update the billing information for any reason, you can do it easily by going to [My Account](#) → **Dashboard** → **My Subscriptions** → **Billing Info**. From here, you can easily update your billing information.

Get Invoice

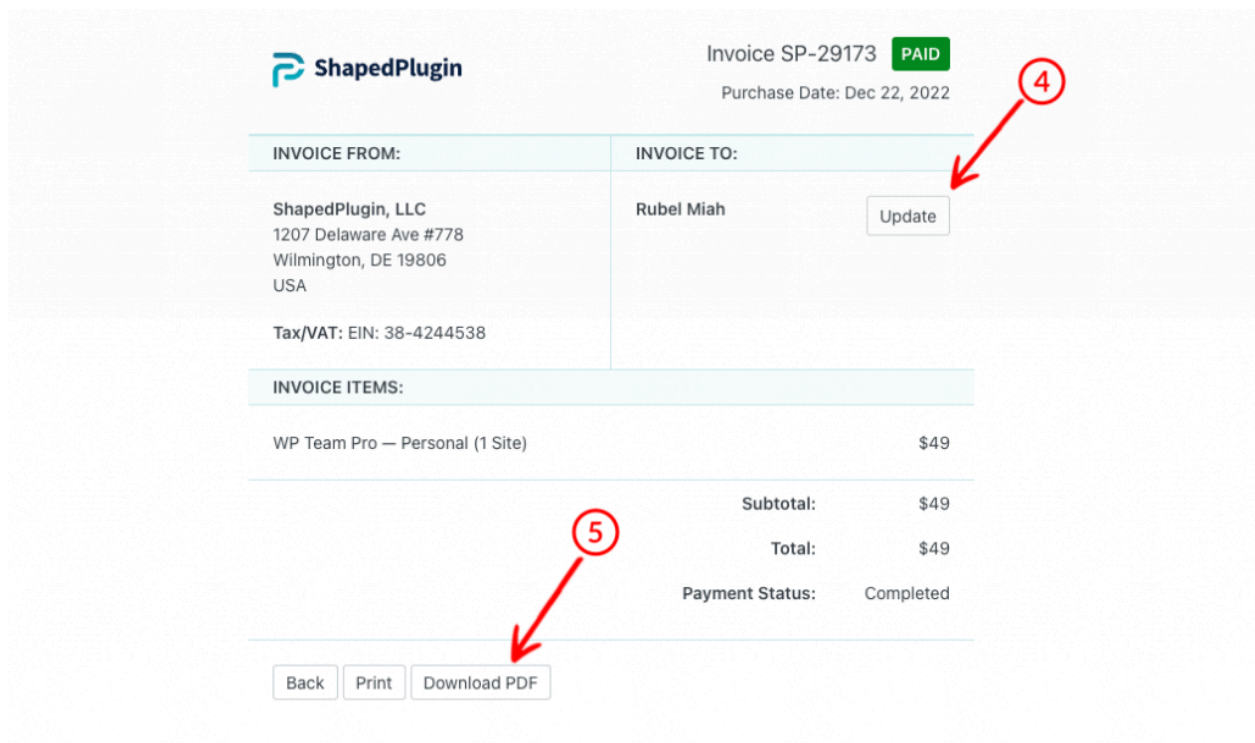

You may need to view or download an invoice as a customer at any moment that includes your billing information, including name, address, Order Number, Billing Date, and VAT details. Getting an invoice for your purchase order(s) is very simple by following the steps below.

