

Pass Hunter - Community Guide

Welcome to Pass Hunter, the game where you can hunt, claim rewards, and utilize NFT boosts to maximize your potential earnings! This document provides a comprehensive overview of the gameplay mechanics, features, and FAQs for community members. Let's dive in!

Overview of Pass Hunter

Pass Hunter is a community-focused blockchain game that uses Discord commands to let users hunt, earn BXW tokens, and enjoy boosts from their NFTs. The game operates on the WAX blockchain and is accessible to anyone with a WAX wallet.

Core Features

- **Hunting:** Participate in hunts to earn rewards.
 - **Claiming:** Withdraw your earned **BXW** tokens directly to your WAX wallet.
 - **Boosts:** Use eligible NFTs to enhance your hunting experience by increasing rewards and reducing cooldowns.
-

Getting Started

Step 1: Entry to Pass Hunter

- To join Pass Hunter, you need the **Pass Hunter Basic Pack**, which contains:
 1. A **Pass Hunter NTT** (required for registration).
 2. A **Hunter NFT** with a default **Standard Rarity**.

Step 2: Register Your WAX Wallet

- Use the `/register` command in Discord.
Syntax: `/register wax_account:<your_wax_wallet>`
- Requirements for registration:
 - You must hold a **Pass Hunter NTT** in your WAX wallet.
 - The bot will bind your WAX wallet to your Discord ID and verify NFT ownership.

Hunter NFTs and Boost Mechanics

Hunter Rarities

Your **Hunter NFT** comes with one of the following rarities, which determine its maximum boost potential:

Rarity	Max Cooldown Reduction	Max Reward Multiplier
Standard	0%	1x
Common	8%	1.2x
Rare	14%	1.3x
Epic	20%	1.5x
Legendary	36%	1.7x
Mythic	50%	2x

Rarity Upgrades

- Hunters can be upgraded **once** to a higher rarity.
- Once upgraded, the Hunter's rarity is locked and cannot be changed again.

Boost Upgrades

To enhance your Hunter's **boost attributes** (`duration_boost` and `reward_multiplier`):

❖ Common & Rare Rarities

- Use **3 Boosters** (Duration or Reward Boosters) + **any NFT from the blueeyesdesc collection**.
- Example:
 - A Common Hunter with default boosts (`0% duration`, `1x reward`) can be upgraded to **0.8% duration** and **1.2x reward** with:
 - **3 Common Duration Boosters** + any `blueeyesdesc` NFT.
 - **3 Common Reward Boosters** + any `blueeyesdesc` NFT.

❖ Epic, Legendary, & Mythic Rarities

- Use **3 Boosters** (Duration or Reward Boosters) + **a fee** instead of an NFT.
- All the upgrades are organized under categories on neftyblock
 - [Hunter category](#) to upgrade your hunter Rarity.
 - [Duration Boost Category](#) to upgrade cooldown duration.
 - [Reward Boost Category](#) to upgrade reward multiplier.

- Boosts are applied based on the **highest eligible boosts** from all Hunter NFTs in your wallet.
 - If you hold multiple Hunters, the bot will automatically calculate and assign the **highest cooldown and reward boosts**, even if they come from different NFTs.
-

How to Play

Step 1: Participate in Hunts

- Use the `/hunt` command to start hunting.
Syntax: `/hunt`
- Rewards are calculated based on:
 - Random reward tiers with a range of **0-150 BXW per hunt** (without boosts).
 - A **10% chance of no reward + 12% of getting NFTs**
 - Your active **reward boost multiplier**.
- **Cooldown Between Hunts:**
 - Default cooldown: **60 minutes**.
 - Cooldown boosts reduce this time.

Step 2: Claim Your Rewards

- Use the `/claim` command to withdraw your earned rewards.
Syntax: `/claim`
- Ensure you meet the minimum claim threshold of **1,000 BXW**.

Step 3: Check Your Stats

- Use the `/info` command to view your current stats.
Syntax: `/info`
- Stats include:
 - WAX account.
 - Daily earnings and cumulative total.
 - Active boosts (if any).

Daily Earnings Cap

- Maximum daily earning limit: **1,000 BXW** (subject to change).
- Once you reach this cap, you won't earn further rewards until the next day.

Claim Threshold

- Minimum claim amount: **1,000 BXW** (subject to change after the release of **BXW**).

Boost Expiry

- Boosts are automatically **evaluated every 6 hours** and updated as needed.
-

Example Scenarios

Scenario 1: Hunting Without Boosts

- You register and start hunting without boost NFTs.
 - Cooldown: **60 minutes**.
 - Reward Multiplier: **1x**.

Scenario 2: Hunting With Boosts

- You register and hold eligible Hunter NFTs and Boosters.
 - Cooldown: Reduced based on your Hunter's boosts (e.g., **54 minutes with an 8% reduction for Common rarity**).
 - Reward Multiplier: Increased based on your Hunter's rarity and boosters (e.g., **1.2x rewards for Common rarity**).

Commands Summary

Command	Description	Syntax
<code>/register</code>	Register your WAX wallet.	<code>/register wax_account:<wallet></code>
<code>/hunt</code>	Start hunting for rewards.	<code>/hunt</code>
<code>/claim</code>	Claim your earned rewards.	<code>/claim</code>
<code>/info</code>	View your current stats and active boosts.	<code>/info</code>

Frequently Asked Questions (FAQs)

1. Can I register without owning a Pass Hunter NTT?

- No, you must own a **Pass Hunter NTT** to register and participate.

2. How do I upgrade my Hunter's rarity?

- Hunters can be upgraded once to a higher rarity using **upgrade mechanics**. The upgraded rarity is locked permanently.

3. How are rewards calculated?

- Rewards are based on random tiers, with boosts applied based on your Hunter's rarity and attributes.

4. Can I use multiple NFTs for boosts?

- If you hold more than one NFT the bot will look for the highest available boosts in all your NFTs and assign them. However the boosts are not accumulated.

Future Possibilities for Pass Hunter

As Pass Hunter has just been launched, the current reward system is designed to offer a straightforward and enjoyable experience. However, in the future, we may explore the possibility of introducing a **shared reward pool** or other enhancements to ensure sustainability and community involvement as the game evolves. These changes, if implemented, will be designed to enhance the overall experience while maintaining fairness and transparency.

The system may adapt over time to reflect the needs and feedback of the community, ensuring that Pass Hunter continues to grow and provide an engaging experience for all participants.
