

Revised November 2021

Please visit the [ITMS website](#) for additional documentation and details.

[Step-by-step Student Instructions for Hypothes.is](#)

Step-by-step Student Instructions for Hypothes.is

Step 1

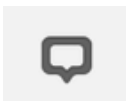

Create a hypothes.is account at web.hypothes.is

Be sure to remember username and password

Step 2

Add [hypothes.is extension](#) using Chrome browser

once the extension has been added to Chrome you will find the following symbol to the right of the address window

Step 3

Click on the symbol above and three tabs appear on the right

Step 4

Head to the web page you want to annotate

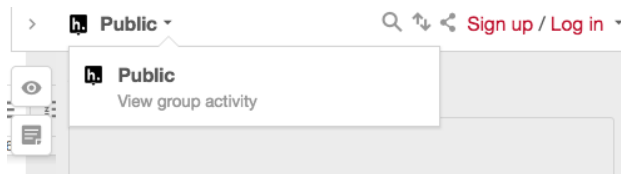

Open side panel and log in to account

Note: you can now annotate with your peers on a locally stored document. The following link [provides YouTube instruction on how to annotate in this manner using Hypothes.is.](#)

Step 5

If your instructor has assigned a closed group for class, please use the link provided to join.

Once you have joined the group be sure to click on Public and choose the correct course group in drop down menu before annotating

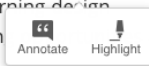

Step 6

Start Annotating

Once you are in the correct group, highlight the text you want to comment on and choose:

As this public-private partnership matures, the students will be provided a formalized design framework using a series of process and control steps that they will complete along with the patron. In addition, the learning designers will likely take a much more active role using assurance and quality checks throughout the project life cycle to ensure the outcomes are being met. A strong partnership with the department provided an opportunity to enhance the assignment by engaging sound learning design methodologies. We expect to see more of these applied learning methodologies as faculty begin to rethink their courses using emergent technologies.

Come back and visit!

The true value in shared annotation is engaging with fellow students and your instructor. Be sure to check back in and join the conversation as others add their thoughts or comments on the annotations you added.

Additional resources can be found [at Hypothes.is' website](#) including [this Hypothes.is video tutorial](#).

Troubleshooting: Troubleshooting: If you are using Chrome and it is not allowing you to work with the pdf file, open a second web browser tab and enter:
`chrome://settings/content/pdfDocuments?search=PDF`

Below “Default Behavior” select the “download PDFs” check box.