1. Log into your [ShapedPlugin Account](#).
2. Navigate to Purchase History.
3. Click on View Invoice.

4. Click on “Update” to edit billing details.

5. You can download the Invoice as PDF.

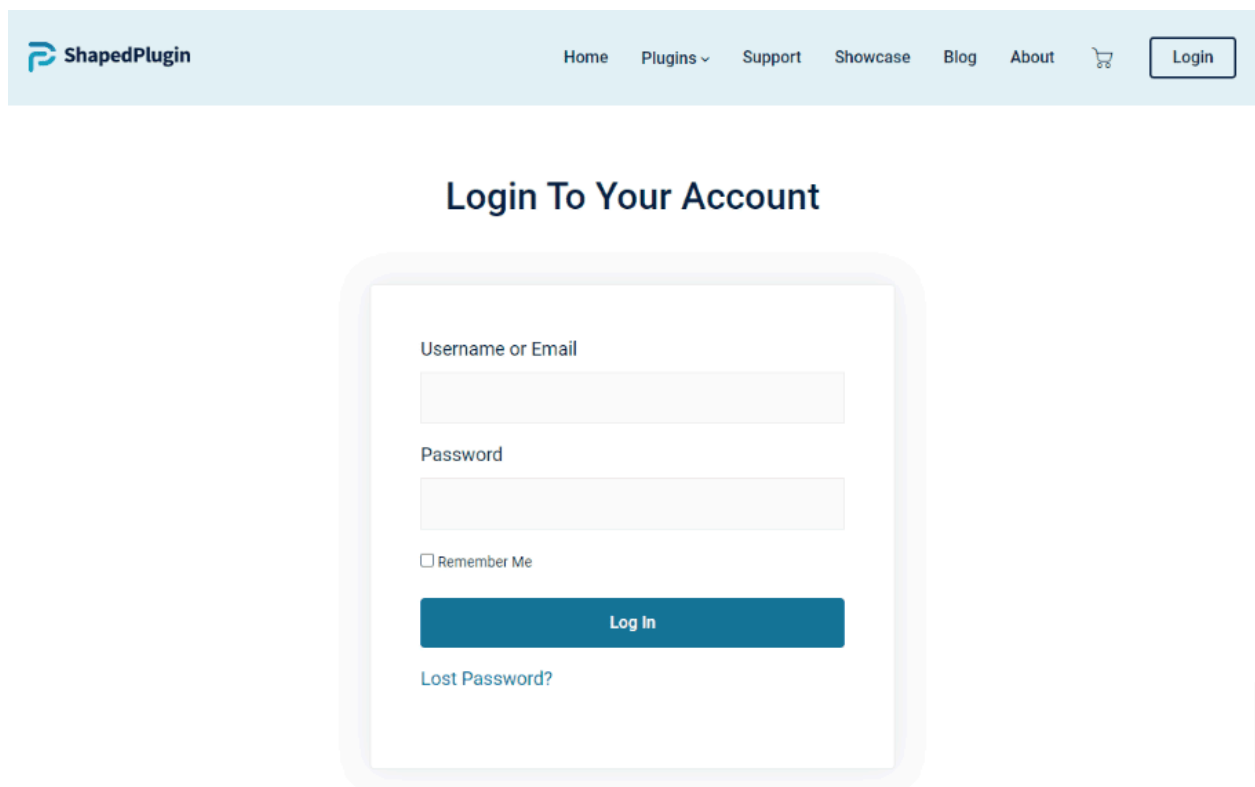

Video Tutorials:

Upgrading to Pro:

If a user upgrades the plugin from the FREE version to the PRO version, She/He has to download and install the Pro version manually. The Pro version won't be installed automatically.

