Summary

General Information

"Practice English and Reading" is a product from USA Learns that builds English Language Learners' reading and writing skills as they engage with the 50+ reading passages available in the course. With topics ranging from family, to nature, to law and government, readers with a broad variety of interests should find something they will enjoy from these intermediate level texts. Each reading passage includes activities to build relevant vocabulary, followed by a list of comprehension questions that often require learners to draw conclusions from what they have read in the text. In addition to comprehension questions that target descriptor level 3 (or NRS 4) of the English Language Proficiency Standards, each reading passage is also accompanied with a writing prompt related to the passage. The course focuses most heavily on ELPS 1, 3, and 8.
