

## INNOVATION NIGHT 2018

We want to invite all students, 2-12 to consider submitting an application for the NCPS **Innovation Night**, to be held on April 4th, 2018.

Innovation Night is a fantastic opportunity for students to share personal investigations into new and exciting areas of science, technology, engineering, and more!. Students can combine their problem-solving skills with their personal passions to create innovative solutions to real-world challenges.

Participation is open to all students in grades 2-12. Interested students should go to the [Innovation Night](#) link, under the District Information tab found on the NCPS home page.

Applications are due by January 24th. Once a student's application is accepted, faculty and staff were available to provide any support they may need to prepare their project for a successful presentation at Innovation Night.

New This year! We also have a Innovation **Night Logo Design Contest**, where students have an opportunity to design the logo that will be used on *all* 2018 Innovation Night materials. Details about this contest can also be found in the [Innovation Night](#) link as well.

Innovation Night will take place at New Canaan High School on Wednesday, April 4, from 6:30 to 8:00 p.m. Exhibitors will be presenting in the Wagner Room, NCHS cafeteria and in the main entrance hallway. The NCHS planetarium will also open for three showings of the night sky. Free tickets for the planetarium shows will be available. Admission to NCPS Tech Night 2018 is free and open to everyone.

If you have any questions, please contact the Technology Integrator in your building.
