Course Introduction

Watch the [course introduction video](#) or read the video [transcript](#) for a brief introduction to the course.

Course Description

Family and Consumer Science equips students with essential knowledge and practical skills to thrive in both family life and the workplace in today's dynamic world. The course focuses on developing key competencies in areas such as personal and family relationships, healthy lifestyle choices, housing and interior design, clothing care and construction, child development, nutrition and meal preparation, as well as home and financial management. Students will also engage with leadership principles through Family, Career and Community Leaders of America (FCCLA). By the end of the course, students will be prepared to make informed decisions and positively impact their personal lives, families, and communities.

Course Level Objectives

The objectives for this course include the following:

- CLO 1: Connect the benefits of active participation in Family, Career and Community Leaders of America (FCCLA) to personal leadership development
- CLO 2: Assess the importance of making positive choices for your family, health, and relationships.
- CLO 3: Apply various techniques to establish a well-maintained home.
- CLO 4: Demonstrate wardrobe care, selection, and construction techniques.
- CLO 5: Investigate child development concepts and related parental responsibilities..
- CLO 6: Evaluate the role of nutrition, meal planning, and food preparation in achieving overall health and wellness.
- CLO 7: Assess the benefits of successfully developing sound consumer and personal finance strategies
- CLO 8: Connect content knowledge of Family and Consumer Sciences to workforce skills.