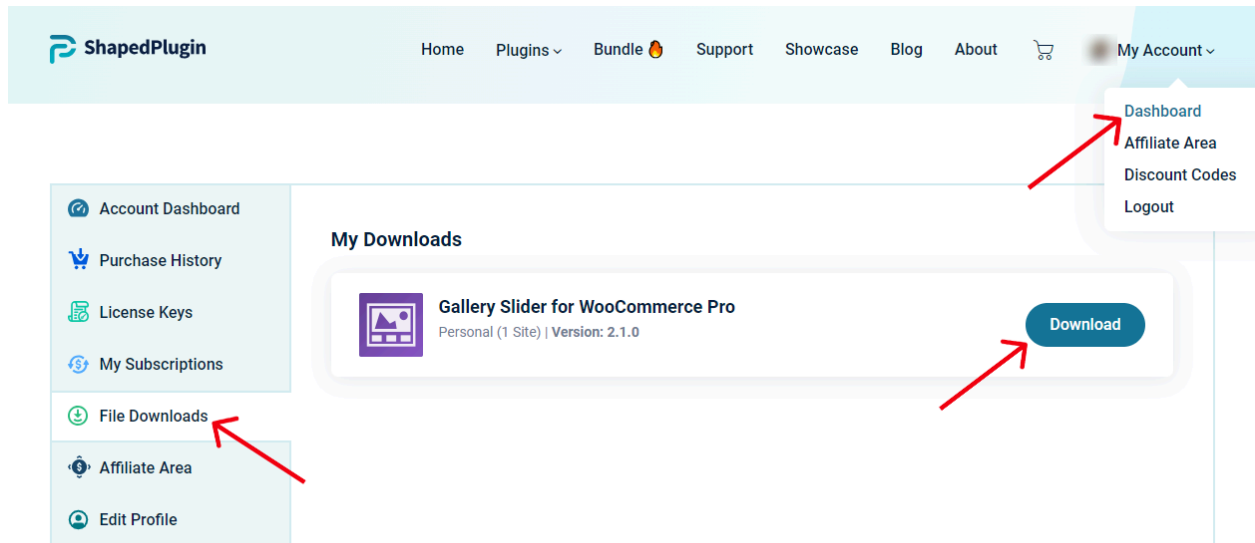

Instructions:

1. Log into your [ShapedPlugin](#) account.

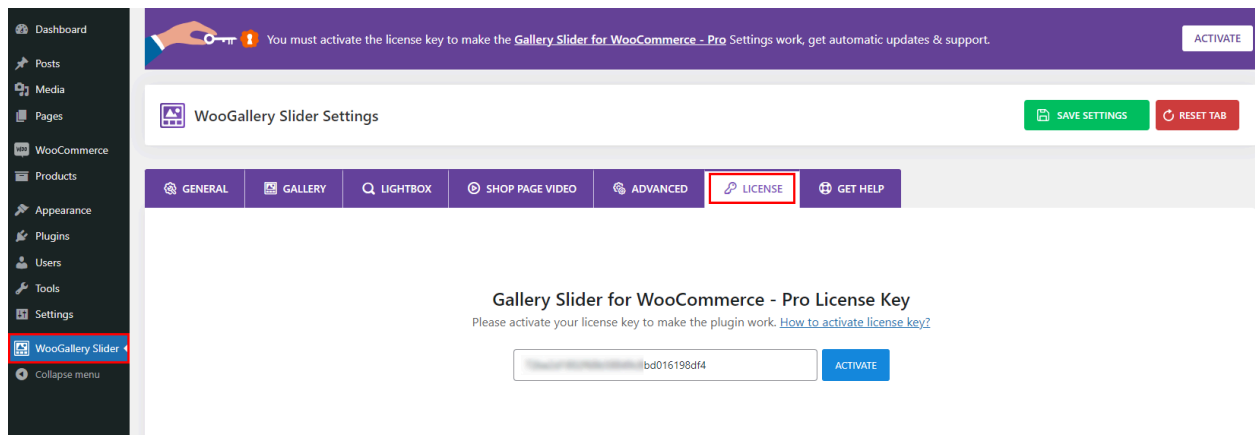

The screenshot shows the ShapedPlugin website's login page. At the top is a light blue navigation bar with the ShapedPlugin logo on the left and links for Home, Plugins (with a dropdown arrow), Support, Showcase, Blog, About, a shopping cart icon, and a Login button. Below the navigation bar is a large white box with a light blue border and rounded corners. Inside this box, the heading "Login To Your Account" is centered at the top. Below the heading are two input fields: "Username or Email" and "Password". Below the password field is a checkbox labeled "Remember Me". A blue "Log In" button is positioned below the checkbox. At the bottom of the login form is a link that says "Lost Password?".

2. Download the pro version from [My Account](#) → Dashboard → File Downloads.

3. Install the Pro version as usual and activate the license key.

4. Deactivate and delete the FREE version (if you want).

Rate Smart Swatches Pro:

If you are happy with the Smart Swatches Pro plugin and our support, we would be grateful for your feedback with a 5-star rating on the [ShapedPlugin](#).

We hope you enjoy using Smart Swatches Pro and be sure to note that we are always trying to make it better.

Thanks so much in advance!

Pre-sale Questions:

If you have any pre-sale queries regarding the plugin before going to premium, please ask us [here](#)→ without hesitation. We'll be happy to answer your all questions.

Thank you!
