

# Recycling and Repurposing Essay

## Objective

Write a short paper summarizing what you learned about recycling and repurposing.

## Content Requirements

Your paper must include these three parts:

1. **Introduction:** Your introduction paragraph should include an introductory technique and a thesis statement.
2. **Body:** The body of your essay will include one or more paragraphs with information about recycling and repurposing materials for art and other products.
3. **Conclusion:** In the conclusion, you will restate your thesis and summarize your body.

## Grammatical Requirements

To demonstrate understanding of the grammar you learned in this lesson, your paper must include:

- Two sentences that use commas with items in a series.
- Three sentences that include commas with introductory elements.
